Reflections on Politically Skeptical Era (Clt) Dennis Hume Wrong, a welcome and scholarly contribution to Political Science reference collections and reading lists The Bookwatch All of the essays included in the present volume were written between 1995 and 2001 This attests to the timeliness and relevance of Dennis H Wrong's writings He notes that the mid twentieth century disposition to believe that politics fundamentally consisted of clashes between totalistic worldviews such as communism socialism capitalism fascism nationalism internationalism and a cluster of isms may have been historically

transitional But politics now appears more nuanced if no less troubled following the collapse of the Soviet bloc between 1989 and 1991 Multiculturalism and identity politics as well as communitarianism flourished in the 1990s The volume is divided into five parts Capitalism Inequalities and Alternatives Multiculturalism and Identity Politics Communitarianism Theory and Theorists and Autobiographical Reminiscences This concluding part indicates how Wrong's work includes self reflections as well as reflections an examination of how figures such as C Wright Mills and Raymond Aron Amitai Etzioni and Digby Baltzell played a role in shaping his own thought and how these changed over the course of the past century This is the third collection of the essays and articles of Dennis H Wrong published by Transaction As was the case with his earlier volumes Reflections on a Politically Skeptical Era is characterized by a deep attention to the actual social history of our times and how this plays out in academic pursuits especially within sociology Whether the works were published in academic journals or more popular media they reflect a quality of literary manners that is rare among social science writings but a reflection that never sacrifices a sense of principle and probity in the process Dennis H Wrong is the author of several books including two essay collections containing articles first published in cultural intellectual political and scholarly journals in the United States Canada and Britain several of which he has served as an editor or editor in chief He has taught sociology at Princeton Rutgers Brown the University of Toronto the New School for Social Research Graduate Faculty and for most of his career at New York University He is currently retired and lives in Princeton Social Stratification and Mobility in the USSR Murray Yanowitch, Wesley A Fisher, 2019-01-15 This title was first published in 1973 The selections from Soviet sociological literature presented in this volume are significant from at least three standpoints First they reveal the extent to which the issue of social and economic inequality has become a subject for legitimate public discussion in the Soviet Union Second these selections offer the reader a means of appraising the quality of work in what under Soviet conditions is the formative period of a new intellectual discipline Third the selections provide abundant empirical evidence bearing on the forms and degrees of inequality currently found in Soviet society Population, Modernization, and Social Structure Calvin Goldscheider, 1971

navigational devices to guide their journeys while working class students are typically less well equipped for the journey She demonstrates as well that students social interactions friendships and extra curricular involvements also shape and are shaped by their social class worldviews the ideas they have about their own and others class identities and their beliefs about where they and others fit within the class system By focusing on student social class worldviews this book provides insight into how identities and consciousness are shaped within educational settings Ultimately this examination of what happens inside the college gates shows how which higher education serves as an avenue for social reproduction while also providing opportunities for the contestation of class inequalities
