Participation and Political Equality Sidney Verba, Norman H. Nie, Jae-on Kim, 1978-10-31 In this survey of political participation in seven nations Nigeria Austria Japan India the Netherlands Yugoslavia and the United States the authors examine the relationship between social economic and educational factors and political participation The book provides insight into an ongoing debate among political scientists and sociologist why is political participation in some nations distributed evenly across economic social and educational lines whereas other nations foster participation only by their privileged classes The book treats politics not only as a dependent variable influenced by socioeconomic factors but also as an independent variable that affects levels of political participation through variations in party systems and linkages between parties and other organizations

In Search of Political Stability Edmund A. Aunger, 1981 **The Sokagakkai and Mass Society** James Wilson White, 1970 A Stanford University Press classic **Dilemmas of Pluralist Democracy** Robert A. Dahl, 1983-09-10 Continuing his career long exploration of modern democracy Dahl addresses a question that has long vexed students of political theory the place of independent organizations associations or special interest groups within the democratic state The Wilson Quarterly There is probably no greater expert today on the subject of democratic theory than Dahl His proposal for an ultimate adoption here of a decentralized socialist economy a system primarily of worker ownership and control of economic production is daring but rational reflecting his view that economic inequality seems destined to become the major issue here it historically has been in Europe Library Journal Dahl reaffirms his commitment to pluralist democracy while attempting to come to terms with some of its defects Laura Greyson Worldview Anyone who is interested in these issues and who makes the effort the book requires will come away the better for it And more He will receive an explanation for our current difficulties that differs considerably from the explanation for our current difficulties that differs considerably from the explanation offered by the Reagan administration and a prescription for the future which differs fundamentally from the nostrums emanating from the White House Dennis Carrigan The Louisville Kentucky Courier Journal

Politics in Austria Richard Luther, Wolfgang C. Mueller, 2014-04-08 First Published in 1992 This is a collection of eight articles looking at consociationalism in the Austrian political system Areas covered are the decline of the Lager Mentality parties and the party system governmental institutions changing priorities in Austrian economic policy Austria in the European arena and the success of consociationalism Austria 1867-1955 John W. Boyer, 2022-09-15 Austria 1867 1955 connects the political history of German speaking provinces of the Habsburg Empire before 1914 Vienna and the Alpine Lands with the history of the Austrian Republic that emerged in 1918 John W Boyer presents the case of modern Austria as a fascinating example of democratic nation building The construction of an Austrian political nation began in 1867 under Habsburg Imperial auspices with the German speaking bourgeois Liberals defining the concept of a political people Volk and giving that Volk a constitution and a liberal legal and parliamentary order to protect their rights against the Crown The

decades that followed saw the administrative and judicial institutions of the Liberal state solidified but in the 1880s and 1890s the membership of the Volk exploded to include new social and economic strata from the lower bourgeoisie and the working classes Ethnic identity was not the final structuring principle of everyday politics as it was in the Czech lands Rather social class occupational culture and religion became more prominent variables in the sortition of civic interests exemplified by the emergence of two great ideological parties Christian Socialism and Social Democracy in Vienna in the 1890s The war crisis of 1914 1918 exploded the Empire with the Crown self destructing in the face of military defeat chronic domestic unrest and bitter national partisanship But this crisis also accelerated the emergence of new structures of democratic self governance in the German speaking Austrian lands enshrined in the republican Constitution of 1920 Initial attempts to make this new project of democratic nation building work failed in the 1920s and 1930s culminating in the catastrophe of the 1938 Nazi occupation After 1945 the surviving legatees of the Revolution of 1918 reassembled under the four power Allied occupation which fashioned a shared political culture which proved sufficiently flexible to accommodate intense partisanship resulting by the 1970s in a successful republican system organized under the aegis of elite democratic and corporatist negotiating structures in which the Catholics and Socialists learned to embrace the skills of collective but shared self governance
