Sex and the Failed Absolute Slavoj Žižek, 2019-09-19 In the most rigorous articulation of his philosophical system to date Slavoj Žižek provides nothing short of a new definition of dialectical materialism In forging this new materialism Žižek critiques and challenges not only the work of Alain Badiou Robert Brandom Joan Copjec Quentin Meillassoux and Julia Kristeva to name but a few but everything from popular science and quantum mechanics to sexual difference and analytic philosophy Alongside striking images of the Möbius strip the cross cap and the Klein bottle Žižek brings alive the Hegelian triad of being essence notion Radical new readings of Hegel and Kant sit side by side with characteristically lively commentaries on film politics and culture Here is Žižek at his interrogative best

Blackbirds Ryan Verniere, 2022-10-04 Blackbirds is a dark fantasy tabletop role playing game The gods failed us The powerful betrayed us Rise to meet your fate Twelve years of war have ravaged the kingdoms of Erebus where the great battle that would decide the fate of all has been waged and lost Now the lights of civilization are going out Swells of refugees have taken to the roads desperate to find homes far from all the suffering New constellations twinkle in the vault of the night only to disappear if scrutinized for too long Creatures of long forgotten folklore once again stalk the countryside It is a time of ill omens and unlikely heroes BLACKBIRDS RPG is set in a dark fantasy world where a cabal of power hungry Oligarchs has stolen godhood Their horrific act rent the fabric of reality allowing corrupt magic to undermine the world's natural order And soon the Oligarchs themselves will return to the mortal plane and remake it as they desire

Samuel Beckett's Lyric Failure Mantra Mukim, 2025-03-06 Providing one of the first book length accounts of Samuel Beckett's poetry this work illustrates how Beckett's poetry and its failures reconfigure the lyric form Reading Beckett alongside nineteenth and twentieth century European poets such as Hölderlin Mallarmé Rimbaud Montale and Apollinaire the book situates failure in the triangulation of the lyric impulse subjectivity and the human voice Beckett in his poems employs lyric tactics that range from deixis parataxis and caesura to specific kinds of timbre resonances and punctuations These tactics situate the poetic voice in the liminal points between life and death event and non event beginning and ending and more broadly between expression and failure The book frames these liminalities under the rubric of lyric failure Moving beyond the usual comparisons with his prose and drama the study highlights failure as a generative force that structures Beckett's anti expressive poetics

Gothic Radicalism A. Smith, 2000-06-05 Applying ideas drawn from contemporary critical theory this book historicizes psychoanalysis through a new and significant theorization of the Gothic The central premise is that the nineteenth century Gothic produced a radical critique of accounts of sublimity and Freudian psychoanalysis This book makes a major contribution to an understanding of both the nineteenth century and the Gothic discourse which challenged the dominant ideas of that period Writers explored include Mary Shelley Edgar Allan Poe Robert Louis Stevenson and Bram Stoker

ek represents an attempt to repeat the original move of Christian mystical theology bringing together the themes of language desire and transcendence not with Neoplatonism but with a materialist account of the world Tracing these themes through the work of Dionysius and Derrida and through contemporary debates about the gift violence and revolution this book offers a critical theological engagement with i ek s account of social and political transformation showing how i ek s work makes possible a materialist reading of apophatic theology and Christian identity The Sense of the Song of Roland Robert F. Cook,2019-05-15 This book offers a detailed interpretation of the Song of Roland one of the best known texts in all heroic literature It also includes a commentary that treats the poem s place in the eleventh or early twelfth century its importance to the society that produced it and the ways in which it is read today *Bodycheck* ,2016-08-29 In ice hockey the term body check refers to a specific move to gain control It is a blow from body to body a dynamic clash of physical strength which will determine the course of the game In this book too the body is checked and there is physical confrontation Not in the hockey ring but on stage This book deals with the body in contemporary performing arts The focus is on exploring theoretical avenues and developing new concepts to grasp corporeal images more accurately This theoretical research is confronted with the voice of artists whose work explicitly deals with the body In depth interviews with a o Meg Stuart Wim Vandekeybus Romeo Castellucci Jer me Bel reveal a very broad range of views on the re presentation of the body in today s performing arts The combination of these two voices the theoretician s and the artist s shows that research by artists and cultural scientists is perfectly complementary Edward Young's "Conjectures on Original Composition" Edward Young,1917 *Edward Young's "Conjectures on Original Composition" in England and Germany* Edward Young,1917 *Journal of the Transactions of the Victoria Institute, Or Philosophical Society of Great Britain* ,1873 **Journal of the Transactions of the Victoria Institute, Or Philosophical Society of Great Britain** Victoria Institute (Great Britain),1873 Each volume includes list of members and objects of the institute except v 31 which has no list of members Beginning with v 12 a list of the papers contained in preceding volumes is issued regularly with each volume *Without End* William S. Allen,2017-12-28 The reputation of the Marquis de Sade is well founded The experience of reading his works is demanding to an extreme Violence and sexuality appear on almost every page and these descriptions are interspersed with extended discourses on materialism atheism and crime In this bold and rigorous study William S Allen sets out the context and implications of Sade s writings in order to explain their lasting challenge to thought For what is apparent from a close examination of his works is the breadth of his readings in contemporary science and philosophy and so the question that has to be addressed is why Sade pursued these interests by way of erotica of the most violent kind Allen shows that Sade s interests lead to a form of writing that seeks to bring about a new mode of experience that is engaged in exploring the limits of sensibility through their material actualization In common with other Enlightenment thinkers Sade is concerned with the place of reason in the world a place that becomes utterly transformed by a materialism of endless excess This concern underlies his interest in crime and

sexuality and thereby puts him in the closest proximity to thinkers like Kant and Diderot but also at the furthest extreme in that it indicates how far the nature and status of reason is perverted It is precisely this materialist critique of reason that is developed and demonstrated in his works and which their reading makes persistently excessively apparent **Aesthetics of Anxiety** Ruth Ronen,2009-01-15 Places anxiety at the heart of the aesthetic experience *The Image in French Philosophy* Temenuga Trifonova,2007 The Image in French Philosophy challenges dominant interpretations of Bergson Sartre Lyotard Baudrillard and Deleuze by arguing that their philosophy was not a critique but a revival of metaphysics as a thinking pertaining to impersonal forces and distinguished by an aversion to subjectivity and an aversion of the philosophical gaze away from the discourse of vision and thus away from the image Insofar as the image was part of the discourse of subjectivity representation getting rid of the subject involved smuggling the concept of the image out of the discourse of subjectivity representation into a newly revived and ethically flavored metaphysical discourse a metaphysics of immanence which was more interested in consciousness rather than subjectivity in the inhuman rather than the human in the virtual rather than the real in Time rather than temporalization in Memory rather than memory images in Imagination rather than images in sum in impersonal forces de personalizing experiences states of dis embodiment characterized by the breaking down of sensory motor schemata Bergson s pure memory Sartre s image consciousness Deleuze s time image or more generally in that which remains beyond representation i e beyond subjectivity Lyotard s sublime Baudrillard s fatal object The book would be of interest to scholars and students of philosophy aesthetics and film theory *The American Monthly Magazine* ,1901 The Kinneavy Papers Lynn Worsham,Sidney I. Dobrin,Gary A. Olson,2000-04-20 Documenting an era of dramatic change and growth in the sophistication of scholarship in rhetoric and composition studies this book includes essays which find in contemporary theory the language to ask new questions to reframe existing problems and to move beyond current impasses in thought and action The different perspectives offer a stand against current backlash theory as seen in the reassertion of expressivism and creative writing as the antidote to the difficulties wrought by too much theorizing All the essays included are winners of the James L Kinneavy Award and celebrate the award s tenth anniversary as well as its founder one of the discipline s most learned and beloved scholars Contributors include David Bleich Richard M Coe William A Covino Reed Way Dasenbrock Sidney I Dobrin Lester Faigley Pamela K Gilbert Susan C Jarratt Bruce McComiskey Michael Murphy Richard E Miller Jasper Neel Gary A Olson Joseph Petraglia George L Pullman Joy S Ritchie Phillip Sipiora David W Smit Patricia A Sullivan John Trimbur Nancy Welch and Lynn Worsham
