## Subduing The Cosmos:

While I Have Being Kenneth L. Vaux, 2012-08-23 This diary is a fine grained often daily theological reflection on the author's final ponderings on his ordeal with a serious illness a concluding sabbatical a last year of teaching a culminating lecture presiding at Eucharist and summarial notes about what God is doing in the world Amid all these meanderings it holds the lectionary of the biblical and liturgical calendar in one hand and the newspaper in the other K Barth Events during this time span were transformative and world shaking and found resonance in my personal drama One finds art and music faith and politics The reader will easily slip one's own story into this narrative My purpose is precisely this to offer symbiotic and symbolic story on life and its meaning Cosmos, Chaos, and the World to Come Norman Cohn, Professor Norman Cohn, 2001-01-01 All over the world people look forward to a perfect future when the forces of good will be finally victorious over the forces of evil Once this was a radically new way of imagining the destiny of the world and of mankind How did it originate and what kind of world view preceded it In this engrossing book the author of the classic work *The Pursuit of the Millennium* takes us on a journey of exploration through the world views of ancient Egypt Mesopotamia and India through the innovations of Iranian and Jewish prophets and sages to the earliest Christian imaginings of heaven on earth Until around 1500 B C it was generally believed that once the world had been set in order by the gods it was in essence immutable However it was always a troubled world By means of flood and drought famine and plague defeat in war and death itself demonic forces threatened and impaired it Various combat myths told how a divine warrior kept the forces of chaos at bay and enabled the world to survive Sometime between 1500 and 1200 B C the Iranian prophet Zoroaster broke from that static yet anxious world view reinterpreting the Iranian version of the combat myth For Zoroaster the world was moving through incessant conflict toward a conflictless state cosmos without chaos The time would come when in a prodigious battle the supreme god would utterly defeat the forces of chaos and their human allies and eliminate them forever and so bring an absolutely good world into being Cohn reveals how this vision of the future was taken over by certain Jewish groups notably the Jesus sect with incalculable consequences Deeply informed yet highly readable this magisterial book illumines a major turning point in the history of human consciousness It will be mandatory reading for all who appreciated *The Pursuit of the Millennium* *Christ over All Things* James P. Crockett, 2024-11-01 Colossians and Ephesians present some of the highest statements of Christology in the New Testament How is it that Christ came to be conceived not only as the Savior of humanity but also as the divine Lord over the whole cosmos While previous scholars have looked to Wisdom traditions and Greco Roman cosmology to provide background for the Christology of Colossians and Ephesians James Crockett demonstrates that Jewish royal ideology provides the key conceptual background through which the Christology of these letters was formed Crockett begins by demonstrating how Jewish literature reveals God's intent to enact his rule over creation through his enthroned king a plan which begins with Adam and continues with the promise of the ideal Davidic king

Crockett then shows how Paul utilizes and expands upon Jewish royal ideological themes to portray Christ as the supreme cosmic king through whom God reestablishes cosmic harmony **Space World**, 1971-07 **"A" Dictionary of the Bengalee Language** William Carey, 1818 **Cosmic Christology in Paul and the Pauline School** Geurt Hendrik van Kooten, 2003 How did the understanding of Jesus as the universal Son of Man of Apocalyptic Judaism develop into the notion of a cosmic god the cosmic Christ George van Kooten traces the earliest encounters between antiquity and Christianity

Abraham's Silence J. Richard Middleton, 2021-11-16 It is traditional to think we should praise Abraham for his willingness to sacrifice his son as proof of his love for God But have we misread the point of the story Is it possible that a careful reading of Genesis 22 could reveal that God was not pleased with Abraham's silent obedience Widely respected biblical theologian creative thinker and public speaker J Richard Middleton suggests we have misread and misapplied the story of the binding of Isaac and shows that God desires something other than silent obedience in difficult times Middleton focuses on the ethical and theological problem of Abraham's silence and explores the rich biblical tradition of vigorous prayer including the lament psalms as a resource for faith Middleton also examines the book of Job in terms of God validating Job's lament as right speech showing how the vocal Job provides an alternative to the silent Abraham This book provides a fresh interpretation of Genesis 22 and reinforces the church's resurgent interest in lament as an appropriate response to God **Cosmos** Ralph Milne Farley, Edmond Hamilton, E. Rosen, 2004 This book explores the evolution of space and time from the apeiron the spaceless timeless chaos of primordial nature Rosen examines Western culture's effort to deny apeiron and the critical need now to lift the repression on apeiron for the sake of human individuation This groundbreaking book brings to fruition Rosen's reflexive theory of time and space With recent physics breaking linear time symmetry this unique integration of physics and philosophy is indeed timely Eugene T Gendlin Emeritus Professor of Philosophy and Psychology University of Chicago Rosen's ideas are precisely stated and he draws upon an impressive range of sources both ancient and modern The author shows the inadequacy of conventional thinking about space and time and argues persuasively for an intriguing new alternative This important book may have radical implications for the conduct of science in the 21st century Brian Josephson Cambridge University Professor of Physics Nobel Laureate

Davis, 2012-02-16 Theologian Harry Lee Poe and chemist Jimmy H Davis argue that God's interaction with our world is a possibility affirmed equally by the Bible and the contemporary scientific record Rather than confirming that the cosmos is closed to the actions of the divine advancing scientific knowledge seems to indicate that the nature of the universe is actually open to the unique type of divine activity portrayed in the Bible Companion to Johnson's Dictionary John Mendies, 1876

*Art in Action* Nicholas Wolterstorff,1980 Taking vigorous issue with the pervasive Western notion that the arts exist essentially for the purpose of aesthetic contemplation Nicholas Wolterstorff proposes instead what he sees as an authentically Christian perspective that art has a legitimate even necessary place in everyday life While granting that galleries theaters and concert halls serve a valid purpose Wolterstorff argues that art should also be appreciated in action in private homes in hotel lobbies in factories and grocery stores on main street His conviction that art should be multifunction is basic to the author s views on art in the city he regards most American cities as dehumanizing wastelands of aesthetic squalor dominated by the demands of the automobile and leads him to a helpful discussion of its role in worship and the church Developing an aesthetic that is basically grounded yet always sensitive to the human need for beauty Wolterstorff make a brilliant contribution to understanding how art can serve to broaden and enrich
