workers While husbands of those women are not necessarily confined to unskilled factory works women really are Women are in plethora those works which are unskilled in nature and where wage earning is comparatively low Workers after hard day s toil receive wage that is barest minimum for subsistence This is why workers are compelled to work along with other family members and as long in a day as they can Women workers and others are deprived of all statutory benefits and amenities like maternity benefits creche fixed working hour etc Even basic minimum welfare provisions like rest shed drinking water and toilet are conspicuously absent in brick factories Though owners are amassing whooping profit they have persistently ignored and evaded the welfare provisions for the workers that are applicable to the factory Given the nature of skill attainment of the workers the employment opportunity available in the unorganised sector and insipid role of trade union there seems no immediate escaping from the bondage and tethering of back bending work subsistence wage insecure job and debasing working conditions
