Social Science In Question Towards A Postdisciplinary Framework:

Social Science in Question Mark J Smith, 1998-12-12 How do social scientists study the social world Is social scientific practice in transformation Can social science learn from its own past This major text takes the reader on an intellectual journey starting with the story of modern science and the impact that this has had on social scientific practice and going on to outline and critically review the major approaches to social scientific inquiry ranging from positivism to postmodernism Throughout readers are encouraged to think carefully about what it means to study the social world in a scientific way make connections between what they do and the everyday lives of the people they study and look beyond their discipline and think in a postdisciplinary way

Applied Jewish Values in Social Sciences and Psychology Michael Ben-Avie, Yossi Ives, Kate Loewenthal, 2015-12-01 This volume interweaves concepts and methods from psychology and other social sciences with Jewish ideas and practices in order to address contemporary social issues This volume brings together pioneering research from scholars in such fields as psychology education and religious studies The authors integrate insights from Jewish texts and practices with the methods and concepts of the social sciences to create interventions that promote the well being of children adults families communities and society Divided into three sections Education Psychological Well Being Society and Beyond this book shows how this integrationist approach can deepen our understanding and generate new insights around pressing social challenges to impact positive change in the lives of people and communities

Theoretical and Methodological Approaches to Social Sciences and Knowledge Management

Asunción Lopez-Varela Azcárate, 2012-08-16 This is a unique and groundbreaking collection of questions and answers coming from higher education institutions on diverse fields and across a wide spectrum of countries and cultures It creates routes for further innovation collaboration amidst the Sciences both Natural and Social the Humanities and the private and public sectors of society The chapters speak across sociocultural concerns education welfare and artistic sectors under the common desire for direct responses in more effective ways by means of interaction across societal structures

Approaches and Processes of Social Science Research Tshabangu, Icarbord, Ba', Stefano, Madondo, Silas Memory, 2020-12-18 For the social sciences the approach and processes in research are quite different The type of evidence that social scientists can collect is often very dependent on the method that has been used to gather the data The type of findings that can be discussed are often not straightforward at all and no easy comparison can be made with the natural sciences although this is not impossible The methodology in the social sciences has the same role as technology and lab techniques in the natural sciences as these need to be developed rapidly to account for the increasing complexity of the natural objects to be studied The methodologies in the social sciences need to go through an intense period of critique reflection and reformulation to consider the complexity of social issues under investigation Therefore the area of social sciences research and methodologies should continually be studied to advance the field Approaches and Processes of Social Science Research presents new research methodologies in

the social science field and aims at providing a broad introduction to the methodology of social research in its main theoretical foundations as well as in its practical applications Readers will develop a critical thinking attitude about social problems which in turn will sharpen their analytic approach to research This book includes four main parts philosophical perspectives strategies for conducting research common approaches for handling and collecting data and critical aspects of research writing throughout the process While highlighting topics such as critical theory in research ethical issues research processes data analysis and more this book is ideal for researchers in the social sciences and practitioners stakeholders academicians and students interested in deepening their understanding of the ideas and the practices of social science research

The Thinking Professional Sue L. T. McGregor, 2025-09-24 This book concerns any progressive discipline and human profession looking to transform its practice via the cultivation of thinking professionals Topics include paradigm shifts the human condition transdisciplinarity the holomovement principle philosophical well being perspective transformation and transformative social change agency

Psychopathology and Social Prejudice Derek Hook, Gillian Eagle, 2002 This volume offers an innovative set of critical examinations of the field of psychopathology It investigates the social formation of psychopathology across different cultural discursive and political contexts and draws upon theory from two traditional domains of psychology social and abnormal psychology The diverse topics covered include xenophobia anorexia nervosa witch hunting post traumatic stress homosexuality race categorization and crosscultural issues The various topics work in concert to unseat the notion of psychopathology as comprising decontextualized individualized essentialist categories of organic illness

Rethinking State Theory Mark J Smith, Mark J. Smith, 2013-10-11 In the last two decades objects of analysis such as the state have increasingly been seen as uncertain and contested theoretical concepts Mark J Smith presents a counter argument that highlights how existing theoretical approaches can provide useful tools for understanding contemporary political developments

Re-imagining the Research Process Mats Alvesson, Jorgen Sandberg, 2021-09-01 This book offers a unique solution to the shortage of more imaginative and engaging research by re imagining the core elements of the research process In contrast to existing methods which mainly focus on standard ingredients in the research process the metaphorical approach taken here offers a more varied and comprehensive platform for producing novel influential and relevant research The set of guiding principles suggested in the book provides researchers with the resources to break away from existing conventions and templates for conducting and writing research Re imagining the Research Process Conventional and Alternative Metaphors is suitable for upper undergraduate and postgraduate students and researchers interested in challenging traditional views of the research process Mats Alvesson holds a chair in the Business Administration department at Lund University in Sweden and is also a part time professor at University of Queensland Business School Australia and at Cass Business School UK Jorgen Sandberg is Professor at UQ Business School University of Queensland Australia and Distinguished Research Environment Professor in Organization Studies at the Warwick Business
