## **Substance Abuse Program Accreditation Guide:**

*Substance Abuse Program Accreditation Guide* Elizabeth D. Brown, 1997-03-26 This practical guidebook is designed to support staff and administrators of substance abuse treatment programmes in their efforts to comply with the 1995 complete revision of accreditation standards by the Joint Commission on Accreditation on Healthcare Organizations JCAHO in the United States The new standards encompass a broad scope of areas from patient care to organizational elements The authors thoroughly explain the accreditation standards offer clear suggestions for programmes and centres to meet those standards and illustrate specifically what happens in the accreditation process *Addiction Counseling Competencies*, 2006

**Federal Guidelines for Opioid Treatment Programs** U.S. Department of Health and Human Services, 2019-11-23 The Federal Guidelines for Opioid Treatment Programs Guidelines describe the Substance Abuse and Mental Health Services Administration's SAMHSA expectation of how the federal opioid treatment standards found in Title 42 of the Code of Federal Regulations Part 8 42 CFR 8 are to be satisfied by opioid treatment programs OTPs Under these federal regulations OTPs are required to have current valid accreditation status SAMHSA certification and Drug Enforcement Administration DEA registration before they are able to administer or dispense opioid drugs for the treatment of opioid addiction [SAMHSA News](#), 2002

**Methadone Maintenance Treatment in the U.S.** Wendee M. Wechsberg, Jennifer J. Kasten, Nancy D. Berkman, Amy E. Roussel, 2007-05-07 The abuse of heroin and other opiates is a serious and growing public health problem According to the 2004 National Survey on Drug Use and Health an estimated 166 000 Americans use heroin In addition 4 4 million use opiate pain relievers including Vicodin Percodan Percocet and OxyContin without a prescription Abuse of legal pain relievers represents a growing category in 2004 approximately 2 4 million Americans abused prescription pain relievers for the first time In total about 1 9% of Americans are abusing illegal or legal opiates Furthermore opiate dependence is increasing worldwide and significantly exacerbating the HIV AIDS pandemic Methadone maintenance treatment MMT has been the primary form of treatment for opiate dependence in the U S for over 40 years It involves providing drug abusers with a less addictive opiate methadone in a clinical setting and then gradually tapering the methadone dosage While on methadone patients receive counseling and other medical treatments i e hepatitis screening as needed The ability to provide all of these treatments in one location has made MMT the most effective treatment for opiate dependence to date In the United States alone there are more than 1 200 MMT programs with an estimated staff of 20 000 serving more than 200 000 patients annually yet to date there has been no comprehensive user friendly professional reference book on these programs This book fills the gap It is written for a diverse audience including clinicians program administrators substance abuse treatment researchers and other health service professionals who want to learn about all aspects of MMT Policy makers interested in establishing new programs domestically and internationally will find the information useful The book offers insights into the effectiveness of methadone and the characteristics of successful methadone treatment programs budgets
