The Incident At Naha:

The Incident at Naha Malcolm Joseph Bosse,1972 **Poisoning the Pacific** Jon Mitchell,2020-10-12 In this devastating expos investigative journalist Jon Mitchell reveals the shocking toxic contamination of the Pacific Ocean and millions of victims by the US military For decades US military operations have been contaminating the Pacific region with toxic substances including plutonium dioxin and VX nerve agent Hundreds of thousands of service members their families and residents have been exposed but the United States has hidden the damage and refused to help victims After World War II the United States granted immunity to Japanese military scientists in exchange for their data on biological weapons tests conducted in China in the following years nuclear detonations in the Pacific obliterated entire islands and exposed Americans Marshallese Chamorros and Japanese fishing crews to radioactive fallout At the same time the United States experimented with biological weapons on Okinawa and stockpiled the island with nuclear and chemical munitions causing numerous accidents Meanwhile the CIA orchestrated a campaign to introduce nuclear power to Japan the folly of which became horrifyingly clear in the 2011 meltdowns in Fukushima Prefecture Caught in a geopolitical grey zone US territories have been among the worst affected by military contamination including Guam Saipan and Johnston Island the final disposal site of apocalyptic volumes of chemical weapons and Agent Orange Accompanying this damage US authorities have waged a campaign of cover ups lies and attacks on the media which the author has experienced firsthand in the form of military surveillance and attempts by the State Department to impede his work Now for the first time this explosive book reveals the horrific extent of contamination in the Pacific and the lengths the Pentagon will go to conceal it [Memories of the Japanese Empire](#) Yuko Mio,2021-07-08 The contributors to this book examine and compare the colonial and decolonisation experiences of people in Taiwan and Nan y Gunt Micronesia who underwent periods of rule by the Greater Japanese Empire Early anthropological theory of Western imperialist countries focused on transforming savage cultures by ruling in a high handed manner When Japan asserted its hegemony through sudden colonisation its culture was perceived as inferior to the civilisation indices previously experienced by those it ruled How did these ruled nations construct their cultural and historical awareness in areas where the strategic design of Japan's civilising mission was not convincing After the end of World War II many emerging countries in the Third World achieved independence through various negotiations or struggles with their former colonial powers and built new relationships with their erstwhile rulers However after Japan's defeat Taiwan and Nan y Gunt became ruled by new foreign governments How did Japan's reign and transplanted Japanese culture affect the formation of historical awareness and cultural construction of present day communities in these two regions This book provides a fascinating ethnographic insight into the effects of empire and colonisation on the historic imagination which will be of great interest to historical anthropologists of Taiwan Japan and the Pacific **Okinawa: The History of an Island People** George H. The Incident at Naha Malcolm J. Bosse, 2017-09-06 Two murders one reason Living with her ex soldier lover Virgil Judy assumes the violence has been left in Vietnam But when their neighbour and Virgil's ex army comrade Don Stuart is murdered in his own apartment it seems that death has followed them from the war Although diminished by another murder of a larger scale Don's death begins to gain more significance when papers relating to an older racial incident in Naha are discovered in his possession Could it be that these two murders are connected A story within a story The Incident at Naha is a novel that will expand your consciousness in every other direction M J Bosse 1926-2002 was an American author of both young adult and adult novels He was born in Detroit Michigan and is a graduate of Yale University He served in the US Navy and was also an English teacher in City College of New York in Manhattan His novels are often set in Asia and have been praised for their cultural and historical information relating to the character's adventures Bosse mostly wrote historical fiction after the publication of The Warlord which quickly became a bestseller He also won the Deutscher Jugendliteraturpreis in 1983 *Japanese Morning Press Highlights*, 2009 **The Publishers Weekly**, 1972 **Japan and Okinawa** Glen D. Hook, Richard Siddle, 2003-08-29 Japan and Okinawa provides an up to date coherent and theoretically informed examination of Okinawa from the perspective of political economy and society It combines a focus on structure and

subjectivity as a way to analyze Okinawa Okinawans and their relationship with global regional and national structures. The book draws on a range of disciplines to provide new insights into both the contemporary and historical place of Okinawa and the Okinawans. The first half of the book examines Okinawa as part of the global regional and national structures which impose constraints as well as offer opportunities to Okinawa. Leading specialists examine in detail topics such as Okinawa as a frontier region, Okinawa's Free Trade Zones and response to globalization, and Okinawa as part of the Japanese construction state being particularly concerned with how Okinawa can chart its own course. The second half focuses on questions of identity and subjectivity examining the multitude of vibrant cultural practices that breathe life into the meaning of being Okinawan and inform their social and political responses to structural constraints. The originality of this book can be found in its elucidation of how the structural constraints of Okinawa's precarious position in the world, the region and as part of Japan impact on subjectivity. For many Okinawans in the past as now acceptance and rationalization of their dependency has made them collaborators in their own subordination. At the same time however they have demonstrated a capacity to give voice to a separate identity inscribing cultural practices marking them as different from mainland Japanese.

Broken

Arrow Jim Winchester, 2019-06-19 This unnerving expos of a lost American nuclear bomb is a valuable contribution to the history of the navy, the cold war and nuclear weapons. Booklist On December 5th 1965 the USS Ticonderoga was on its way from Vietnam to Japan practicing nuclear combat procedures along the way. A young pilot from Ohio strapped into an A-4 Skyhawk bomber for a routine simulated mission. But after mishandling the maneuver the plane and its pilot sunk to the bottom of the South China sea along with a live B43 one megaton thermonuclear bomb. A cover up mission began as rumors of sabotage began to circulate. The incident known as a Broken Arrow was kept under wraps for twenty five years. The details that emerged caused a diplomatic incident revealing that the US had violated agreements not to bring nuclear weapons into Japan. Broken Arrow tells the story of Ticonderoga's sailors and airmen, the dangers of combat missions and shipboard life and the accident that threatened to wipe her off the map and blow US-Japanese relations apart. For the first time through previously classified documents never before published photos of the accident aircraft and the recollections of those who were there the story of carrier aviation's only Broken Arrow is told in full.

Garo Z. Antreasian Garo Z.

Garo Z. Antreasian, 2016-01-15 Garo Z. Antreasian b. 1922 belongs to the great generation of innovators in mid twentieth century American art. While influenced by a variety of European artists in his early years it was his involvement with Tamarind Lithography Workshop starting in 1960 that transformed his work. As Tamarind's founding technical director he revolutionized the medium of lithography. He discovered how to manipulate the spontaneous possibilities of lithography in the manner of the Abstract Expressionist painters. In addition to reflecting on his work he writes movingly about his Armenian heritage and its importance in his art, his teaching and his love affair with all sorts of artistic media. Illustrating his drawings, paintings and prints this book reveals Antreasian as a major American artist. This book was made possible in part by generous
