**Sudan Tales** Rosemary Kenrick, 1987 These recollections of some Sudan Political Service wives writes A R Walmsley in his foreword touch not only on the horrors but also on the compensations which made their experience so rewarding above all the camaraderie of the Service and the sterling qualities of the Sudanese people This is no ordinary history but an absorbing account of everyday things in a world which has now disappeared where for fifty years labouring in extreme conditions a tiny foreign elite could run a vast country in preparation for its independence Reminiscences of British wives in Sudan between 1926 56 narrated in this collective work encompass the hectic tragic adventurous and above all the comedy of women capable of enduring what cannot be cured Once while waiting for my husband to appear for lunch at 2 30 I glanced across at our water jug A very large rat was standing on its hind legs freely lapping On B s return I said I m afraid I can t stay married to anyone who has rats drinking his drinking water I am leaving you B replied How actually will you leave Lacking a camel or any other practical transport to the railhead five hundred miles away that put a stop to the conversation ROSEMARY KENRICK wife of the former Assistant Adviser to the Governor General on Constitutional and External Affairs lived as a Sudan Political Service wife in Talodi 1945 6 Rashad 1946 9 Omdurman 1949 53 and Khartoum 1953 5 Part of the Oleander Classics series this 1985 title has been reproduced using the highest quality modern scanning technology in order to keep this and other important works from the Press s 50 year history from going out of print In this way the invaluable resources provided by books in the series remain available for general readers academics and other interested parties

*Imperial Culture and the Sudan* Lia Paradis, 2020-05-14 General Gordon s death in the Sudan marks the height of imperial cultural fever Even in the late nineteen seventies the themes of Khartoum were still the basis for children s stories comic books and depictions of masculinity Imperial Culture in the Sudan seeks to examine the cultural impact of Sudan on the popular image of the British empire why were these colonial administrators characterized as adventurers Why was Sudan and the story of General Gordon so popular The author argues it coincided with the mass production of popular journalism the height of Jingoism as a cultural product and therefore a study of Sudan s experience tells us a lot about the British Empire how it was made consumed and remembered Civilizing Women Janice Boddy, 2018-06-05 Civilizing Women is a riveting exploration of the disparate worlds of British colonial officers and the Muslim Sudanese they sought to remake into modern imperial subjects Focusing on efforts to stop female circumcision in the Anglo Egyptian Sudan between 1920 and 1946 Janice Boddy mines colonial documents and popular culture for ethnographic details to interleave with observations from northern Sudan where women s participation in z r spirit possession rituals provided an oblique counterpoint to colonial views Written in engaging prose Civilizing Women concerns the subtle process of colonizing selfhood the British women who undertook it and those they hoped to reform It suggests that efforts to suppress female circumcision were tied to the continuation of slavery and the rise of commercial cotton growing in Sudan as well as to concerns about infant mortality and

maternal health Boddy traces maneuverings among political officers teachers missionaries and medical personnel as they pursued their elusive goal and describes their fraught relations with Egypt Parliament the Foreign Office African nationalists and Western feminists In doing so she sounds a cautionary note for contemporary interventionists who would flout local knowledge and belief

Transnational Transcendence Thomas J. Csordas, 2023-09-01 This innovative collection examines the transnational movements effects and transformations of religion in the contemporary world offering a fresh perspective on the interrelation between globalization and religion Transnational Transcendence challenges some widely accepted ideas about this relationship in particular that globalization can be understood solely as an economic phenomenon and that its religious manifestations are secondary The book points out that religion's role remains understudied and undertheorized as an element in debates about globalization and it raises questions about how and why certain forms of religious practice and intersubjectivity succeed as they cross national and cultural boundaries Framed by Thomas J Csordas's introduction this timely volume both urges further development of a theory of religion and globalization and constitutes an important step toward that theory This innovative collection examines the transnational movements effects and transformations of religion in the contemporary world offering a fresh perspective on the interrelation between globalization and religion

*Illness and Irony* Michael Lambek, Paul Antze, 2003-11 Theories of illness and therapy since Freud have included the possibility that sufferers are complicit in their conditions The studies in this volume explore the ways in which illness and therapy may be characterized as sites at which ironies of the human condition are produced encountered acknowledged or discounted in favor of more literal readings They ask what these sites can teach us about questions of human agency and about the broader importance of irony for theory Encompassing a variety of perspectives the contributors included in *Illness and Irony* apply theories of irony to a myriad of cultural contexts ranging from Freud's consulting room and the Lacanian clinics of Buenos Aires to fright illness in a Yemeni village and spirit possession on the island of Mayotte An introductory chapter by Michael Lambek establishes a contextual viewpoint on irony arising from the writings of Thomas Mann Alexander Nehamas and others Vincent Crapanzano concludes the volume by linking the contributions to current debates about irony in rhetoric linguistics and comparative literature

*Divided by History* Peter Dixon, 2020-06-11 Do you wonder how the past affects today's violent conflict Tragic turmoil in Sudan and South Sudan reminds us how fragile peace can be Sudanese civil wars were not ended by formation of a new state Violence has continued in South Sudan and we see today that the North is by no means peaceful Current politics matter Yet the origins of today's violence stretch back into past centuries And much of Sudanese history has been about intervention and domination by foreigners By telling the stories of some of these outsiders *Divided by History* digs out the

historical roots of Sudanese conflicts Along the way we meet The 2 300 BC pioneer who braved the dangers of Egypt's Wild South The ambitious Albanian Turk who connived his way to becoming ruler of Egypt and Sudan The devout Christian who was sent to relieve a besieged city and gave his life The meticulous general whose superior weaponry proved an unstoppable force The adventurers soldiers and even Olympic oarsmen who ruled a vast land while still young And we recognise the difficulty of escaping from our past and the importance of understanding it *Dirt, Undress, and Difference* Adeline Masquelier, 2005-12-20 A magnificent volume It offers brand new perspectives on body politics and identity or subjectivity formation in the post colonial world Dorothy Ko Barnard College While there is widespread interest in dress and hygiene as vehicles of cultural moral and political value little scholarly attention has been paid to cross cultural understandings of dirt and undress despite their equally important role in the fashioning of identity and difference The essays in this absorbing and thought provoking collection contribute new insights into the neglected topics of bodily treatments and transgressions In detailed ethnographic studies from around the world the contributors recast assumptions about filth and nakedness exploring how various forms of transgression associated with the body's surface are drawn up into relations of power and inequality They demonstrate imaginatively how body surfaces are powerfully mobilized in the making and unmaking of moral worlds
