Africa Taiwo Abioye, Arua E. Arua, Kehinde Ayoola, 2014-11-24 This book brings together the seminal contributions of scholars interested in the study of language literature and style in Africa. It marks a response to the longstanding neglect of stylistic analysis of canonical and emergent fictional and non-fictional African prose and discourse. As a reaction to this neglect of African literary artefacts, the book provides a welcome and timely deviation from the norm. The contributions to this volume include discussions that are both analytical and theoretical analyses of style at the levels of lexis and semantics, newer and more innovative analyses that highlight the relationship between style, pedagogy and technology-mediated discourse, and a final discussion that provides an appropriate background against which issues related to language literature and style can be understood. In terms of the volume's representation of diverse geographical contexts, the papers included here bridge the North-South divide in Africa and there are contributions from Libya, Nigeria, South Africa and Zimbabwe. As such, the book is an interesting collection of papers that illuminate the study of literary style in Africa and highlight the need for a greater revival of it on a larger scale.

Style in Fiction Michael H. Short, Geoffrey N. Leech, 2015-10-29 Stylistics is the study of language in the service of literary ends and in *Style in Fiction* Geoffrey Leech and Mick Short demonstrate how stylistic analysis can be applied to novels and stories. Writing for both students of English language and English literature, they show the practical ways in which linguistic analysis and literary appreciation can be combined and illuminated through the study of literary style. Drawing mainly on major works of fiction of the last 150 years, their practical and insightful examination of style through texts and extracts leads to a deeper understanding of how prose writers achieve their effects through language. Since its first publication in 1981, *Style in Fiction* has established itself as a key textbook in its field, selling nearly 30 000 copies. Now in this revised edition, the authors have added substantial new material, including two completely new concluding chapters. These provide an extensive up-to-date survey of developments in the field over the past 25 years and apply the methods presented in earlier chapters to an analysis of an entire short story. The Further Reading section and the bibliographical references have also been thoroughly updated. In 2005, *Style in Fiction* was awarded the 25th Anniversary Prize by PALA, The Poetics and Linguistics Association, as the most influential book published in the field of stylistics. Further proof, if proof were needed, that *Style in Fiction* remains a classic guide to its discipline.
