Faith-Based Education That Constructs HeeKap Lee,2010-08-09 Constructivism is everywhere It is a hot issue at this time in the field of philosophy education technology and religion However can constructivism be an alternative approach in faith based education While some conclude that Jesus knew learning was an active knowledge creating process and that he always encouraged his disciples to think deeply and go beyond the surface level others would find that constructivism undercuts faith based education because of its claims to relativity For example constructivists claim that meaning is imposed on the world by us rather than existing in the world independently from us Thus they proclaim that truth is relative to particular times places and people Christians hold that truth does exist absolutely So how can there be a way forward for faith based educators who see the good in the constructivist approach In Faith Based Education that Constructs readers will find a unique approach whereby constructivism may appropriately be applied to a faith based education setting Although disagreement can occur between constructivism and faith based education this book concludes that constructivist thought and Christian faith based education are in the end congruent and harmonious in significant ways Those faith based educators who continue to hold cautionary views of radical constructivist assertions against absolute truths need not disregard all other aspects of constructivism

Read the Bible for Life George H. Guthrie,2011-01-01 The Bible may be the most purchased book in the world but it is often the least read and least applied due to a basic lack of understanding and motivation on the part of readers Read the Bible for Life aims to improve biblical literacy in the culture and the church by simultaneously moving readers toward greater skill in reading the Bible well and toward a deeper commitment to applying Scripture to everyday life Through a series of down to earth conversations with some of today s brightest scholars author George Guthrie discusses the basic tools and attitudes needed to read the Bible more effectively Chapters focus on the various types of literature in

Scripture and how to read them well For instance how should we read a psalm differently than we read a parable How should we read a story of the Old Testament differently than we read a letter from Paul How can we engage these various parts of Scripture in a way that is truly life changing The book also discusses issues such as reading the Bible in context choosing and reading a Bible translation reading in times of sorrow or suffering and reading the Bible with your family As we better understand how to read the Bible skillfully we begin to see how every person of the Bible every psalm and every teaching fits into the Bible s powerful overarching story and we begin to realize our place in the story God is still writing in the world
