Mapping Subaltern Studies and the Postcolonial Vinayak Chaturvedi, 2012-11-13 Inspired by Antonio Gramsci's writings on the history of subaltern classes the authors in Mapping Subaltern Studies and the Postcolonial sought to contest the elite histories of Indian nationalists by adopting the paradigm of history from below Later on the project shifted from its social history origins by drawing upon an eclectic group of thinkers that included Edward Said Roland Barthes Michel Foucault and Jacques Derrida This book provides a comprehensive balance sheet of the project and its developments including Ranajit Guha's original subaltern studies manifesto Partha Chatterjee Dipesh Chakrabarty and Gayatri Spivak

Habitations of Modernity Dipesh Chakrabarty, 2002-07-15 In Habitations of Modernity Dipesh Chakrabarty explores the complexities of modernism in India

and seeks principles of humaneness grounded in everyday life that may elude grand political theories The questions that motivate Chakrabarty are shared by all postcolonial historians and anthropologists How do we think about the legacy of the European Enlightenment in lands far from Europe in geography or history How can we envision ways of being modern that speak to what is shared around the world as well as to cultural diversity How do we resist the tendency to justify the violence accompanying triumphalist moments of modernity Chakrabarty pursues these issues in a series of closely linked essays ranging from a history of the influential Indian series Subaltern Studies to examinations of specific cultural practices in modern India such as the use of khadi Gandhian style of dress by male politicians and the politics of civic consciousness in public spaces He concludes with considerations of the ethical dilemmas that arise when one writes on behalf of social justice projects

Contested Histories and Politics of People

P. Prayer Elmo Raj, 2021-07-12. Contested Histories and Politics of People is an analytical interface to the plurivocal trajectories and influential approaches fashioned by Subaltern Studies. It highlights the diverse methods and the dynamics of resistance that augmented specific ways of countering hegemonic domination. Power manipulated and subjugated subaltern classes both from within through elite nationalists and outside through colonialism. Bringing together the splintered movements that revolutionarily resist hegemonic state power, Subaltern Studies unearths subsumed narratives and subjugated knowledges. Accordingly, it contributes towards a critique of neo-colonial politics and powers that influence and alter history. This book suggests that what emerged as a historical critical method to challenge dominant historiography, hegemony, and power has contributed towards the formation of a cultural history. **The Routledge Handbook of**

Subalterns across History Saurabh Dube, Ishita Banerjee, 2025-05-30. Subaltern Studies has marked both a major departure in South Asian studies and indexed broader shifts in the critical humanities and social sciences. This volume explores what it means today to set to work studies of subaltern subjects in our rapidly mutating social worlds. This handbook spans diverse historical, ethnographic, and geopolitical spaces drawing in the Antipodes and the Americas, Diasporas, and Oceanic worlds, Africa, and the Middle East, apart from Europe, and many South Asian overlapping arenas in which the subaltern continues to find distinct yet substantive articulations. It also seeks to meaningfully juxtapose practices and processes of gender and race, indigeneity and indenture, age and sexuality, slavery and apartheid, the Adivasi and the Dalit, settler colonialisms, and nations, nature and environment, caste and tribe, diaspora and blackness, capital and property, science and technology, media and cinema, the body and dance, heteronormativity and queerness, state and governance, and politics and justice. In these ways, the study unframes disciplinary boundaries and maps emergent terrains, exactly articulating pressing subjects and rethinking distinct subalternities. This book is aimed at researchers, scholars, and advanced undergraduate and graduate students in the
