Soft Computing and Intelligent Systems Design: Theory, Tools and Applications Karray,2004 **Soft Computing and Intelligent Systems Design** Fakhreddine O. Karray,Clarence W. De Silva,2004 Traditional artificial intelligence AI techniques are based around mathematical techniques of symbolic logic with programming in languages such as Prolog and LISP invented in the 1960s These are referred to as crisp techniques by the soft computing community The new wave of AI methods seeks inspiration from the world of biology and is being used to create numerous real world intelligent systems with the aid of soft computing tools These new methods are being increasingly taught at the upper end of the curriculum sometimes as an adjunct to traditional AI courses and sometimes as a replacement for them Where a more radical approach is taken and the course is being taught at an introductory level we have recently published Negnevitsky's book Karray and Silva will be suitable for the majority of courses which will be found at an advanced level Karray and de Silva cover the problem of control and intelligent systems design using soft computing techniques in an integrated manner They present both theory and applications including industrial applications and the book contains numerous worked examples problems and case studies Covering the state of the art in soft computing techniques the book gives the reader sufficient knowledge to tackle a wide range of complex systems for which traditional techniques are inadequate Soft Computing Systems Ajith Abraham,Javier Ruiz-del-Solar,Mario Köppen,2002 Annotation Intelligent Systems cover a broad area of knowledge based systems computational intelligence soft computing and their hybrid combinations Research and development in intelligent systems have enabled us to not only solve a range of problems which were previously considered too difficult but also have enabled a larger number of other problems to be tackled more effectively This volume focuses on the recent research developments on intelligent systems in a hybrid environment and its applications in image processing internet modelling and data mining The different contributions presented in this volume were accepted for the Second International Conference on Hybrid Intelligent Systems HIS 02 **Soft Computing and Intelligent Systems Design** Fakhreddine O.
