Jump Up! Ray Allen, 2019 *Jump Up Caribbean Carnival Music in New York City* is the first comprehensive history of Trinidadian calypso and steelband music in the diaspora. Carnival transplanted from Trinidad to Harlem in the 1930s and to Brooklyn in the late 1960s provides the cultural context for the study. Blending oral history, archival research, and ethnography, *Jump Up* examines how members of New York's diverse Anglophile Caribbean communities forged transnational identities through the self-conscious embrace and transformation of select Carnival music styles and performances. The work fills a significant void in our understanding of how Caribbean Carnival music specifically calypso, soca, soul calypso, and steelband evolved in the second half of the twentieth century as it flowed between its Island homeland and its burgeoning New York migrant community. *Jump Up* addresses the issues of music migration and identity head-on, exploring the complex cycling of musical practices and the back-and-forth movement of singers, musicians, arrangers, producers, and cultural entrepreneurs between New York's diasporic communities and the Caribbean.

Underground Harmonies Susie J. Tanenbaum, 1995 This is the first book on New York's subway musicians, modern troubadours who perform on platforms, mezzanines, and even trains, pounding through the city. Illustrating her account with captivating photos, Susie J. Tanenbaum draws on interviews with musicians and their audiences to explore both the vibrant culture and the intricate politics of subway music.

Acoustic Territories, Second Edition Brandon LaBelle, 2019-10-17 The revised edition of *Acoustic Territories: Sound Culture and Everyday Life* offers an expansive reading of auditory life. It provides a careful consideration of the performative dynamics inherent to sounding and listening and discusses how sound studies may illuminate understandings of contemporary society. Combining research on urbanism, popular culture, street life, and sonic technologies, *Acoustic Territories* opens up a range of critical perspectives; it challenges debates surrounding noise pollution and charts an acoustic politics of space by engaging auditory experience as found within particular cultural histories and related ideologies. Brandon LaBelle traces sound culture through a topographic structure from underground territories to the home and further into the rhythms and vibrations of streets and neighborhoods and finally to the sky itself as an arena of transmitted imaginaries. The new edition includes an additional global territory of the relational positioning of acoustics as a range of everyday practices that rework dominant tonalities. Questions of orientation and emplacement are critically raised, reframing listening as multi-modal and intrinsic to resistant socialities and what the author terms acts of compositioning. The book is fully updated to include new relevant research and references surfacing since 2010, as well as a new preface to the second edition. *Acoustic Territories* continues to uncover the embedded tensions and potentialities inherent to sound as it exists in the everyday spaces around us.
