Suffolk In The Middle Ages:

Suffolk in the Middle Ages Norman Scarfe, 2007 Norman Scarfe explores place names the Sutton Hoo ship burial the coming of Christianity and the abbey at Bury St Edmunds concluding with an evocative study of five Suffolk places Southwold Dunwich Yoxford and Wingfield and Fressingfield The modern landscape of Suffolk is still essentially a medieval one though much of it is even earlier the five hundred medieval churches and ten thousand listed houses of historic or architectural interest and the Hundred lanes going back at least to the tenth century are often found to be set in a landscape created before the Roman conquest Suffolk in the Middle Ages opens with a discussion of the earliest written records the place names as a guide to settlement patterns including the setting of Sutton Hoo Among the grave goods found in that celebrated ship and discussed here was the whetstone sceptre asked to carry it from its showcase in the British Museum to the laboratory the author acknowledges a closer feeling of involvement even than helping to re open the ship in its mound in 1966 His explanation of the presence of the whetstone sceptre printed here has never been challenged The identification of a carved Anglo Saxon cross at Iken in 1977 prompted the essay here on St Botolph and the coming of East Anglian Christianity This leads to a consideration of the Danish invasion of East Anglia and a reexamination of the posthumous victory of King Edmund and Christianity as portrayed in an imaginary Breckland warren on the front of this book Scarfe s carefully reasoned argument that the Metropolitan Museum s famous walrusivory cross was made for the monks choir at Bury has never been refuted Life in Bury abbey is vividly reconstructed it was the most richly documented flowering of the work of East Anglia s apostles Felix and Fursa which also led to the phenomenal establishment in Suffolk by 1086 of four hundred of the five hundred medieval churches In four East Suffolk essays Southwold Dunwich Yoxford and Wingfield are exposed to Norman Scarfe s interpretative skills He reveals a past few could have guessed at often quite as curious as the Two Strange Tales unravelled in his concluding pages Medieval Suffolk Mark Bailey, 2007 In this book Mark Bailey provides a comprehensive survey of the economy and society of late medieval Suffolk East Anglia and Its North Sea World in the Middle Ages David Bates, Robert Liddiard, 2015 This collection of essays discusses East Anglia in the context of a medieval maritime framework and explores the extent to which there was a distinctive community bound together by the shared frontier of the North Sea during the Middle Ages It brings together the work of a range of international scholars and includes contributions from the disciplines of history archaeology art history and literary studies *The Later Middle Ages in England 1216 - 1485* Bertie Wilkinson, 2014-06-06 This distinguished historical narrative of the Tudor period considers the major themes of the period the restoration of order reformation of the Church and the opening phase in the development of a new England Plantagenet Ancestry: A Study In Colonial And Medieval Families, 2nd Edition, 2011 , Anchoritism in the Middle Ages Catherine Innes-Parker, Naoë Kukita Yoshikawa, 2013-04-30 This volume explores medieval anchoritism the life of a solitary religious recluse from a variety of perspectives The individual essays conceive anchoritism in broadly

interpretive categories challenging perceived notions of the very concept of anchoritic rule and guidance studying the interaction between language and linguistic forms addressing the connection between anchoritism and other forms of solitude particularly in European tales of sanctity and exploring the influence of anchoritic literature on lay devotion As a whole the volume illuminates the richness and fluidity of anchoritic texts and contexts and shows how anchoritism pervaded the spirituality of the Middle Ages for lay and religious alike It moves through both space and time ranging from the third century to the sixteenth from England to the Continent and back *Studies in the Art and Imagery of the Middle Ages* Richard Marks,2013-12-31 **Keeping the Peace in Medieval Suffolk** Nicholas R. Amor,2021 *Commercial Activity, Markets and Entrepreneurs in the Middle Ages* Ben Dodds,Christian Drummond Liddy,2011 Numerous aspects of the medieval economy are covered in this new collection of essays from business fraud and changes in wages to the production of luxury goods Long dominated by theories of causation involving class conflict and Malthusian crisis the field of medieval economic history has been transformed in recent years by a better understanding of the process of commercialisation In recognition of the important work in this area by Richard Britnell this volume of essays brings together studies by historians from both sides of the Atlantic on fundamental aspects of the medieval commercial economy From examinations of high wages minimum wages and unemployment through to innovative studies of consumption and supply business fraud economic regulation small towns the use of charters and the role of shipmasters and peasants as entrepreneurs this collection is essential reading for the student of the medieval economy Contributors John Hatcher John Langdon Derek Keene John S Lee James Davis Mark Bailey Christine M Newman Peter L Larson Maryanne Kowaleski Martha Carlin James Masschaele Christopher Dyer **Greater Medieval Houses of England and Wales, 1300-1500: Volume 2, East Anglia, Central England and Wales** Anthony Emery,1996 The second volume of a massive illustrated survey of the greater houses of medieval England and Wales first published in 1996 **Travel, Time, and Space in the Middle Ages and Early Modern Time** Albrecht Classen,2018-10-22 Research on medieval and early modern travel literature has made great progress which now allows us to take the next step and to analyze the correlations between the individual and space throughout time which contributed essentially to identity formation in many different settings The contributors to this volume engage with a variety of pre modern texts images and other documents related to travel and the individual's self orientation in foreign lands and make an effort to determine the concept of identity within a spatial framework often determined by the meeting of various cultures Moreover objects images and words can also travel and connect people from different worlds through books The volume thus brings together new scholarship focused on the interrelationship of travel space time and individuality which also includes of course women's movement through the larger world whether in concrete terms or through proxy travel via readings Travel here is also examined with respect to craftsmen's activities at various sites artists employment for many different projects all over Europe and elsewhere and in terms of metaphysical experiences catabasis

An Environmental History of the Middle Ages John Aberth, 2013 The Middle Ages was a critical and formative time for Western approaches to our natural surroundings eeAn Environmental History of the Middle Ages is a unique and unprecedented cultural survey of attitudes towards the environment during this period Humankind e tm s relationship with the environment shifted gradually over time from a predominantly adversarial approach to something more overtly collaborative until a series of ecological crises in the late Middle Ages With the advent of shattering events such as the Great Famine and the Black Death considered efflorescences of the climate downturn known as the Little Ice Age that is comparable to our present global warming predicament medieval people began to think of and relate to their natural environment in new and more nuanced ways They now were made to be acutely aware of the consequences of human impacts upon the environment anticipating the cyclical new ecology approach of the modern world Exploring the entire medieval period from 500 to 1500 and ranging across the whole of Europe from England and Spain to the Baltic and Eastern Europe John Aberth focuses his study on three key areas the natural elements of air water and earth the forest and wild and domestic animals Through this multi faceted lens An Environmental History of the Middle Ages sheds fascinating new light on the medieval environmental mindset It will be essential reading for students scholars and all those interested in the Middle Ages

Imagination and Fantasy in the Middle Ages and Early Modern Time Albrecht Classen, 2020-08-24 The notions of other peoples cultures and natural conditions have always been determined by the epistemology of imagination and fantasy providing much freedom and creativity and yet have also created much fear anxiety and horror In this regard the pre modern world demonstrates striking parallels with our own insofar as the projections of alterity might be different by degrees but they are fundamentally the same by content Dreams illusions projections concepts hopes utopias dystopias desires and emotional attachments are as specific and impactful as the physical environment This volume thus sheds important light on the various lenses used by people in the Middle Ages and the early modern age as to how they came to terms with their perceptions images and notions Previous scholarship focused heavily on the history of mentality and history of emotions whereas here the history of pre modern imagination and fantasy assumes center position Imaginary things are taken seriously because medieval and early modern writers and artists clearly reveal their great significance in their works and their daily lives This approach facilitates a new deep structure analysis of pre modern culture

The High Middle Ages Trevor Rowley, 2019-07-08 Originally published in 1986 The High Middle Ages begins in the late twelfth century and ends not with the arrival of the Tudor monarchs in 1485 but with the destruction of the wealth and power of the Church in the 1530s The book looks at how the passing of the monasteries marked the transition from an economic and social system based on a balance however shifting and uneasy between the church and state to a supreme reign of the church The book discusses how the later middle ages were a period not of decay but of rapid change It examines how social and economic convulsion emerged in a society marked by restless energy and creativity The three centuries covered in the book mark a key

period of extensive change to the landscape and environment of England between 1200 to 1550 **The Middle Ages on Television** Meriem Pagès, Karolyn Kinane, 2015-04-07 The 21st century has seen a resurgence of popular interest in the Middle Ages Television in particular has presented a wide and diverse array of medieval offerings Yet there exists little scholarship on television medievalism This collection fills the gap with 10 new essays focusing on the depiction of the Middle Ages in popular culture and questioning the role of television in shaping our ideas about past and present The contributors emphasize the need for scholars of medievalism to pay attention to its manifestations on the small screen The essays cover quite a range of topics including genre gender and sexuality The series covered are Game of Thrones Merlin Full Metal Jousting Joan of Arcadia Tudors Camelot and Mists of Avalon Instructors considering this book for use in a course may request an examination copy here **The Visual Culture of Baptism in the Middle Ages** Harriet M. Sonnede Torrens, 2017-07-05 Under the guidance of the leading experts on baptismal fonts and the co-directors of the Baptisteria Sacra Index the world's only iconographical inventory of baptismal fonts a research project at the University of Toronto this collection of essays by a group of European and North American scholars extends the traditional boundaries associated with the study of baptismal fonts The visual is privileged whether it is in the metaphysical literary or empirical realms of scholarship offering a rich understanding of the powerful role of baptism played in medieval and renaissance society In the quest for a holistic understanding of the vessels the settings and contexts the rituals and the spiritual significance of the font itself the contributors have turned to a range of sources folkloric tales baptismal records liturgical sermons civic records literary accounts hagiographies and historical documents about local families communities and ecclesiastical developments Previous scholarship about baptismal fonts has often focused on the purely stylistic iconographical and liturgical perspectives using primarily ecclesiastical and liturgical documentation This collection of essays shows the wealth of new information that baptismal fonts can offer when scholars adopt interdisciplinary approaches and engage in readings that question traditional assumptions inherited in scholarship **Rural Space in the Middle Ages and Early Modern Age** Albrecht Classen, 2012-05-29 Older research on the premodern world limited its focus on the Church the court and more recently on urban space The present volume invites readers to consider the meaning of rural space both in light of ecocritical readings and social historical approaches While previous scholars examined the figure of the peasant in the premodern world the current volume combines a large number of specialized studies that investigate how the natural environment and the appearance of members of the rural population interacted with the world of the court and of the city The experience in rural space was important already for writers and artists in the premodern era as the large variety of scholarly approaches indicates The present volume signals how much the surprisingly close interaction between members of the aristocratic and of the peasant class determined many literary and art historical works In a surprisingly large number of cases we can even discover elements of utopia hidden in rural space We also observe how much the rural world was a significant element

already in early medieval mentality Moreover as many authors point out the impact of natural forces on premodern society was tremendous if not catastrophic

Early Medieval Britain Pam J. Crabtree, 2018-06-07 The growth and development of towns and urbanism in the pre modern world has been of interest to archaeologists since the nineteenth century Much of the early archaeological research on urban origins focused on regions such as Mesopotamia Egypt and Mesoamerica Intensive archaeological research that has been conducted since the 1960s much of it as a result of urban redevelopment has shed new light on the development of towns in Anglo Saxon England In this book Pamela Crabtree uses up to date archaeological data to explore urban origins in early medieval Britain She argues that many Roman towns remained important places on the landscape despite losing most of their urban character by the fifth century Beginning with the decline of towns in the fourth and fifth centuries Crabtree then details the origins and development of towns in Britain from the 7th century through the Norman Conquest in the mid eleventh century CE She also sets the development of early medieval urbanism in Britain within a broader comparative framework

Medieval Market Morality James Davis, 2011-11-24 This important study examines the market trade of medieval England by providing a wide ranging critique of the moral and legal imperatives that underpinned retail trade James Davis shows how market goers were influenced not only by practical and economic considerations of price quality supply and demand but also by the moral and cultural environment within which such deals were conducted This book draws on a broad range of cross disciplinary evidence from the literary works of William Langland and the sermons of medieval preachers to state civic and guild laws Davis scrutinises everyday market behaviour through case studies of small and large towns using the evidence of manor and borough courts From these varied sources Davis teases out the complex relationship between morality law and practice and demonstrates that even the influence of contemporary Christian ideology was not necessarily incompatible with efficient and profitable everyday commerce
