**The Good Brexiteers Guide to English Lit** John Sutherland, 2018-10-15 What is Nigel Farage's favorite novel Why do Brexiteers love Sherlock Holmes Is Philip Larkin the best Brexit poet ever Through the politically relevant sideroad of English Literature writ large John Sutherland quarries the great literary minds of English history to assemble the ultimate reading list for Brexiteers Brexit shook Britain to its roots and sent shockwaves across the world But despite the referendum victory Brexit is peculiarly hollow It is an idea without political apparatus without sustaining history without field tested ideology As Sutherland argues it is without thinkers like Frankenstein waiting for the lightning bolt In this irreverent entertaining and utterly tongue in cheek new guide Sutherland suggests some stuffing for the ideological vacuity at the heart of the Brexit cause He looks for meaning in the works of William Shakespeare Jane Austen and Thomas Hardy in modern classics like *The Queen and I* and *London Fields* and in the British national anthem school songs and poetry Exploring what Britain meant means and will mean Sutherland subtly shows how great literary works have a shaping influence on the world Witty and insightful and with a preface by Guardian columnist and critic John Crace this book belongs on the shelves of anyone seeking to understand the bragging Brexiteers and the many diehard Remoaners too

[Shadows of Empire](#) Michael Kenny, Nick Pearce, 2018-05-04 The idea of an alliance between Britain and its old Commonwealth colonies has recently made a remarkable comeback in the context of Brexit Based on belief in a special bond between the English speaking peoples of the UK the USA Canada Australia and New Zealand it has been dubbed the Anglosphere by supporters and Empire 2.0 by critics In this book leading commentators Michael Kenny and Nick Pearce trace the historical origins of this idea back to the shadow cast by the British Empire in the late Victorian era They show how leading British political figures from Churchill to Thatcher consistently reworked it and how it was revived by a group of right wing politicians historians and pamphleteers to

support the case for Brexit They argue that while the contemporary idea of the Anglosphere as an alternative to European Union membership is seriously flawed it nonetheless represents an enduring account of Britain's role in the world that runs through the heart of political life over the last century *Shadows of Empire* will be essential reading for everyone interested in British politics and post Brexit foreign policy

**Eclipse of Empires** Patricia Jane Roylance, 2013-10 This book analyzes the nineteenth century American fascination with what the author calls narratives of imperial eclipse texts that depict the surpassing of one great civilization by another The central claim in this book is that historical episodes of imperial eclipse for example Incan Peru yielding to Spain or the Ojibway to the French heightened the concerns of many American writers about specific intranational social problems plaguing the nation at the time race class gender religion and economics

**The Post-Heroic Presidency** Michael A. Genovese, Todd L. Belt, 2016-06-13 This book examines how presidents from Nixon to Obama have faced the challenges of global leadership in a dramatically changing world one with more limited resources and an increasing number of threatening challengers The immediate post World War II era was undeniably a period of American power and influence Even during the Cold War the United States was the leader of the West exerting wide ranging power internationally But beginning with the Vietnam War America began experiencing a series of setbacks and challenges to its power The *Post Heroic Presidency Leveraged Leadership in an Age of Limits* examines how U S presidents have attempted to reverse or contend with this new era of limited power in which presidential leadership is hamstrung due to an increasingly globalized and interdependent world one where power is more diffuse and the system of checks and balances bind a president in an age of hyper partisanship The book examines presidents of the 20th and 21st centuries explaining how the first U S president to confront this new age was Richard Nixon who along with Henry Kissinger developed a sophisticated approach to deal with the recalibration of American power It documents how other recent presidents have either tried to make peace with limited power Jimmy Carter reverse the decline Ronald Reagan ignore the implications of limits George W Bush or find ways to lead that were less ambitious more prudent and less unilateral George H W Bush Bill Clinton and Barack

Obama In the cases of Clinton and Obama this shift to using soft power persuasion and multilateralism earned them criticism that they are weak thereby undermining their efforts to lead both at home and abroad     *The Americas in the Spanish World Order* James Muldoon, 2015-09-01 Juan de Solorzano Pereira 1575 1654 was a lawyer who spent eighteen years as a judge in Peru before returning to Spain to serve on the Councils of Castile and of the Indies Considered one of the finest lawyers in Spain his work *De Indiarum Jure* was the most sophisticated defense of the Spanish conquest of the Americas ever written and he was widely cited in Europe and the Americas until the early nineteenth century His work and that of the Spanish School of international law theorists generally is often seen as leading to Hugo Grotius and modern international law However as James Muldoon shows the *De Indiarum Jure* represents the fullest development of a medieval Catholic theory of international order that provided an alternative to the Grotian theory
