

# THE MILITARY SLEEP METHOD

To practice the military sleep method, you need to follow these steps;

## STEP 2 :

Now, try to **relax your muscles slowly**. Start from your forehead & move slowly downwards to your eyes, cheeks, mouth, and jaw. Pay attention to one part of your body at a time. During all this relaxation, keep breathing deeply.

## STEP 4 :

Keep working your way downwards. Once your upper body is relaxed, **slowly relax other parts of your body**. Start at your chest, move to the abdomen & then the pelvis. After that, bring your attention to your **thighs, knees, calves, ankles, feet, & finally your toes**.

## STEP 1 :

Close your eyes and **bring your attention to your breathing**. Try taking slow, deliberate, deep breaths.

## STEP 3 :

Now, bring the attention to your shoulders & arms. Once your facial muscles relax, **work on loosening your shoulder muscles & arms**. Start at your neck & release the tension gathered there. Drop your shoulders & let yourself relax in your bed. Continue the same with your arms starting from your biceps, forearms, hands, & finally fingers.

## STEP 5 :

Once your body is relaxed enough to sink into the bed, it's time to **clear and quiet your mind**. You can do this by imagining a calm place or your happy place. The idea of this exercise is to **calm and soothe your mind** to lull it into sleep.

Practice this military sleep method for six weeks, each night, and see how your sleep patterns improve for the better! This 2-minute sleep technique does have many health benefits that you can't miss out on.
