Varma, 2014-09-19 Aimed at trainee and experienced teachers, this text examines what can be done to alleviate behavioural problems in schools and presents work in this area. Useful both as a reference and a practical guide, the book can help practitioners meet the requirements of Every Child Matters. Drawing on over 20 years' experience working with teachers and parents, the author's approach is down to earth, encouraging and challenging. The second edition has a new easy-to-follow layout with chapters containing practical points, new case study materials and updated references. Other brand new features include a 10 steps programme setting out clear strategies to use material on the use of stories, discussion of problems with time out, cutting edge coverage of ADHD, chaos, autism, language problems and attachment, ideas for managing parent meetings in school. Written for staff in nurseries and schools, mainstream and special, and for lecturers and researchers in departments of education, this book is ideal for anyone wanting to understand more about attention seeking and reduce this unwanted behaviour in the young people they work with. *Psychological Approaches to Rehabilitation after Traumatic Brain Injury* Andy Tyerman, Nigel S. King, 2009-01-26 The psychological effects of traumatic brain injury (TBI) provide a major challenge to rehabilitation services. This text will increase understanding of the nature of these effects and provide practical guidance from experienced practitioners about psychological interventions for use in both rehabilitation and long term adjustment. Provides practical guidance and illustrative case examples from experienced practitioners. Structured around five main areas: overview of psychological effects and services; cognitive rehabilitation; managing emotional and behavioural problems; vocational rehabilitation and family impact and interventions. **Managing Challenging Behaviour Following**
