*Cannabis* Michał Wanke,Sveinung Sandberg,Ruken Macit,Hakan Gülerce,2024-06-14 This book demonstrates how culture matters for the understanding of cannabis use It stems from the growing body of research on how users manoeuvre stigmatisation and celebrate the subcultural status of cannabis amid rapid transformation of the substance and its societal reception The volume presents international studies that challenge the normalisation thesis and simplified views on patterns of use as well as the Western bias in social research of cannabis Chapters in this book map the variability of cannabis cultures and markets on a global scale including digital regulated and illicit markets in transformation They study cannabis through stigmatisation gender social worlds symbolic boundaries

subcultures and identity work The chapters address diverse themes such as how Latvian Polish Nigerian or Mexican users negotiate mainstream conservative and sometimes gendered societal reactions to cannabis and how Nordic users identities are played out in more progressive contexts Chapters also cover cannabis use by older people and small growers cultures in the US and the interconnections between the established cultures and their digital augmentation in Australia Synthetic cannabis use is studied in New Zealand and the many contradictions of contemporary cannabis policies are highlighted throughout Taken together this book offers an assortment of studies that provide a descriptive and conceptual snapshot of ongoing transitions of paradoxically stable cannabis cultures It was originally published as a special issue of Drugs Education Prevention and Policy *Australian National Bibliography* ,1978 **Advanced Accounting Theory and Practice** Kabiru I. Dandago,2009-01-30 Accounting is the discipline with the oldest historical culture being the first to be recognized by humanity when Adam and Eve were made to account for what they did in paradise It is also the only discipline that will come into play in the Hereafter where everybody would be raised up as an accountant to account for all they have done during their life time on earth Accounting is a service providing discipline with a rich theoretical background which makes available information especially financial to guide various decision making processes Business owners creditors managers prospective investors government and its agencies employees and even the general public seek accounting information to guide them when taking various informed decisions about reporting entities and the environment within which they operate This book addresses the historical accounting culture its theories as well as its practices It is made up of fifteen chapters covering various historical theoretical and practical aspects of Accounting ranging from accounting standardization to financial reporting The book is an attempt to address some of the lacunae in advanced accounting issues both in theory and in practice Students of advanced accounting theory and practice at the professional and academic levels in Universities Polytechnics and Professional Institutes would find the book an essential companion **Forthcoming Books** Rose Arny,1999
