people lived has fallen short on all counts The articles and essays collected here some never published before all updated reflect his ideas on subjects ranging from the livable city and public housing to building design public memorials and the uses of public space Glazer an undisputed giant among public intellectuals is perhaps best known for his writings on ethnicity and social policy where the unflinching honesty and independence of thought that he brought to bear on tough social questions has earned him respect from both the Left and the Right Here he challenges us to face some difficult truths about the public places that for better or worse define who we are as a society From a Cause to a Style is an exhilarating and thought provoking book that raises important questions about modernist architecture and the larger social aims it was supposed to have addressed and those it has abandoned
