## **The International Containment Of Displaced Persons Humanitarian Spaces Without Exit:**

The International Containment of Displaced Persons Cecile Dubernet, 2017-07-12 This title was first published in 2001 This work examines four post Cold War interventions launched on behalf of people on the move international action in Iraq Bosnia Somalia and Rwanda Because these crises accompanied the emergence of the concept of Internationally Displaced Persons IDPs in international relations they have shaped the understandings of forced displacement issues such as ethnic cleansing need and humanitarian action The author looks at attitudes towards IDPs concluding that UN backed interventions regarding displaced civilians were primarily about deterring sometimes preventing them from escaping places of conflict Protection in this context became a device by which international protagonists sought to contain people on the move within the confines of their collapsed states As a result levels of safety effectively granted by the international community depended less on the vulnerability of populations than on Western fears of mass border crossings

**Would the World Be Better Without the UN?** Thomas G. Weiss, 2018-02-20 Do we need the United Nations Where would the contemporary world be without its largest intergovernmental organization And where could it be had the UN s member states and staff performed better These fundamental questions are explored by the leading analyst of UN history and politics Thomas G Weiss in this hard hitting authoritative book While counterfactuals are often dismissed as academic contrivances they can serve to focus the mind and here Weiss uses them to ably demonstrate the pluses and minuses of multilateral cooperation He is not shy about UN achievements and failures drawn from its ideas and operations in its three substantive pillars of activities international peace and security human rights and humanitarian action and sustainable development But he argues the inward looking and populist movements in electoral politics worldwide make robust multilateralism more not less compelling The selection of António Guterres as the ninth UN secretary general should rekindle critical thinking about the potential for international cooperation There is a desperate need to reinvigorate and update rather than jettison the United Nations in responding to threats from climate change to pandemics from proliferation to terrorism Weiss tells you why and how

Internal Displacement Thomas G. Weiss, David A. Korn, 2006-09-27 This new volume traces the normative legal institutional and political responses to the challenges of assisting and protecting internally displaced persons IDPs The crisis of IDPs was first confronted in the 1980s and the problems of those suffering from this type of forced migration has grown continually since then Drawing on official and confidential documents as well as interviews with leading personalities Internal Displacement provides an unparalleled analysis of this important issue and includes an exploration of the phenomenon of internal displacement and of policy research about it a review of efforts to increase awareness about the plight of IDPs and the development of a legal framework to protect them a behind the scenes look at the creation and evolution of the mandate of the Representative of the Secretary General on IDPs a variety of case studies illustrating the difficulties in overcoming the operational shortcomings within the UN system a foreword by former UN high commissioner

for refugees Sadako Ogata Internal Displacement will appeal to students and scholars with interests in war and peace forced migration human rights and global governance      *UNHCR Associate Professor Department of International Development Alexander Betts, Chairman of the External Advisory Board to the United Nations High Commissioner for Refugees in Geneva and Professor of International Relations Gil Loescher, James Milner, 2008-08* This is a concise and comprehensive introduction to both the world of refugees and the UN organization that protects and assists them Written by experts in the field this is one of the very few books that trace the relationship between state interests global politics and the work of the United Nations High Commissioner for Refugees UNHCR Looking ahead into the twenty first century the authors outline how the changing nature of conflict and displacement poses UNHCR with a new array of challenges and how there exists a fundamental tension between the UN's human rights agenda of protecting refugees fleeing conflict and persecution and the security political and economic interests of states around the world Key topics discussed include The UNHCR as an actor in world politics since 1950 Refugee definition and protection instruments New challenges to the UNHCR's mandate Institutional strengths and weaknesses Asylum crises in the global North and global South Protracted refugee situations and internally displaced persons Key criticisms and continuing relevance of the UNHCR      What's Wrong with the United Nations and How to Fix it Thomas G. Weiss, 2009 Six decades after its establishment the United Nations and its system of related agencies and programs is perpetually in crisis While World War I and World War II gave rise to ground breaking efforts at international organization in 1919 and 1945 the UN today seems ill equipped to deal with modern challenges to world order Neither the end of the Cold War nor the aftermath of 9 11 has led to the creation of a next generation of multilateral institutions But what exactly is wrong with the UN and how can we fix it Is it possible to retrofit the world body In this succinct and illuminating analysis Thomas G Weiss takes a diagnosis and cure approach to the world organization's inherent difficulties In the first half of the book he considers the problems of international leadership and decision making in a world of self interested states the diplomatic difficulties caused by the artificial divisions between the industrialized North and the global South the structural problems of managing the UN's many overlapping jurisdictions agencies and bodies and the ever demanding challenges of bureaucracy and leadership The second half examines how to mitigate these maladies and points the way to a more ideal world in which the UN's institutional ills might be cured His remedies are not based on pious hopes of a miracle cure for the UN but rather on specific and encouraging examples that could be replicated With considered optimism and in contrast to received wisdom Weiss contends that substantial change in intergovernmental institutions is plausible and possible This indispensable book will spark debate amongst students scholars and policy makers concerned with international politics as well as anyone genuinely interested in the future of the United Nations and international cooperation      **Refuge beyond Reach** David Scott FitzGerald, 2019-03-14 Why do people seeking asylum often break immigration laws *Refuge Beyond Reach* shows how rich democracies deliberately and systematically shut down most legal

paths to safety An architecture of repulsion in the air at sea and on land keeps most refugees far away from places where they can ask for sanctuary

*Individual Agency and Policy Change at the United Nations* Ingvild Bode, 2015-03-24 This book highlights how temporary international civil servants play a crucial role in initiating processes of legal and institutional change in the United Nations system These individuals are the missing creative elements needed to fully understand the emergence and initial spread of UN ideas such as human development sovereignty as responsibility and multifunctional peacekeeping The book Shows that that temporary UN officials are an actor category which is empirically crucial yet usually neglected in analytical studies of the UN system Focussing on these particular individual actors therefore allows for a better understanding of complex UN decision making Demonstrates how these civil servants matter looking at what their agency is based on Offering a new and distinctive model Bode seeks to move towards a comprehensive conceptualisation of individual agency which is currently conspicuous for its absence in many theoretical approaches that address policy change Uses three key case studies of international civil servants Francis Deng Mahbub ul Haq and Marrack Goulding to explore the possibilities of this specific group of UN individuals to act as agents of change and thereby test the prevailing notion that international bureaucrats can only act as agents of the status quo This book will be of great interest to students and scholars of international organizations and the United Nations

*Routledge Handbook of Peace, Security and Development* Fen Osler Hampson, Alpaslan Özerdem, Jonathan Kent, 2020-06-04 This Handbook offers a comprehensive examination of the peace security and development nexus from a global perspective and investigates the interfaces of these issues in a context characterised by many new challenges By bringing together more than 40 leading experts and commentators from across the world the Handbook maps the various research agendas related to these three themes taking stock of existing work and debates while outlining areas for further engagement In doing so the chapters may serve as a primer for new researchers while also informing the wider scholarly community about the latest research trends and innovations The volume is split into three thematic parts Concepts and approaches New drivers of conflict insecurity and developmental challenges Actors institutions and processes For ease of use and organisational consistency each chapter provides readers with an overview of each research area a review of the state of the literature a summary of the major debates and promising directions for future research This Handbook will be of much interest to students of peace and conflict studies development studies security studies and International Relations

*International Organizations as Self-Directed Actors* Joel Oestreich, 2012-05-23 This exciting new text illustrates and advances the argument that International Organizations IOs need to be taken seriously as actors in world affairs Bringing together an international line up of distinguished contributors the text examines recent theories that suggest how IOs are able to set their own policies and implement them in meaningful ways The chapters review these theoretical positions and then present a series of case studies which focus on how these theories play out when IOs are charged with solving global problems including development peacekeeping and environmental policy coordination Examining

and analysing both positive and negative examples of this independence this text is a valuable resource on the topic of the internal workings of IOs providing the richest and most focused textbook so far dealing with the capacity of IOs for independent action in international politics It is essential reading for all students of international organizations

**Handbook of Research on the Regulation of the Modern Global Migration and Economic Crisis** Alaverdov, Emilia, Bari, Muhammad Waseem, 2023-02-17 Migration is not a new phenomenon it has a centuries long history since the world's population has been characterized by the desire to relocate not only from one country to another but from one continent to another as well However there is a significant difference between the migrations of the past and the current one Today's migration is complicated by the strong emotional reaction and hostile attitude from society The study of migration processes needs interdisciplinary approaches The Handbook of Research on the Regulation of the Modern Global Migration and Economic Crisis presents emerging research and case studies on global migration in the modern world Through interdisciplinary approaches it further showcases the current challenges and approaches in regulation Covering topics such as forced migration human trafficking and national identity this major reference work is an excellent resource for migration specialists government officials politicians sociologists economists students and educators of higher education researchers and academicians

**Human Rights and Refugees, Internally Displaced Persons and Migrant Workers** Anne Fruma Bayefsky, Joan M. Fitzpatrick, Arthur C. Helton, 2006 Examines the major issues in the field today the theoretical challenges of international protection lessons learned from the field including Afghanistan Iraq and Sudan jurisprudential responses from courts due process issues from Europe Canada and the United States and the special needs of migrant workers

**The Ashgate Research Companion to Ethics and International Relations** Patrick Hayden, 2016-04-01 While skepticism about the role of moral considerations in international politics has been influential within the discipline of international relations IR those writing on topics such as war peace rights and trade up until the twentieth century took seriously the importance of ethical values and moral debates The 1990s and 2000s have seen a substantial growth of attention to the ways in which IR conceives and analyzes themes of an ethical nature and how issues problems and policies involving ethics are addressed by a variety of actors within the international system This indispensable research companion widens the perspective from ethics and international relations to ethics in international relations redressing the misperception that ethical concepts principles norms and rules are not in part constitutive of the international system and the agents acting within that system Necessarily cross disciplinary expertise is drawn from IR and also philosophy political theory religious studies history and law making this an ideal volume for any library reference collection

**Forced Displacement** K. Grabska, L. Mehta, 2008-11-12 Uprootedness exile and forced displacement be they due to conflict persecution or so called development are conditions which characterise the lives of millions across the globe This book analyses a range of displacement situations including development oustees refugees and internally displaced persons

**Migration-Displacement Nexus** Khalid Koser, Susan Martin, 2011-09-01 The migration displacement nexus is a new concept intended to capture the complex and dynamic interactions between voluntary and forced migration both internally and internationally Besides elaborating a new concept this volume has three main purposes the first is to focus empirical attention on previously understudied topics such as internal trafficking and the displacement of foreign nationals using case studies including Afghanistan and Iraq the second is to highlight new challenges including urban displacement and the effects of climate change and the third is to explore gaps in current policy responses and elaborate alternatives for the future

**Migration Studies** Avijit Mistri, MD SELIM REJA, Bhaswati Das, 2025-05-30 This book is an essential toolkit for students and early researchers of population studies and demography geography economics development studies political science sociology anthropology and gender studies The volume Presents in depth coverage of basic concepts Includes empirical data case studies and references for further reading Covers critical aspects of migration studies ranging from the theoretical to contemporary issues and policies The book will be of interest to scholars students researchers or anyone interested in migration and diasporic studies development studies the politics of migration immigration policy social anthropology economics and sociology

*Biopolitics, Governmentality and Humanitarianism* Volha Piotukh, 2015-04-10 This book critically analyses the changing role and nature of post Cold War humanitarianism using Foucault's theories of biopolitics and governmentality It offers a compelling and insightful interpretation of the policies and practices associated with new humanitarianism in general as well as of the dynamics of two specific international assistance efforts the post 2001 conflict related assistance effort in Afghanistan and the post 2000 Chernobyl related assistance effort in Belarus The central argument of the book is that new humanitarianism represents a dominant regime of humanitarian governing informed by globalising neoliberalism and is reliant on a complex set of biopolitical disciplinary and sovereign technologies It demonstrates that while the purposes of humanitarian governing are specific to particular contexts its promise of care is more often than not accompanied by sovereign and or biopolitical violences Making an important contribution to existing scholarship on humanitarian emergencies and humanitarian action on biopolitics and governmentality this book will be of much interest to students and scholars of humanitarianism critical security studies governmentality and International Relations generally

Migration and Climate Change Étienne Piguet, Antoine Pécoud, Paul F. A. Guchteneire, 2011-06-23 This book provides an authoritative analysis of the impact of climate change on migration

A Micro-Sociology of Violence Jutta Bakonyi, Berit Bliesemann de Guevara, 2014-06-11 This book aims at a deeper understanding of social processes dynamics and institutions shaping collective violence It argues that violence is a social practice that adheres to social logics and in its collective form appears as recurrent patterns In search of characteristics mechanisms and logics of violence contributions deliver ethnographic descriptions of different forms of collective violence and contextualize these phenomena within broader spatial and temporal structures The studies show that collective violence at least if it is sustained over a

certain period of time aims at organization and therefore develops constitutive and integrative mechanisms Practices of social mobilization of people and economic resources their integration in functional structures and the justification or legitimization of these structures sooner or later lead to the establishment of new forms of violent orders be it at the margins of or beyond the state Cases discussed include riots in Gujarat India mass violence in Somalia social orders of violence and non violence in Colombia humanitarian camps in Uganda trophy taking in North America and violent livestock raiding in Kenya This book was originally published as a special issue of Civil Wars      Relocation Failures in Sri Lanka Robert Muggah, 2013-04-04 Each year millions of people are internally displaced and resettled in the wake of wars and floods or to make way for large scale development projects and this number is increasing Humanitarian and development specialists continue to struggle with designing and executing effective protection strategies and durable solutions Relocation Failures explains how internal displacement and efforts to engineer resettlement are conceived and practiced by policy makers and practitioners The author argues that policies for internally displaced peoples are weak and diluted by narrow interpretations of state sovereignty and collective action dilemmas and in the case of Sri Lanka unintentionally intensified ethnic segregation and ultimately war This unique new book considers the origins and parameters of internal displacement and resettlement policy and practice and proposes an explanation for why it often fails In highlighting the ways that development assistance can exacerbate smoldering conflicts the volume provides an important caution to the aid community      *Refugees Worldwide* Doreen Elliott, Uma A. Segal, 2012-08-03 Utilizing international perspectives this unprecedented collection of essays from leading authorities on refugee studies spotlights the realities and challenges of the global refugee population With increasing changes in the socio political climate of the world as well as with the rising numbers of natural disasters people of all ethnicities and nationalities are frequently forced from their homes and their homelands While there is a substantial body of work that addresses refugee policies post traumatic stress disorder and other specific issues there have been few attempts to understand refugee health or comprehend overall refugee adaptation until now This is the first work to address refugee issues worldwide addressing the psychological health human rights political public policy law economic social and personal aspects of this universal problem Refugees Worldwide also includes examples of first person refugee stories from around the world eye opening information not available in any other work Drawing on the expertise of myriad international researchers theoreticians and practitioners from representative nations around the world this four volume set effectively speaks to a number of refugee issues from a truly global perspective
