*Labour Women* Pamela M. Graves, 1994-02-17 After winning the vote in 1918 many thousands of working class women joined the Labour Party and Co operative Movement This book is about their struggle to find a place in the male world of organised labour politics In the twenties labour women challenged male leaders to give them equal status and support for their reform programmes but the ideas were rejected For most labour women dedication to the class cause far outweighed their desire for power and the struggle for women power was abandoned Consequently despite the common reform agendas of labour women and the middle class feminists of the era a working alliance was never achieved *Labour Women* uses oral and questionnaire testimony to draw a portrait of grass roots activists It contrasts labour women s failure to win power in the national organisations with their great achievements in community politics poor law administration and municipal government

*Leaving America* John R. Wennersten, 2007-11-30 Today more than ever large numbers of Americans are leaving the United States It is estimated that by the end of the decade some 10 million of the brightest and most talented Americans representing an estimated 136 billion in wages will be living

and working overseas This emigration trend contradicts the internalized myth of America as the land of affluence opportunity and freedom What is behind this trend Wennersten argues that many people these days from college students to retirees are uncertain or ambivalent about what it means to be an American For example many are uncomfortable with that they believe America has come to represent to the rest of the world At the same time globalization and advances in technology have enabled the growth of a telecommuting work force whose members can live in one country and work in another and this trend among other factors has encouraged a new generation of people to respond to the pull of global citizenship Leaving America is an important reexamination of one of the most central stories in the history of American culture the story of the immigrant coming to the Promised Land While millions still come to America and millions more still wish to do so there is an important counterflow of emigration from America to distant parts of the planet This book focuses on modern American expatriates as a significant and heretofore largely ignored counterpoint phenomenon every bit as central to understanding modern America as is the image of a nation of immigrants The greatest irony in America today may well be that while argument and discord prevail in the edifice of American democracy about diversity economic justice equality and the Iraq War many of the most thoughtful citizens have already left the building

Overcoming the Ideology of Islam Serazhutdin Murtuzalievich Gadzhiev,1966

**Women and Martyrdom in Stalinist War Cinema** Mozhgan Samadi,2024-04-03 The key question asked in this book is

how did Stalinist war cinema present Soviet women's resistance against the Nazi forces during World War II This book challenges those scholarly works which support the idea of the compatibility of femininity and combat under Stalinism Despite the Soviet regime's claim of being opposed to any religious heritage this book reveals how Stalinist cinema drew on Russian religious tradition and culture in the creation of cinematic representations of Soviet women during WWII Further the book shows how the adoption of Russian cultural and religious heritage in Soviet war cinema served Stalinist collective identity construction policies and state citizen relations In so doing this study contributes to a range of fields within Russian and Soviet studies including gender studies cinema studies Soviet modernity and the study of identity construction and state nation relations Whilst this book is aimed at researchers and academics it provides a supplementary source for undergraduate and postgraduate students of Soviet Russian studies
