Whether as a stand alone volume or as a companion to the short stories, this classic work illuminates the timeless genius of Conan Doyle for an entirely new generation.

*A Study in Scarlet* Sir Arthur Conan Doyle, 2001-10-01 The first case of the celebrated Sherlock Holmes. In the debut of literature's most famous sleuth, a dead man is discovered in a bloodstained room in Brixton. The only clues are a wedding ring, a gold watch, a pocket edition of Boccaccio's *Decameron* and a word scrawled in blood on the wall. With this investigation begins the partnership of Sherlock Holmes and Dr Watson. Their search for the murderer uncovers a story of love and revenge and heralds a franchise of detective mysteries starring the formidable Holmes. **Chilling Out** Shane Blackman, 2004-07-16 Erudite and wide ranging, perceptive and provocative, lively and up to date. Shane Blackman has produced a book with something to offer to just about anyone interested in drugs in contemporary society. Blackman uncovers hidden histories, points out the contradictions running through media, popular culture and official policy and highlights the challenges facing us. *Chilling Out* is a book that will be a boon to students and a valuable resource for both teachers and researchers. Nigel South, Professor, Department of Sociology and Research Professor, Department of Health and Human Sciences, University of Essex. How are drug war, politics, drug prevention, popular culture and drug consumption interconnected? What are the major contradictions, assumptions and silences within the moral arguments of drug policy makers? What are the implications for the viability of drugs policy? This book critically examines the assumptions underlying drug prohibition and explores the contradictions of drug prevention policies. For the first time in this field, it combines a wide ranging exploration of the global political and historical context with a detailed focus on youth culture on the basis that young people are the primary target of drug prevention policies. *Chilling Out* provides a critical map of drugs, bringing together work on drugs as a source of political state repression and regulation of morality through medical discourse, work on drugs as cultural commodities in film, popular music, advertising and tourism, work on drug normalisation, subcultural deviance and the politics of drug education. This clear and enlightening text for sociology, health and media and cultural

studies courses argues for an holistic and a critical understanding of drugs in society which can be the basis for a more coherent approach to drug control Practitioners and policy makers will find it a thought provoking and informative source
