### REPORT BY THE INTERGOVERNMENTAL OCEANOGRAPHIC COMMISSION ON ITS ACTIVITIES (1995-1996)

#### OUTLINE

**Source:** Article 12 of the Statutes of the Intergovernmental Oceanographic Commission.

**Background:** In accordance with Article 12 of its Statutes IOC shall prepare regular reports on its activities which shall be submitted to the General Conference of UNESCO.

**Purpose:** The programme of IOC, as planned and approved by the sessions of the IOC Assembly, endorsed by the General Conference, is implemented in accordance with the available resources and the resolutions of the Assembly. Mid-term adjustments are made at the sessions of the IOC Executive Council as required in light of the resource situation. The development of IOC within UNESCO is an ongoing process. A certain priority in the programme has been allocated to the development of the Global Ocean Observing System, follow-up to UNCED, through regional and co-operative mechanisms, and TEMA activities.

**Decision required:** The report requires no decision.

## **The Intergovernmental Conference 1996 Commission Report For The Reflection Group:**

Reflection Group's Report [for the Intergovernmental Conference 1996]. European Commission,1995      **The Intergovernmental Conference 1996** European Commission,1995      Supranationalism in the New World Order Paul Close,Emiko Ohki-Close,1999-03-25 Supranationalism in the New World Order argues that in the post Cold War distribution of global power and configuration of global players the European Union is just one among a growing number of regional regimes that are acquiring prominent roles in the process of global governance to some extent through the operation of differentiated zones of geo political management The EU is currently the most advanced and influential example of a regional regime by virtue of having the novel European Community at its core the EC uniquely being constructed around supranational institutions decision making and laws But the EU s uniqueness is unlikely to last The evident competitive advantages of supranational regional regimes in conjunction with the realism generally adopted by the various global players is conducive to the consolidation and proliferation of SRRs in a manner consistent with the neo functionalist perspective on the progress of the EU Other prospective SRRs include the Association of Southeast Asian Nations the East Asian Economic Caucus the South Asian Society for Regional Cooperation the North American Free Trade Area and the Andean Community It is argued that the emerging character of the global system will increasingly depend on SRRs the relationships among such organizations and accordingly the doctrine of supranationalism The book offers a distinctive way of representing the global system global processes and global developments with the help of a set of freshly articulated concepts The result is a novel but highly contentious treatise      **Israel Yearbook on Human Rights, Volume 26 (1996)** Yoram Dinstein,Fania Domb,2020-10-26 The Israel Yearbook on Human Rights an annual published under the auspices of the Faculty of Law of Tel Aviv University since 1971 is devoted to publishing studies by distinguished scholars in Israel and other countries on human rights in peace and war with particular emphasis on problems relevant to the State of Israel and the Jewish people The Yearbook also incorporates documentary materials relating to Israel and the Administered Areas which are not otherwise available in English including summaries of judicial decisions compilations of legislative enactments and military proclamations Volume 26 contains amongst others articles on The Essence of Democracy Democracy in International Relations The Threats to Democracy and Democracy in Israel and the Palestinian Authority      **Anthropology of Policy** Cris Shore,Susan Wright,2003-12-16 Arguing that policy has become an increasingly central concept and instrument in the organisation of contemporary societies and that it now impinges on all areas of life so that it is virtually impossible to ignore or escape its influence this book argues that the study of policy leads straight into issues at the heart of anthropology      **A Wider Europe** Michael J. Baun,2000-08-02 This clear and engaging text examines the process and politics of the European UnionOs OEasternO enlargement beginning with its initial response to the 1989 revolution up through the Helsinki summit decisions of December 1999 Michael Baun explores such topics as the EUOs original decision to enlarge the pre accession

strategy for prospective members the key political decisions on launching and expanding the accession negotiations and the actual progress of the negotiations He also examines the EU's efforts to reform its policies and institutions in advance of enlargement Throughout Baun weaves in understandable explanations of the complex multilevel process of EU decisionmaking He concludes by considering the limits of enlargement and its consequences for the EU's future development

**From Vision To Reality** Trine Flockhart, 2019-03-13 From Vision to Reality takes the reader past the fixation with political decision making by focusing on the process of implementation that follows important policy decisions The book identifies the intentions behind a collection of key policy decisions for establishing Europe's new security order and investigates whether the implementation of those European Integration After Amsterdam Karlheinz Neunreither, Antje Wiener, 2000 European integration is at a turning point with implications for all member states and their citizens The Amsterdam treaty marks a shift towards constitutional issues Integration has involved a continually evolving process of constitution making A group of leading scholars argue that the shift towards constitutional issues is rooted not only in the issues on the European level but also in shifting models of political and economic organisation in the member states Paradoxically however this push towards integration is accompanied by a number of institutional changes and political decisions which challenge the picture of on going integration and indicate a shift towards a new pluralism in the Euro polity The contributors address questions such as what are the likely effects of the Amsterdam treaty changes in comparison with Maastricht how will these changes effect the complex balance among the governing institutions of the EU and what will be the implications for the lingering quest for democracy

**The Finnish Yearbook of International Law**, 1997-11-19 As of Volume VII 1996 The Finnish Yearbook will be published by Martinus Nijhoff Publishers Kluwer Law International Despite its Finnish initiative and pedigree The Finnish Yearbook of International Law does not restrict itself to purely Finnish topics On the contrary it reflects the many connections in law between the national and the international The Finnish Yearbook of International Law annually publishes in both English and French articles of high quality dealing with all aspects of international law including international law aspects of European law with close attention to developments that affect Finland Its offerings include longer articles of a theoretical nature exploring new avenues and approaches shorter polemics commentaries on current international law developments book reviews and documentation of relevance to Finland's foreign relations not easily available elsewhere The Finnish Yearbook offers a fertile ground for the expression of and reflection on the connections between Finnish law and international law as a whole and insight into the richness of this interaction

**Politics of European Treaty Reform** Geoffrey Edwards, Alfred Pijpers, 1997-01-01 The major constitutional political and legal issues confronting the European Union as the end of the century approaches are discussed in this book by scholars in the field Taking as their point of departure the Inter Governmental Conference of 1996 which will set the parameters for the next stage of integration in Europe they look at external and internal demands and pressures and at the interests and

strategies of the political actors involved The result is a wide ranging assessment of Europe s future      *Culture and Citizenship* Nick Stevenson,2001-01-26 Culture and citizenship are two of the most hotly contested concepts in the social sciences What are the relationships between them This book explores the issues of inclusion and exclusion the market and policy rights and responsibilities and the definitions of citizens and non citizens Substantive topics investigated in the various chapters include cultural democracy intersubjectivity and the unconscious globalization and the nation state European citizenship and the discourses on cultural policy      Soft Law in European Community Law Linda Senden,2004-09-28 This book offers the first systematic investigation of the phenomenon of soft law within the framework of the EC the first pillar of the EU and its use by the European Commission and Council of Ministers It focusses upon how soft law fits into the Community legal system and how it is used and in particular how it relates to Community legislation Differentiation of the Community instruments including the instruments of soft law is often thought to enhance the effectiveness legitimacy and transparency of the Community This book asks whether soft law indeed provides a satisfactory alternative to legislation from this perspective and if so in what cases and under what conditions Furthermore the author asks to what extent the use of soft law implies good governance and throws fresh light on this very heterogenous phenomenon by looking at frequently used instruments in many different areas of Community law such as competition law state aid environment social policy etc in the process identifying their different characteristics aims functions and legal effects What emerges is that the conditions under which soft law is used may be problematic in relation to increasing the legitimacy effectiveness and transparency of Community action This is a work which will interest legal practitioners confronted with the use of soft law and the question of its possible legal effect in an increasing number of sectors and academics interested in the vexed question of how the increased use of soft law can be justified in a Community legal order built upon the rule of law It is also critical of developments taking place within the framework of the European Convention and the proposed European Constitution and goes beyond the immediate problems of soft law to touch upon issues such as competence legal protection division of powers between the EC and the Member States institutional balance lawmaking by the Community Courts the scope of Community legal principles and the influence of soft law on the progressive development of both Community and national law      *Europe — Toward 2001* P. Coffey,2013-12-01 THEBACKGROUND Why a book on Europe Toward the Year 2001 There are two principal reasons why a European should embark upon such a hazardous enterprise First when the Treaty on European Union popularly known as the Maastricht Treaty and hereafter referred to as the Treaty in this introduction was signed in February 1992 it was agreed that the heads of government of the EU Member States would assemble in 1996 to examine its workings This meeting will be known as the Intergovernmental Conference IGC Second by the end of the century it is certain that arrangements will have been made for the admission of some countries of Central and Eastern Europe into the European Union EU Consequently even with or without the holding of the IGC it will be urgently necessary to reform some of the

Community's policies notably the Common Agricultural Policy CAP and the structural policies which are linked for example to Europe Toward 2001 with the Regional and Social Funds before these countries become members Failure to do this could result in bankruptcy for the EU Of almost equal importance is the reform of the institutions and the actual workings of the Community Already with 12 Member States it was difficult enough to manage things on a daily basis Now as more countries join the Union things could literally grind to a stop Thus changes in this area are indispensable **Explaining Institutional**

**Change in Europe** Adrienne Heritier, 2007-01-25 This book discusses the change of five important institutional rules of decision making in the European Union and proposes a general explanation of long term institutional change which is also applicable for the change of decision making rules beyond Europe The Developing Immigration and Asylum Policies of the European Union Elspeth Guild, Jan Niessen, 2023-08-07 Just as free movement and equal treatment were of crucial importance for the development of the European Community so common policies on immigration and asylum are indispensable for the deepening of the European Union This book summarizes against the backdrop of the developing overall goals of the European Community and the European Union the outcome of European policy making in these fields Furthermore the book contains the important texts concluded by the Member States in the field of immigration and asylum both intergovernmentally and within the Third Pillar of the Maastricht Treaty The commentary analyses the contents of each document in turn by reference to the existing international human rights obligations of the Member States **The**

**Enlargement of the European Union** Victoria Curzon Price, Alice Landau, Richard Whitman, 2012-11-12 This volume looks at the process of enlargement which the European Union is currently undertaking focusing on both the economic and political dimensions of the subject The volume examines how enlargement has evolved and looks at the roles and relations of the different actors member states applicant states and EU institutions With contributors coming from different disciplinary backgrounds the volume offers an unusually rich array of perspectives on one of the most significant political developments of recent years **The New Political Economy of EMU** Jeffry A. Frieden, Daniel Gros, Erik Jones, 1998 The creation of an economic and monetary union EMU in Europe is among the most important and controversial developments of the 1990s

This clear and balanced book brings together economists and political scientists to explain why the creation of a European monetary union is so contentious how the debate has affected the political determination to construct a monetary union and how it will influence the functioning of EMU into the next century Focusing on how economics and politics interact both in the prelude to unification and in its aftermath the authors provide an innovative analysis of a spectrum of related issues how EMU relates to Europe's unemployment crisis how it will affect the process of economic adjustment what convergence means for the performance of the member states separately and how the member states will decide both whether to participate themselves and whom else to admit to the monetary club **European Access**, 1998 Democracy in the European Union

Erik Oddvar Eriksen, John Erik Fossum, 2002-09-11 The European Union is widely held to suffer from a democratic deficit and

this raises a wider question can democracy at all be applied to decision making bodies beyond the nation state Today the EU is a highly complex entity undergoing profound changes This book asks how the type of cooperation that the EU is based on can be explained what are the integrative forces in the EU and how can integration at a supra national level come about The key thinkers represented in this volume stress that in order to understand integration beyond the nation state we need new explanatory categories associated with deliberation because a supranational entity as the EU possesses far weaker and less well developed means of coercion bargaining resources than do states The most appropriate term to denote this is the notion of deliberative supranationalism This pioneering work headed by major writers such as Habermas Schlesinger and Bellamy brings a new perspective to this key issue in contemporary politics and political theory
