The Oxford Handbook of Social Relations in the Roman World Michael Peachin, 2011 The study of Roman society and social relations blossomed in the 1970s By now we possess a very large literature on the individuals and groups that constituted the Roman community and the various ways in which members of that community interacted There simply is however no overview that takes into account the multifarious progress that has been made in the past thirty odd years The purpose of this handbook is twofold On the one hand it synthesizes what has heretofore been accomplished in this field On the other hand it attempts to configure the examination of Roman social relations in some new ways and thereby indicates directions in which the discipline might now proceed The book opens with a substantial general introduction that portrays the current state of the field indicates some avenues for further study and provides the background necessary for the following chapters It lays out what is now known about the historical development of Roman society and the essential structures of that community In a second introductory article Clifford Ando explains the chronological parameters of the handbook The main body of the book is divided into the following

six sections 1 Mechanisms of Socialization primary education rhetorical education family law 2 Mechanisms of Communication and Interaction 3 Communal Contexts for Social Interaction 4 Modes of Interpersonal Relations friendship patronage hospitality dining funerals benefactions honor 5 Societies Within the Roman Community collegia cults Judaism Christianity the army and 6 Marginalized Persons slaves women children prostitutes actors and gladiators bandits The result is a unique up to date and comprehensive survey of ancient Roman society **Unpublished Research on Near East,**

Kuijt, 2006-04-11 Drawing on both the results of recent archaeological research and anthropological theory leading experts synthesize current thinking on the nature of and variation within Neolithic social arrangements The authors analyze archaeological data within a range of methodological and theoretical perspectives to reconstruct key aspects of ritual practices labor organization and collective social identity at the scale of the household community and region

Unpublished Research on Near East, Completed and in Progress United States. Department of State. External Research Division, 1966 **Economics and Empire in the Ancient Near East** Matthew J. M. Coomber, 2023-02-28 Over the past few decades biblical economics has developed into an important subfield of biblical studies Through examining the economic realities that lay behind Hebrew biblical texts and archaeological findings biblical economics has led to greater understandings of the cultures and experiences of ancient Hebrew communities the legal and religious texts they produced and of how those texts may or may not relate to the experiences of communities who continue to receive them today Economics and Empire in the Ancient Near East has brought together ten scholars of biblical economics and one economic anthropologist to create a repository of what is understood about the economic realities of Southwest Asia in the late second and first millennia BCE In addition to furthering the research and teaching interests of biblical scholars this volume has also been created for the benefit of economic historians anthropologists and sociologists *Understanding Power in Ancient*

Egypt and the Near East, Volume 1, 2024-11-11 This volume offers new theoretical approaches to the study of concepts and manifestations of power in the ancient world Bringing together scholars from Egyptology and ancient Near Eastern studies this volume aims to synchronize our understanding of the complex mechanics of Power across our fields Broad in theoretical geographical and temporal scope it presents theoretical models in an approachable manner showcasing ways in which they can be employed by all scholars of the ancient world Testing the Canon of Ancient Near Eastern Art and Archaeology

Amy Rebecca Gansell, Ann Shafer, 2020 This volume addresses and problematizes the formation and transformation of the ancient Near Eastern art historical and archaeological canon The canon is defined as an established list of objects monuments buildings and sites that are considered to be most representative of the ancient Near East In testing this canon this project takes stock of the current canon its origins endurance and prospects Boundaries and typologies are examined

technologies of canon production are investigated and heritage perspectives on contemporary culture offer a key to the future

No Place Like Home: Ancient Near Eastern Houses and Households Laura Battini, Aaron Brody, Sharon R. Steadman, 2022-10-06 This book had its genesis in a series of 6 popular and well attended ASOR conference sessions on Household Archaeology in the Ancient Near East The 18 chapters are organized in three thematic sections Architecture as Archive of Social Space The Active Household and Ritual Space at Home

Interwar Crossroads Leon Julius Biela, Anna Bundt, 2022-11-07 Studying the entangled histories of the areas conceptualized as Middle Eastern and North Atlantic World in the interwar years is crucial to understanding the two areas respective and common histories until today However many of the manifold connections exchanges and entanglements between the areas have not received thorough scholarly attention yet The contributors to this volume address this by bringing together various innovative and interdisciplinary approaches to the topic They thereby further the understanding of the two areas entangled histories and diversify prevailing concepts and narratives Through this the volume also offers enriching insights into the global history of the early 20th century

Social Relations and Urban Space Fiona Williamson, 2014 This book offers an insight into the social relationships and topographies that fashioned both city life and landscape and serves as a useful counterpoise in a field that has largely focused on London This is a book about seventeenth century Norwich and its inhabitants At its core are the interconnected themes of social topographies and the relationships between urban inhabitants and their environment Cityscapes were and are shaped and given meaning during the practice of people s lived experiences In return those same urban places lend human interactions depth and quality Social Relations and Urban Space uncovers manifold possible landscapes including those belonging to the rich and to the poor to men to women to strangers and foreigners to political actors of both formal and informal means Norwich s inhabitants witnessed the tumultuous seventeenth century at first hand and their experiences were written into the landscape and immortalised in its exemplary surviving records This book offers an insight into the social relationships and topographies that fashioned both city life and landscape and serves as a useful counterpoise in a field that has largely focused on London FIONA WILLIAMSON is currently Senior Lecturer in History at the National University of Malaysia

Isaiah's Vision of Peace in Biblical and Modern International Relations R. Cohen, R. Westbrook, 2016-09-23 The aim of this volume is to try to account for Isaiah s revolutionary vision from two disciplinary perspectives one approach is the historical study of the Ancient Near East and the Bible and the other rests on the study of international relations from a comparative conceptual perspective

Pastoralist Landscapes and Social Interaction in Bronze Age Eurasia Michael David Frachetti, 2009-01-05 Offering a fresh archaeological interpretation this work reconceptualizes the Bronze Age prehistory of the vast Eurasian steppe during one of the most

formative and innovative periods of human history Michael D Frachetti combines an analysis of newly documented archaeological sites in the Koxu River valley of eastern Kazakhstan with detailed paleoecological and ethnohistorical data to illustrate patterns in land use settlement burial and rock art His investigation illuminates the practical effect of nomadic strategies on the broader geography of social interaction and suggests a new model of local and regional interconnection in the third and second millennia B C E Frachetti further argues that these early nomadic communities played a pivotal role in shaping enduring networks of exchange across Eurasia

Virtuous Violence Alan Page Fiske, Tage Shakti Rai, 2015 This radical and thought provoking book argues that violence does not result from a breakdown of morality but is morally motivated

The House of the Father As Fact and Symbol J. David Schloen, 2018-07-17 The first two volumes on patrimonialism in Ugarit and the ancient Near East this book opens with a lengthy introduction on the interpretation of social action and households in the ancient world Following this foundation Schloen embarks on a societal and domestic study of the Late Bronze Age kingdom of Ugarit in its wider Near Eastern context

A History of Social Justice and Political Power in the Middle East Linda T. Darling, 2013-05-02 From ancient Mesopotamia into the 20th century the Circle of Justice as a concept has pervaded Middle Eastern political thought and underpinned the exercise of power in the Middle East The Circle of Justice depicts graphically how a government's justice toward the population generates political power military strength prosperity and good administration This book traces this set of relationships from its earliest appearance in the political writings of the Sumerians through four millennia of Middle Eastern culture It explores how people conceptualized and acted upon this powerful insight how they portrayed it in symbol painting and story and how they transmitted it from one regime to the next Moving towards the modern day the author shows how although the Circle of Justice was largely dropped from political discourse it did not disappear from people's political culture and expectations of government The book demonstrates the Circle's relevance to the Iranian Revolution and the rise of Islamist movements all over the Middle East and suggests how the concept remains relevant in an age of capitalism A must read for students policymakers and ordinary citizens this book will be an important contribution to the areas of political history political theory Middle East studies and Orientalism

Centre and Periphery Tim Champion, 2005-08-04 This outstanding overview creates an effective framework on which to hang 13 diverse papers The papers are tightly written and good editing has successfully merged them into a very successful volume
