Solar Returns:

Solar Returns: An Introduction Sara Shipman, Did you know that every birthday the universe gifts you a new astrological chart that allows you to discover where your life is headed for the next twelve months All you have to do is decode your Solar Return Chart to take control of events and in this book Sara Shipman tells you how Solar Returns are one of the best tools of predictive astrology and all the best tools are simple to use In this book Sara Shipman introduces you to Solar Return chart interpretation using a keywords approach to analysing the planets houses and rising sign in your Solar Return chart To keep things easy Sara bases her chart analyses in this book on four main questions what when where and how and the answers to those questions are written in your stars In this book Sara explains what a Solar Return forecast is how it works and why it is different from your natal chart She explains how Solar Returns work in cycles and looks at the question of timing your forecast When can you expect to notice your new Solar Return chart taking effect Is it an immediate noticeable change or does it overlap with the previous year's chart These and many other questions will be answered by Sara's in depth analysis of the planets retrograde planets and astrological houses in your solar return chart Sara also looks carefully at the importance of the rising sign in your Solar Return chart The main objective of this book is however to provide you with the resources to begin making your own interpretations So to simplify matters each section of the book has a full keywords list for each planet house and rising sign to open up the full range of possibilities available to you when interpreting your Solar Return chart Sara Shipman is an astrologer blogger and writer

Solar Returns Ciro Discepolo, 2011-06-01 In the opinion of the Author this book should be studied together with the other titled Transits and Solar Returns because this one is over all about the technique of Solar Returns starting from the meaning of a Solar Return and continuing with the calculations to get a SR Solar Return and a lot of related technical problems like By What Strength a Solar Return Works Which Place You Should Consider to Calculate a Solar Return Long and Short Ascension Signs How to Make Manual Calculations What is the Annual Progression of Sidereal Time From When to When a Solar Return Works How Long it Is Necessary to Remain in the SR Location What Happens if the Time Zone Changes The Results of the Last Researches For example in the latter we read Remember that Saturn is always stronger than Jupiter or Venus or the Sun So if you place in a SR chart a Saturn close to Midheaven and contemporarily you place Jupiter or Venus exactly joined to Midheaven your SR Tenth House will work as Saturn works and not as Jupiter or Venus In the book there are also sixty examples of Solar Returns in order to explain in a very practical way all the theory and the interpretations contained here The Ascendant of the SR in the Radix Houses Celestials in the SR Houses etc It is the first full length volume by Ciro Discepolo about Solar Returns and it has been revised many times since 1993 to the present
