*The Subarctic Fur Trade* Shepard Krech III, 2011-11-01 Originally presented at the American Society for Ethnohistory conference in 1981 the papers in this book focus on themes which have been near the centre of fur trade scholarship the identification of Indian motivations the degree to which Indians were discriminating consumers and creative participants and the extent of Native dependency on the trade It spans the period from the seventeenth century up to and including the twentieth century In one of the key essays Arthur J Ray questions the theory that modern Native welfare societies are of recent origin and traces their roots to the early fur trade In developing his thesis his concerns about resource depletions and other ecological changes the advent of new mercantilistic impulses and the development of dependence also emerge as sources of inquiry by the other authors Papers by Charles A Bishop Toby Morantz and Carol M Judd focus on the North Algonquians in the eastern subarctic and earlier centuries of the trade while two final essays by Shepard Krech and Robert Jarvenpa and Hetty Jo Brumbach shift the focus to the North Athapascans in the western subarctic *The Subarctic Fur Trade* will help scholars become more fully aware of the issues concerned with Native economic history which are of common interest to scholars from many different disciplines It also illustrates the methods that are increasingly being used to arrive at empirically based answers to questions and which will when further refined lead to greater advances in fur trade scholarship

archaeological findings linguistic studies and folk traditions Kerry Abel shows that previous ethnocentric interpretations of Canadian history have been excessively narrow She demonstrates that the Dene were able to maintain a sense of cultural distinctiveness in the face of overwhelming economic political and cultural pressures from European newcomers Abel's classic text questions the standard perception that aboriginal peoples in Canada have been passive victims in the colonization process A new introduction discusses Dene experience since the first edition of the book and suggests how the approach of scholars in this field is changing

Wetherell, 2016-10-01 Encounters with wild animals are among the most significant relationships between humans and the natural world Presenting a history of human interactions with wildlife in Alberta Manitoba and Saskatchewan between 1870 and 1960 Wildlife Land and People examines the confrontations that led to diverse consequences from the near annihilation of some species to the extraordinary preservation of others and skilfully finds the roots of these relationships in people's needs for food sport security economic development personal fulfillment and identity Donald Wetherell shows how utilitarian practices in which humans viewed animals either as friendly sources of profit or as threats to their economic and personal security dominated until the 1960s Alongside these views however other attitudes

asserted that wild animals were part of the beauty mystery and order of the natural world Wetherell outlines the ways in which this attitude gained strength after World War II distinguished by a growing conviction that every species has ecological value Through a century in which the natural landscape of the prairie region was radically transformed by human activity conflicts developed over fur and game management over Aboriginal use of the land and over the preservation of endangered species like bison and elk Yet the period also saw the creation of national parks zoos and natural history societies Drawing on a wide array of historical sources and photographs as well as current approaches to environmental history Wildlife Land and People enriches our understanding of the many layered relationships between humans and nature

*A Legacy of Exploitation* Susan Dianne Brophy,2022-05-15 It is unlikely that buyers of the Hudson s Bay Company s

iconic multistripe point blanket these days reflect on the historically exploitative relationship between the company and Indigenous producers This critical re evaluation of the company s first planned settlement at Red River uncovers that history As a settler colonialist project par excellence the Red River Colony was designed to undercut Indigenous peoples troublesome autonomy and better control their labour Susan Dianne Brophy upends standard historical portrayals by foregrounding Indigenous peoples autonomy as a driving force of change A Legacy of Exploitation offers a comprehensive account of legal economic and geopolitical relations to show how autonomy can become distorted as complicity in processes of dispossession Ultimately this book challenges enduring yet misleading national fantasies about Canada as a nation of bold adventurers
