**America's Secret Power** Loch K. Johnson, 1991-03-14 Based on hundreds of interviews with CIA officials national security experts and legislators as well as a thorough culling of the archival record America's Secret Power offers an illuminating and up to date picture of the CIA stressing the difficult balance between the genuine needs of national security and the protection of individual liberties Loch Johnson who has studied the workings of the CIA at first hand as a legislative overseer presents a comprehensive examination of the Agency and its relations with other American institutions including Congress and the White House and looks closely at how it pursues its three major missions intelligence analysis counterintelligence and covert action At once fascinating and sobering Johnson's book reveals how the best intelligence reports can be distorted or ignored how covert actions can spin out of control despite extensive safeguards as in the Iran Contra scandal and how the CIA has spied on American citizens in clear violation of its charter Further he provides a thorough review of legislative efforts to curb these abuses and suggests several important ways to achieve the delicate balance between national security and democratic ideals

The Counterintelligence Chronology Edward Mickolus, 2015-09-15. Spying in the United States began during the Revolutionary War with George Washington as the first director of American intelligence and Benedict Arnold as the first turncoat. The history of American espionage is full of intrigue, failures, and triumphs, and motives honorable and corrupt. Several notorious spies became household names: Aldrich Ames, Robert Hanssen, the Walkers, the Rosenbergs, and were the subjects of major motion pictures and television series. Many others have received less attention. This book summarizes hundreds of cases of espionage for and against U.S. interests and offers suggestions for further reading. Milestones in the history of American counterintelligence are noted. Charts describe the motivations of traitors, American targets of foreign intelligence services, and American traitors and their foreign handlers. A former member of the U.S. intelligence community, the author discusses trends in intelligence gathering and what the future may hold. An annotated bibliography is provided, written by Hayden Peake, curator of the Historical Intelligence Collection of the Central Intelligence Agency.

**The Marshall Plan in Austria** Gunter Bischof, Anton Pelinka, Dieter Stiefel, 2018-12-20. Perhaps no country benefitted more from the Marshall Plan for assistance in reconstruction of Europe after World War II than Austria. On a per capita basis, each American taxpayer invested 80 cents per person in the Plan; each Austrian received 133 cents from the European recovery program, more than any other of the sixteen participating countries. Without the Marshall Plan, the Austrian economic miracle of the 1950s would have been unthinkable. Despite this, contemporary Austria seems to have forgotten this essential American contribution to its postwar reconstruction. This volume, in the Contemporary Austrian Studies series, examines how the plan affected Austria and how it is perceived today. The political context of the Marshall Plan in Austria is addressed in essays by Jill Lewis and Matthew Berg. Dieter Stiefler describes the vast Soviet economic exploitation of their Austrian occupation zone. Andrea Komlosy shows how the Marshall Plan helped complete the division of Europe. Siegfried Beer suggests the secret involvement of the CIA in the Marshall Plan, while Hans Jörgen Schröder analyzes the effectiveness of Marshall Plan propaganda programs in Germany and Austria. The macroeconomic impact of Marshall Plan funds on Austrian economic policy is outlined by Hans Seidel. Kurt Tweraser, Georg

Riggle and G3nter Bischof suggest the microeconomic importance of funds for the steel electricity and tourist sectors of the Austrian economy Wilhelm Kohler's sweeping analysis compares the American transfer of funds to postwar Europe with current debates about the cost of European Union enlargement The legacy of the Marshall Plan is addressed by former Austrian Finance Minister Ferdinand Lacina Kurt Löffler and Hans Fubenegger summarize the activities of the Economic Recovery Program Fund Coming on the heels of the fiftieth anniversary of the Marshall Plan this compelling overview of the Plan and its impact will be important for historians those interested in international politics and Austrian scholars G3nter Bischof is professor of history and associate director of Center Austria at the University of New Orleans Anton Pelinka is professor of political science at the University of Innsbruck and director of the Institute of Conflict Research in Vienna Dieter Stiefel is professor of social and economic history at the University of Vienna and executive secretary of the Schumpeter Society in Vienna This volume offers a collection of articles mostly by contemporary Austrian born historians touching on various phases of the Marshall Plan administered through the European Recovery Program ERP and its successors counterfunds assistance to the present A splendid introduction followed by the key thirteen articles on the plan is augmented by several nontopical essays and book reviews along with a survey of Austrian politics in 1998 A number of articles emanated from a 1998 conference at the University of New Orleans Both novice and specialist will appreciate this book The Historian
