Social Anthropology And Medicine:

The Anthropology of Medicine Lola Romanucci-Ross, Daniel Moerman, Laurence R. Tancredi, 1997-09-30 This long awaited revision of what has now become the classic text in medical anthropology contains a wealth of new material on subjects as diverse as aging creativity and ideology Originally cited in *American Anthropologist* R as must reading for all medical anthropologists physicians advanced medical anthropology students and advanced medical students this new edition should prove twice as valuable It is both a comprehensive introduction to the rapidly growing field of medical anthropology and a state of the art reference work The authors bring new perspectives to our understanding of both Western and non Western medicine from the biochemical and physiological aspects of health care in preindustrialized cultures to cultural and ideological factors inherent in past and present Western medical care New chapters focus on ethnobotany placebo and pain shamanism and psychiatry The contributors to this volume examine the acculturation process of healer physician and patient in diverse cultural settings They explore the social and cultural context of medical events as well as the process of medical thought and problem solving Medicine they illustrate embraces or is embraced by both the cultural and biological dimensions of mankind From this perspective they show how human belief knowledge and action structure the experience of disease and affect ways in which doctors healers and patients experience illness and influence the matrix of decision making This book is essential for students and professionals in anthropology medicine and all social science **The Anthropology of Medicine**

Lola Romanucci-Ross, 1983 **Social Anthropology and Medicine** Association of Social Anthropologists of the Commonwealth, 1976 Patients and Healers in the Context of Culture Arthur Kleinman, 1980 Patients and healers in the context of culture an exploration of the borderland between anthropology medicine and psychiatry describes observations of clinical interviews between various medical practitioners namely folk healers temple medicine men and Chinese style and Western style physicians and their patients It stresses the importance of adopting proper cultural perspectives making one's interpretations within that framework and relying on direct observation and urges an integration of social and cultural methods into the routine training of doctors so as to enable a more humane and appropriate clinical practice Medical anthropology is rich with anecdote and description focused on one or another aspect of patients or diseases practitioners or healing symbolisms or religion This book takes us beyond such details and provides an integrating theoretical framework operational models and a systematic methodology of study that will allow the clinician and investigator to avoid the quagmires of ethnocentricity and reductionist formulation The material is based on ten years of comparative cross cultural research of Chinese medical systems at the National Taiwan University Harvard University the University of Washington and the National Institutes of Health **Understanding and Applying Medical Anthropology** Peter J. Brown, 1998 This collection of readings exposes students to the breadth of theoretical viewpoints and issues in the field of medical anthropology The text provides specific examples and case studies of research as it is applied in a range of health settings

from clinical encounters to preventive services to international health Writing at the Margin Arthur Kleinman,1995 This is the work of an energetic scholar whose capacity to read digest and reflect on ideas in diverse domains of inquiry is probably unequaled in the field Sue Estroff author of Making It Crazy An important book Charles Leslie coeditor of Paths to Asian Medical Knowledge The Handbook of Social Studies in Health and Medicine Gary L Albrecht,Ray Fitzpatrick,Susan C Scrimshaw,2003-04-21 This book brings together world class figures to provide an indispensable comprehensive resource book on social science health and medicine **New Horizons in Medical Anthropology** Mark Nichter,Margaret M. Lock,2002 These cutting edge essays and case studies on issues like AIDS medical technologies and overpopulation are collected here in honour of Charles Leslie the influential anthropologist **ON KNOWING AND NOT KNOWING IN THE ANTHROPOLOGY OF MEDICINE** Roland Littlewood,2007-02-15 This collection of 12 essays examines the ways a variety of cultures locate boundaries of medical knowledge understand conflicts and changes and create cultures of health

Medicine Across Cultures Helaine Selin,2006-04-11 This work deals with the medical knowledge and beliefs of cultures outside of the United States and Europe In addition to articles surveying Islamic Chinese Native American Aboriginal Australian Indian Egyptian and Tibetan medicine the book includes essays on comparing Chinese and western medicine and religion and medicine Each essay is well illustrated and contains an extensive bibliography **The Social Science Encyclopedia** Adam Kuper,2003-12-16 The Social Science Encyclopedia first published in 1985 to acclaim from social scientists librarians and students was thoroughly revised in 1996 when reviewers began to describe it as a classic This third edition has been radically recast Over half the entries are new or have been entirely rewritten and most of the balance have been substantially revised Written by an international team of contributors the Encyclopedia offers a global perspective on the key issues within the social sciences Some 500 entries cover a variety of enduring and newly vital areas of study and research methods Experts review theoretical debates from neo evolutionism and rational choice theory to poststructuralism and address the great questions that cut across the social sciences What is the influence of genes on behaviour What is the nature of consciousness and cognition What are the causes of poverty and wealth What are the roots of conflict wars revolutions and genocidal violence This authoritative reference work is aimed at anyone with a serious interest in contemporary academic thinking about the individual in society Anthropological Approaches to Psychological Medicine Vieda Skultans,John Lee Cox,2000 This text brings together clinicians and researchers in psychiatry and mental health The aim is to explore what we can learn from anthropology to achieve a contextual understanding of mental illness and health in contemporary society The book contains a wide selection of ideas and works well to bridge the gap between anthropology and psychiatry Social Lives of Medicines Susan Reynolds Whyte,Sjaak van der Geest,Anita Hardon,2002 Medicines are the core of treatment in biomedicine as in many other medical traditions As material things they have social as well as pharmacological lives with people and between people They are tokens of healing and hope as well as valuable commodities

Each chapter of this book shows drugs in the hands of particular actors mothers in Manila villagers in Burkina Faso women in the Netherlands consumers in London market traders in Cameroon pharmacists in Mexico injectionists in Uganda doctors in Sri Lanka industrialists in India and policymakers in Geneva Each example is used to explore a different problem in the study of medicines such as social efficacy experiences of control skepticism and cultural politics commodification of health the attraction of technology and the marketing of images and values The book shows how anthropologists deal with the sociality of medicines through their ethnography their theorizing and their uses of knowledge *Anthropology in Medical Education* Iveris Martinez, Dennis W. Wiedman, 2021-03-04 This volume reflects on how anthropologists have engaged in medical education and aims to positively influence the future careers of anthropologists who are currently engaged or are considering a career in medical education The volume is essential for medical educators administrators researchers and practitioners those interested in the history of medicine global health sociology of health and illness medical and applied anthropology For over a century anthropologists have served in many roles in medical education teaching curriculum development administration research and planning Recent changes in medical education focusing on diversity social determinants of health and more humanistic patient centered care have opened the door for more anthropologists in medical schools The chapter authors describe various ways in which anthropologists have engaged and are currently involved in training physicians in various countries as well as potential new directions in this field They address critical topics such as the history of anthropology in medical education humanism ethics and the culture of medicine interprofessional and collaborative clinical care incorporating patient perspectives in practice addressing social determinants of health health disparities and cultural competence anthropological roles in planning and implementation of medical education programs effective strategies for teaching medical students comparative analysis of systems of care in Japan Uganda France United Kingdom Mexico Canada and throughout the United States and potential new directions for anthropological engagement with medicine The volume overall emphasizes the important role of anthropology in educating physicians throughout the world to improve patient care and population health SOCIAL ANTHROPOLOGY AND MEDICINE- BASED ON PAPERS PRESENTED AT THE ANNUAL CONFERENCE- ASSOCIATION OF SOCIAL ANTHROPOLOGISTS OF THE
