Solar Eclipses and the Ionosphere Michael Anastassiades, 1970 **Solar Eclipses and the Ionosphere** M. A. Anastassiades, 1995-12-31 **Solar Eclipses and the Ionosphere** International Council of Scientific Unions. Mixed Commission on Ionosphere, 1956 **Solar Eclipses and the Ionosphere** M. A. Anastassiades, 2012-12-06 It is a long standing tradition in this country for any event related to solar activity to enjoy special importance Because we enjoy the advantage of prolonged sunny periods we consider the incidence of some thirty cloudy days each year as a personal affront I cannot say that we have the faculty to produce solar eclipses in order to justify an Institute on this subject to be held in Athens but I can say that the occurrence of a solar eclipse over Greece would present for optical and solar astronomers the highest possibility of excellent conditions for observation We had this opportunity during the May 20 1966 annual solar eclipse over North Africa and southern Europe At that time we had the pleasure to collaborate with a large number of research groups of various nationalities who installed optical and radio instruments near or in Lagonissi which lay along the central path in order to follow the eclipse A first meeting was then organized in order to discuss methods of data handling and availability of results After a preliminary discussion it was suggested that a later meeting should be organized when final results were available **Solar Eclipses and the Ionosphere** International Council of Scientific Unions. Mixed Commission on Ionosphere, 1956 *Observations of Ionospheric Behavior During the Solar Eclipse of 20 July 1963 at Bedford, Massachusetts* Richard J.
