Social Accounting Matrix for India Basanta K Pradhan, M R Saluja, Shalabh K Singh, 2006-04-17 A new social accounting matrix SAM for the Indian economy is presented in this book It addresses the need for an up to date and detailed SAM for India which classifies household incomes by sources of income from different occupations It distinguishes 60 sectors of production and six categories of occupational households separately for rural and urban areas **Pro-poor Growth and Liberalization in Developing Economies**

Pro-poor Growth and Liberalization in Developing Economies Sanjaya Acharya, 2013-03-01 By looking at the link between trade liberalization and pro poor growth in Nepal this book explores how a developing and transition economy can attain higher and pro poor growth along with the ongoing trend of globalization The author develops a social accounting database for Nepal and applies it to quantify computable general equilibrium CGE model to investigate the trade offs between growth and distribution that are associated with opening up the economy and deregulating it The book presents a number of pragmatic scenarios that bring about the desired pro poor growth effects in order to demonstrate possible outcomes for policy making The research findings apply to other economies

with similar macroeconomic structure to Nepal those small economies with a dominant traditional and stagnant agriculture fragile industrial base weak and volatile external sector and almost half of the population living below the poverty line This book will be of considerable interest to students and scholars in the areas of development economics political economy of policy reforms and trade and poverty with special emphasis on South Asia *Quantitative Tourism Industry Analysis* Tadayuki Hara,2008-09-10 Quantitative Tourism Industry Analysis is the first book to deal with the input output social accounting matrix in a way which readers from a non economics or non mathematical background can follow in order to understand how useful their application would be for tourism industry analysis It acquaints readers with useful applications of economic modelling without the unnecessary burden of higher algebra so that they will understand concepts of the economics measurement system Tourism Satellite Accounts TSA methodology Quantitative Tourism Industry Analysis offers a new set of economic tools for tourism policy analysis ideal for those with a non mathematical background *Development Economics Research Trends* Gustavo T. Rocha,2008 Development economics is a branch of economics which largely deals with the economic aspects of the development process in developing countries with a focus on methods of promoting economic growth while also dealing with the economic social political and institutional mechanisms both public and private necessary to bring about rapid and large scale improvements in levels of living for the peoples living in developing countries This new book presents the latest research in this growing field *Case Study on South-South Cooperation: PRC-ADB Knowledge-Sharing Platform* Asian Development Bank,2012-08-01 This publication showcases the beginnings of the People s Republic of China Asian Development Bank knowledge sharing platform its context activities challenges and lessons learned It concludes by mapping out the next steps to bring it to its strategic mission **Economic Models for Policy Making** Solomon Cohen,2013-05-02 Over the past decades many different kinds of models have been developed that have been of use to policy makers but until now the different approaches have not been brought together with a view to enhancing the systematic unification and evaluation of these models This new volume aims to fill this gap by bringing together four decades worth of work by S I Cohen on economic modelling for policy making Work on older models has been rewritten and brought fully up to date and these older models have therefore been brought back to the fore both to assess how they influenced more recent models and to see how they could be used today The focus of the book is on models for development policies in developing economies but there are some chapters that relate to economic policies in transition and developed economies The policy areas covered are of typical interest in developing and transition economies They include those relating to trade liberalization reforms sustainable development industrial development agrarian reform growth and distribution human resource development and education public goods and income transfers Each chapter contains a brief assessment of the empirical literature on the economic effects of the policy measures discussed in the chapter The book presents a platform of economic modelling that can serve as a refresher for practising professionals as well as a reference companion for graduates

Institutions, Goals, Policies And Analytics In Economic Development Solomon I Cohen, 2024-07-09 The field of Development Economics DE has overstretched over time with risks of becoming shallow There is a need for the compartmentalization of DE that focuses on simplification oversight productivity and relevance This volume is a handbook in development economics with a compartmentalized perspective It makes use of case study applications both recent and over the last few decades Next to 2 introductory chapters that elaborate on the development regions the book falls in five parts The first part consisting of two chapters displays structural system changes in the development regions examines institutions that discourage promote development and applies institutional modelling to related case studies of land reform in India and Chile The second part consisting of two chapters takes the courageous step of discussing measuring and posting the twin development goals of growth with redistribution as the primary development goals and analysing their trade offs for major countries in the six development regions Secondary development goals are important but they correlate with the primary goals and are considered as conditional The third part consisting of eight chapters contains applications on multi sector development policies The applications use the Social Accounting Matrix and related economy wide modelling They highlight alternative policies to achieve the development goals of growth and redistribution in Pakistan Indonesia Korea UAE Nepal Sudan Suriname and other countries The fourth part consisting of six chapters examines human resource development and policies in the areas of labor market information systems labor market adjustments manpower forecasts earnings profiles educational plans and intergenerational mobility with case studies related to Pakistan Indonesia Colombia Korea Ethiopia The fifth and final part consisting of two chapters focuses on world development and global governance in particular the persistent income disparities at the global level in spite of the strengthened positions of the development regions in the world economy the consequences of shifting dominance for world governance the evaluation of the G 20 and a proposed more representative world governance Throughout all chapters special attention is devoted to introducing and applying analytical methods that have proven to be fundamental in development economics

Public Expenditure and Income Distribution in Malaysia

Mukaramah Harun, Sze Ying Loo, 2022-07-19 This book studies the impact of public expenditure allocations in achieving income equality goals in Malaysia The book examines the initial functional and institutional distribution of income across different institutional agents and sectors and evaluates the impact of the public expenditure policies in reducing the inter ethnic and rural urban disparity

Since Malaysia has made enormous progress in eliminating poverty the authors suggest that a change of emphasis in the public expenditure policy may now be called for They present evidence on the importance of public expenditure in improving income inequality and examine the initial functional and institutional distribution of income across different institutional agents and sectors The development of the Social Accounting Matrix SAM model that presents both economic and social statistics in an economy can be served as a useful tool of this work The SAM model is used to evaluate the impact of the public expenditure policies in reducing inter ethnic and rural urban disparity A comprehensive source of information on how to deal with inequality economic challenges the book will be of interest to economists and researchers on Southeast Asian Studies
