The Happiness Delusion Gustavo Bueno, 2019-11-26 Challenging the received wisdom surrounding the term happiness the Spanish philosopher Gustavo Bueno 1924 2016 sets his critical eye on the mass of literature bought and sold on highly dubious assumptions With his trademark erudition and precision Bueno breaks down the ignorance feeding into these assumptions laying out a classification of the incompatible and often unconscious models in play In doing so he deploys his system of philosophy philosophical materialism to comprehensively shred the Western canon history and science to lay the foundations for a much better informed understanding of happiness

This translation brings to an English language audience the first book length translation of the work of one of Spain's leading philosophers over the last 50 years one whose system of philosophy has influenced countless thinkers in Spain and abroad
