Teacherstudent Relationship And Its Impact On Student Unrest:

Teacher-student Relationship and Its Impact on Student Unrest Subhas Chandra Ghose, 1989 Throw light upon the causes that contribute to the restlessness among students. Students are not to be blamed for their being restive and violent. They are the products of the situations in which they are being raised. They are what they are shaped to be. Since the ancient times an authoritarian tendency has characterised the attitudes of teachers among others in authority in educational institutions towards the students. Students have not had the necessary attention and affection. The most important of the causes stands out to be the absence of cordial teacher student relationship plus the conducive educational and institutional environment. Recommendations: It is interesting to note that a good teacher even if he is not a good man is more respected than a bad teacher who may be a good man. It is obvious therefore that professional excellency and commitment on the part of the teachers will go a long way to curb student unrest in our educational institutions. Dr S N Ratha Professor and Head Post Graduate Department of Anthropology and Sociology Sambalpur University Orissa. The author has done his work critically and well. He has chosen a new parameter Teacher student Relationship in his study and is well taken. From authors like McCormack to Altbach very few authors have explored this dimension of the problem except very tangentially. Mr Ghose's is a full length study on this dimension with all its ramifications. I congratulate the author for his painstaking and critical expose. Bela Dutt Gupta Professor of Sociology Calcutta University West Bengal. I recommend for its originality and boldness. I think the results of this study be known to all teachers and educationists. Dr N C Choudhary Professor of Sociology and Social Anthropology University of North Bengal. Review: The findings are logically arrived at and cogently presented in a readable simple style. No doubt this book will be useful to all those who have interest in the areas of sociology education political sociology in general and to those who are interested in the problems affecting the youth in particular. This book highlights the key aspects of teacher student relationships that teachers and teacher educators should know. The Dynamics of Social Movements in Hong Kong Stephen Wing Kai Chiu, Tai Lok Lui, 2000-01-01. Studies of Hong Kong society have long focused one sidedly upon economic prosperity and political stability. Contributors to this volume redress this imbalance by taking a critical view of Hong Kong's political development from the perspectives of social conflict and collective action. Instead of looking at Hong Kong from the top this volume documents the active role played by local actors from below political groups student activists trade unions women groups environmentalists and community organizers.

and their impact on social and political development in Hong Kong society in the context of political transition and democratization economic restructuring and an emergent local identity *Values and Professional Knowledge in Teacher Education* Nick Mead, 2019-02-01 *Values and Professional Knowledge in Teacher Education* provides distinctive insights into potential strengths to develop trainee teachers values within school based training Looking at the personal moral and political values of trainees as fundamental to strategic and critical professional knowledge the book considers a key question about training contexts to what extent is teacher education embedded in the purpose and rationale of the school so that trainees values and consequently their autonomy and identity can flourish The book is research focused and offers case studies that offer vicarious experiences which resonate with the professional needs and concerns of teacher educators The book opens with a reflective narrative on the experience of a teacher educator in England Further chapters explore international perspectives on values and professional knowledge in teacher education applied theoretical principles for developing the relationship between trainee teachers values and their professional knowledge the impact of university and school based training contexts on the development of values based professional knowledge and the challenge of a values based professional knowledge to current teacher education practice *Values and Professional Knowledge in Teacher Education* will be of great interest to academics and post graduate students in the field of education university and school based teacher educators trainee teachers researchers policymakers and school leaders
