Catalog of Copyright Entries. Third Series Library of Congress. Copyright Office,1973 *Current Catalog* ,1971 First multi year cumulation covers six years 1965 70 *Current research in sociology* Margaret S. Archer,1974, Toronto> World Congress of Sociology,2018-11-05 No detailed description available for Current research in sociology *A Common Destiny* National Research Council,Division of Behavioral and Social Sciences and Education,Commission on Behavioral and Social Sciences and Education,Committee on the Status of Black Americans,1990-02-01 A collection of scholars has released a monumental study called A Common Destiny Blacks and American Society It offers detailed evidence of the progress our nation has made in the past 50 years in living up to American ideals But the study makes clear that our work is far from over President Bush Remarks by the president to the National Urban League Conference The product of a four year intensive study by distinguished experts A Common Destiny presents a clear readable big picture of blacks position in America Drawing on historical perspectives and a vast amount of data the book examines the past 50 years of change and continuity in the status of black Americans By studying and comparing black and white age cohorts this volume charts the status of blacks in areas such as education housing employment political participation and family life **Women, Wives, Mothers** Jessie Bernard,2017-07-12 One of the most important series of events in modern times the restructuring of sex roles to adapt them to modern life is here chronicled from the perspective of a lifetime of studying and writing about women In this lively lucid book Jessie Bernard examines with concern and expertise the dramatic changes in values experienced by women of all ages in all classes of society and how these changes affect the options available to women today as women as wives as mothers Bernard begins her five part examination with a critical overview of research on sex differences pointing out the sexism that is implicit in most of this research and suggesting what kinds of research should be done She discusses the paradox involved in preparing girls for the most demanding of all roles motherhood by fostering weakness in them rather than strength She writes of the ages and stages of motherhood and the momentous changes now in process in the roles of wife and mother as more women combine labor force participation with marriage and motherhood Bernard contrasts the positions of the nineteenth and twentieth century feminist movements with respect to class and reports on the influence of the feminist movement on working class and African American women The last part of the book tells of the bitter fruits of extreme sex role specialization both for women and for society and examines policy relevant research on motherhood Bernard explores the many new potentialities open to women and finally the societal forms that will be necessary in order for

women to plan their lives with wider latitude Both the general reader and students of women s studies will be delighted and informed by Jessie Bernard s enlightening report on where women have been and where they are going in American society

Classes, Power and Conflict Anthony Giddens,David Held,1982-05-13 In recent years a remarkable range of new work has been produced dealing with class inequalities the division of labor and the state In these writings scholars previously working in isolation from one another in sociology economics political science and history have found common ground Much of this work has been influenced by Marxist theory but at the same time it has involved critiques of established Marxist views and incorporated ideas drawn from other sources These developments have until now not been reflected in existing course texts which are often diffusely concerned with social stratification and lack reference to contemporary theory Classes Power and Conflict breaks new ground in providing a comprehensive introduction to current debates and contemporary research In also connects these to the classical sources concentrating particularly on Marx Lenin and Weber The book therefore offers a comprehensive coverage of materials for students who have little or no prior acquaintance with the field Each section of the book contains a substantial introduction explaining and expanding on the themes of the selections contained within that section Classes Power and Conflict can be expected to become the standard text for courses in sociology and political science

Family Theories James M. White,David M. Klein,2002-06-27 Praise for the First Edition This is an admirable text and sourcebook but also achieves the status of an intellectually challenging confrontation with the reader It is in many ways a model which many of us would be well advised to follow I wish I could have written it *British Journal of Developmental Psychology* This revision of a best seller remains the only single volume book to present family theory in a clear and approachable manner providing a thorough introduction to current theories about the family for both advanced undergraduate and beginning graduate students The authors incorporate a broad scope of work from different perspectives in surveying seven major theoretical frameworks developed by key social scientists to explain variation in family life This incisive New Edition examines the exchange symbolic interaction family developmental systems conflict feminist and ecological theoretical frameworks and presents a typology for analyzing and comparing the seven frameworks while providing direction for future theory development **The Melting Pot and the Altar** Richard M. Bernard,1980 *DHHS*

Publication No. (OHDS). ,1981 Handbook of Interpersonal Commitment and Relationship Stability Jeffrey M. Adams,Warren H. Jones,2012-12-06 A fundamental assumption underlying the formation of our most important relationships is that they will persist indefinitely into the future As an acquaintanceship turns into a friend ship for example both members of this newly formed interpersonal bond are likely to expect that their interactions will become increasingly frequent diverse and intimate over time This expectation is perhaps most apparent in romantically involved couples who through a variety of verbal and symbolic means make explicit pledges to a long lasting relationship In either case it is clear that these relationships represent something valuable to the individuals in volved and are pursued with great enthusiasm Virtually all

close relationships are formed within the context of mutually rewarding interactions and or strong physical attraction between partners Friends and romantically involved couples alike are drawn to one another because of similarity of attitudes interests and personality and quite simply because they enjoy one another's company This enjoyment coupled with the novelty that characterizes new relationships almost makes the continuation of the relationship a foregone conclusion As relationships progress however their novelty fades conflicts may arise between partners negative life events may occur and the satisfaction that previously characterized the relationships may diminish

Landlords and Capitalists Maurice Zeitlin, Richard Earl Ratcliff, 2014-07-14 In 1974 Maurice Zeitlin published a seminal article in The American Journal of Sociology criticizing managerial theory and evidence which ended one era in the analysis of the large corporation's ownership and control and began a new one He called for research on the capitalist class that would reveal its inner structure particularly the interaction of family ties property and business leadership in the large corporation But despite the subsequent blossoming of studies of intercorporate and class power no one else has yet done the systematic empirical analysis he outlined This work is thus the first to explore the full panoply of intraclass relations interorganizational kinship economic and political within an actually existing dominant class Theoretically sensitive methodologically precise and historically grounded it aims to fill in the blank spots in our knowledge about how economic classes become social classes and how the latter in turn connect with other social forms This work is a sustained empirical analysis of Chile's dominant class But it does more than reveal that class's specific internal structure it also provides a coherent theory of the inner relations constituting any dominant class in a highly concentrated capitalist economy a methodological paradigm and an exemplary body of findings which can closely guide the study of other dominant classes especially in the advanced societies of the West Originally published in 1988 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

The Family Peter J. Stein, Judith Richman, Natalie Hannon, 1977 **Sacred Matters** Wesley R. Burr, Loren D. Marks, Randal D. Day, 2012-04-27 Sacred Matters explores the multi disciplinary literature about the role of religion in family life and provides new research and a new theory about ways various aspects of the sacred are helpful and harmful The authors hope that their new conceptual framework will stimulate new research and encourage the creation of new intervention programs designed to help families Sacred Matters features a new conceptual framework and theory about how when and why sacred matters influence family processes and outcomes new qualitative and quantitative research collected in a variety of ways from people with different religious perspectives in different geographical areas an expansion in theory and research about the role of forgiveness

sacrifice prayer and sanctification in family life the integration of studies and issues from psychology sociology family studies anthropology and religion This book raises the bar in creating new theories about family processes and in the integration of theory research and application It begins with a review of the previous literature and then expands the research about sanctification to create a new general theory or model about ways sacred processes help and hinder families Next the authors expand the theory and research about the role of forgiveness sacrifice and prayer in families New theory and research are then added about loving coping with conflict dealing with undesirable behavior generational relationships morality and the psychosocial aspects of religion The authors then describe ways sacred theory can be integrated with other theories and ways it provides new explanations about broader social problems The book concludes with new quantitative research and suggestions for future research Researchers practitioners and advanced students in several disciplines will find this volume valuable It will expand and enrich the reading in graduate and advanced undergraduate courses in areas such as family studies human development marriage and family therapy the psychology of the family and the psychology of religion the sociology of the family and the sociology of religion pastoral counseling anthropology and social work The Family in Change Jan Trost, 1980 Research on Children and Adolescents in the Family Context , 1981
