Sociological Explanation As Translation:

Sociological Explanation As Translation Stephen P. Turner, 1980-06-30 First published in 1980 this book examines the nature of sociological explanation The tactics of interpretive sociology have often remained obscure because of confusion over the nature of the evidence for interpretation and the nature of decisions among alternative interpretations In providing an account of the problem of interpretive sociological claims the author argues that there is rationality to interpretation He also presents a fresh view of the relationship between qualitative and statistical claims and shows their complementary character Dr Turner s lucid and comprehensive analysis breaks new ground in its fundamental re examination of the conceptual basis for explaining social behaviour By its call for more rigorous conceptual sophistication in attempted explanations of social behaviour this book will stimulate controversy and lively discussion among sociologists **The Routledge Handbook of Translation and Sociology** Sergey Tyulenev, Wenyan Luo, 2024-11-13 The Routledge Handbook of Translation and Sociology is the first encyclopaedic presentation of the research into social aspects of translation and interpreting It consists of thirty five chapters contributed by forty experts in their respective fields of the sociology of translation The Handbook traces the evolution of research into social aspects of translation and interpreting explains the basics of the sociology of translation offers an insight into studies of translation within sociology shows the place translation and interpreting occupies among social functional systems and its interactions with social forces and practices With global coverage spanning all inhabited continents the Handbook examines translational practices across diverse cultures and historical periods from ancient origins to modern professional practices Suitable for both undergraduate and postgraduate students of translation and interpreting as well as researchers in the sociology of translation the Handbook furnishes readers with a comprehensive understanding of the field It offers a thorough exploration of the current state of the sociology of translation and suggests avenues for further research **Cosmopolitanism and Translation** Esperanca Bielsa, 2016-05-20 The first book to systematically demonstrate via case studies the importance of translation to the study of cosmopolitanism and social thought and vice versa Provides a wide range of theoretical and methodological insights on the relationship between cosmopolitanism and translation **Stephen Turner and the Philosophy of the Social** Christopher Adair-Totef, 2021-02-08 In this volume the philosophical writings of Stephen Turner on social science and the social are examined critically in essays by major scholars in philosophy and sociology from all over Europe and the United States The topics covered include his intellectual trajectory and issues over the concepts of practices the belief desire model of action explanation normativity and collectivities These issues form the core of the philosophy of social science and are central to the history of the social sciences In addition there are substantive discussions of the relation of cognitive science to economics and Weber of ethnography and of the legacy of Talcott Parsons The volume includes Turner s response to these essays which also presents a synthesis and retrospective overview With contributions by Christopher Adair Totef Alban Bouvier David Henderson John

Holmwood Terence Horgan Peter Olen Mark Risjord Paul Roth Theodore R Schatzki Karsten Stueber Sam Whimster Rafa Wierzchos awski and Julie Zahle as well as Stephen Turner himself *Sociologies of Poetry Translation* Jacob Blakesley, 2018-11-29 While the sociology of literary translation is well established and even flourishing the same cannot be said for the sociology of poetry translation *Sociologies of Poetry Translation* features scholars who address poetry translation from sociological perspectives in order to catalyze new methods of investigating poetry translation This book makes the case for a move from the singular sociology of poetry translation to the pluralist sociologies in order to account for the rich variety of approaches that are currently emerging to deal with poetry translation It also aims to bridge the gap between the cultural turn and the sociological turn in Translation Studies with the range of contributions showcasing the rich diversity of approaches to analysing poetry translation from socio cultural socio historical socio political and micro social perspectives Contributors draw on theorists including Pierre Bourdieu and Niklas Luhmann and assess poetry translation from and or into Catalan Czech English French German Italian Russian Slovakian Spanish Swahili and Swedish A wide range of topics are featured in the book including trends in poetry translation in the modern global book market the commissioning and publishing of poetry translations in the United States of America modern English language translations of Dante women poet translators in mid 19th century Ireland translations of Russian poetry anthologies into modern English the translation of Shakespeare s plays and sonnets in post colonial Tanzania and socialist Czechoslovakia translations and translators of Italian poetry into 20th and 21st century Sweden modern European poet translators and collaborative writing between prominent English and Spanish poet translators *Translation and Interpreting as Social Interaction* Claire Y. Shih, Caiwen Wang, 2024-01-11 Adopting the tripartite theory of social psychology as its theoretical framework this book advocates that the three components of social interaction affect behaviour and cognition underpin the daily activities of translators and interpreters In particular it argues that the affect or emotion of translators and interpreters should not be overlooked or treated as a separate entity but as a crucial link between their mental process cognition and physical process behaviour This central theme of the intertwining nature of the affect behaviour and cognition of translators and interpreters is examined theoretically empirically and methodologically with contributions from around the world featuring literary translation translator training and interpreters practice It is a timely contribution to the field of Translation Process Research where affect is increasingly recognised as playing a key role in translation and interpreting phenomena **Translation and Big Details** Jeroen Vandaele, 2023-12-11 In the age of big data evidence keeps suggesting that small elusive and infrequent details make all the difference in our appreciation of humanistic texts film fiction and philosophy This book argues from a cross disciplinary perspective that expertise in humanistic translation is precisely the capacity to capture those details that are bigger than they seem In humanistic translation the expert handling of big details usually serves audiences and the original but mala fide translation also works the details for subtle manipulation and audience deception A focus on textual

detail is therefore characteristic of humanistic translators but also compatible with central claims of the cultural turn in translation studies This book written by a scholar and teacher of literary essayistic and audiovisual translation endeavors to articulate a seemingly dual interest on textual detail and cultural analysis as a single one It theorizes connections between micro and macro analysis between translation as detail and translation as culture thus hoping to build bridges between humanistic translators and translation scholars It acknowledges tensions between practice and theory and proposes a way forward practitioners and scholars share ways of thinking varieties of part whole thinking that machines can never acquire

Meaning and Method in the Social Sciences Paul A. Roth, 2019-05-15 Paul A Roth's book examines an important controversy in the philosophy of the social sciences that has developed since the demise of logical positivism and its conception of rationality Roth contends that this controversy a dispute over the canons of rationality is the product of the mistaken belief in methodological exclusivism Drawing on work in contemporary epistemology by W V O Quine Richard Rorty and Paul Feyerabend he argues that no single theory of human behavior has methodological priority indeed the existence of a plethora of theories for the study of human behavior he believes is an inevitable consequence of our epistemic situation

The Routledge Handbook of Translation History Christopher Rundle, 2021-09-30 The Routledge Handbook of Translation History presents the first comprehensive state of the art overview of this multi faceted disciplinary area and serves both as an introduction to carrying out research into translation and interpreting history and as a key point of reference for some of its main theoretical and methodological issues interdisciplinary approaches and research themes The Handbook brings together 30 eminent international scholars from a wide range of disciplinary backgrounds offering examples of the most innovative research while representing a wide range of approaches themes and cultural contexts The Handbook is divided into four sections the first looks at some key methodological and theoretical approaches the second examines some of the key research areas that have developed an interdisciplinary dialogue with translation history the third looks at translation history from the perspective of specific cultural and religious perspectives and the fourth offers a selection of case studies on some of the key topics to have emerged in translation and interpreting history over the past 20 years This Handbook is an indispensable resource for students and researchers of translation and interpreting history translation theory and related areas

Translation Solutions for Many Languages Anthony Pym, 2016-04-21 Many translation solutions often called procedures techniques or strategies have been proposed over the past 50 years or so in French Chinese Russian Ukrainian English Spanish German Japanese Italian Czech and Slovak This book analyzes criticizes and compares them proposing a new list of solutions that can be used in training translators to work between many languages The book also traces out an entirely new history of contemporary translation studies showing for example how the Russian tradition was adapted in China how the impact of transformational linguistics was resisted and how scholarship has developed an intercultural metalanguage over and above the concerns of specific national languages The book reveals the intensely political nature of

translation theory even in its most apparently technical aspects The lists were used to advance the agendas of not just linguistic nationalisms but also state regimes this is a history in which Hitler Stalin and Mao all played roles Communist propaganda and imperialist evangelism were both legitimized Ukrainian advances in translation theory were forcefully silenced in the 1930s the Cold War both stimulated the application of transformational grammar and blocked news of Russian translation theory French translation theory was conscripted into the agenda of Japanese exceptionalism and much else

The Routledge Handbook of Translation Technology and Society Stefan Baumgarten, Michael Tieber, 2025-08-27

Routledge Encyclopedia of Translation Studies Mona Baker, Gabriela Saldanha, 2019-09-20 The Routledge Encyclopedia

of Translation Studies remains the most authoritative reference work for students and scholars interested in engaging with the phenomenon of translation in all its modes and in relation to a wide range of theoretical and methodological traditions. This new edition provides a considerably expanded and updated revision of what appeared as Part I in the first and second editions. Featuring 132 as opposed to the 75 entries in Part I of the second edition, it offers authoritative critical overviews of additional topics such as authorship, canonization, conquest, cosmopolitanism, crowdsourced translation, dubbing, fan audiovisual translation, genetic criticism, healthcare, interpreting, hybridity, intersectionality, legal interpreting, media interpreting, memory, multimodality, nonprofessional interpreting, note taking, orientalism, paratexts, thick translation, war and world literature. Each entry ends with a set of annotated references for further reading. Entries no longer appearing in this edition, including historical overviews that previously appeared as Part II, are now available online via the Routledge Translation Studies Portal. Designed to support critical reflection, teaching and research within as well as beyond the field of translation studies, this is an invaluable resource for students and scholars of translation, interpreting, literary theory and social theory among other disciplines.

Travels of the Criminal Question Dario Melossi, Máximo Sozzo, Richard Sparks, 2011-02-03. The expression the criminal question does not at present have much currency in English language criminology. The term was carried across from Italian debates about the orientation of criminology and in particular debates about what came to be called critical criminology. One definition offered early in the debate described it as an area constituted by actions, institutions, policies and discourses whose boundaries shift. According to this writer, crime and the cultural and symbolic significance carried by law and criminal justice is an integral aspect of the criminal question. The criminal question draws attention to the specific location and constitution of a given field of forces and the themes, issues, dilemmas and debates that compose it. At the same time, it enables connections to be made between these embedded realities and the wider, conceivably global, contours of influence and flows of power with which it connects. This in turn raises many questions: How far do the responses to crime and punishment internationally flow from and owe their contemporary shape to the cultural and economic transformations now widely known as globalisation? How can something that is in significant ways embedded, situated and locally produced also travel? What is not in doubt is that it does travel and travel with serious consequences. The international circulation of discourses and practices has become a pressing issue for scholars who try to understand their operation in their own particular cultural contexts. This collection of essays seeks a constructive comparative view of these tendencies to convergence and divergence.

Handbook of Translation Studies Yves Gambier, Luc van Doorslaer, 2012. As a meaningful manifestation of how institutionalized the discipline has become, the new Handbook of Translation Studies is most welcome. It joins the other signs of maturation such as Summer Schools, the development of academic curricula, historical surveys, journals, book series, textbooks, terminologies, bibliographies and encyclopedias. The HTS aims at disseminating knowledge about translation and interpreting and providing easy access to a

large range of topics traditions and methods to a relatively broad audience not only students who often adamantly prefer such user friendliness researchers and lecturers in Translation Studies Translation but also scholars and experts from other disciplines among which linguistics sociology history psychology In addition the HTS addresses any of those with a professional or personal interest in the problems of translation interpreting localization editing etc such as communication specialists journalists literary critics editors public servants business managers intercultural organization specialists media specialists marketing professionals Moreover The HTS offers added value First of all it is the first Handbook with this scope in Translation Studies that has both a print edition and an online version The advantages of an online version are obvious it is more flexible and accessible and in addition the entries can be regularly revised and updated The Handbook is variously searchable by article by author by subject A second benefit is the interconnection with the selection and organization principles of the online Translation Studies Bibliography TSB The taxonomy of the TSB has been partly applied to the selection of entries for the HTS Moreover many items in the reference lists are hyperlinked to the TSB where the user can find an abstract of a publication All articles between 500 and 6 000 words are written by specialists in the different subfields and are peer reviewed Last but not least the usability accessibility and flexibility of the HTS depend on the commitment of people who agree that Translation Studies does matter All users are therefore invited to share their feedback Any questions remarks and suggestions for improvement can be sent to the editorial team at hts@lessius.eu

Ruth Bush,2022-06-02 This Element explores the politics of literary translation via case studies from the Heinemann African Writers Series and the work of twenty first century literary translators in Cameroon It intervenes in debates concerning multilingualism race and decolonization as well as methodological discussion in African literary studies world literature comparative literature and translation studies The task of translating African literary texts has developed according to political and socio economic contexts It has contributed to the consecration of a canon of African classics and fuelled polemics around African languages Yet retranslation remains rare and early translations are frequently criticised This Element s primary focus on the labour rather than craft or art of translation emphasises the material basis that underpins who gets to translate and how that embodied labour occurs within the process of book production and reception The arguments draw on close readings fresh archival material interviews and co production and observation of literary translation workshops *The Routledge Handbook of Translation and Methodology* Federico Zanettin,Christopher Rundle,2022-03-10 The Routledge Handbook of Translation and Methodology provides a comprehensive overview of methodologies in translation studies including both well established and more recent approaches The Handbook is organised into three sections the first of which covers methodological issues in the two main paradigms to have emerged from within translation studies namely skopos theory and descriptive translation studies The second section covers multidisciplinary perspectives in research methodology and considers their application in translation research The third section deals with practical and pragmatic methodological issues Each chapter provides a summary of relevant research a literature overview critical issues and topics recommendations for best practice and some suggestions for further reading Bringing together over 30 eminent international scholars from a wide range of disciplinary and geographical backgrounds this Handbook is essential reading for all students and scholars involved in translation methodology and research **Going East: Discovering New**

and Alternative Traditions in Translation Studies Larisa Schippel,Cornelia Zwischenberger,2016-12-23 This volume provides a comprehensive overview of various Eastern European traditions of thought on the subject of translation as well as the discipline of Translation Studies It sheds a light on how these traditions developed how they are related to and how they differ from Western traditions The volume shows nationally framed histories of translation and Translation Studies and presents Eastern European pioneers and trailblazing thinkers in the discipline This collection of articles however also shows that it is at times hard or even impossible to draw the line between theoretical and or scientific thinking and pre theoretical and or pre scientific thinking on translation Furthermore it shows that our discipline s beginnings which are supposedly

rooted in Western scholarship may have to be rethought and consequently rewritten
