**Style and Consciousness in Middle English Narrative** John M. Ganim, 2014-07-14 John M Ganim presents a revised theory of late medieval literary history based on the relationship of the poet to the reader His work shows how the increasingly compromised exemplary intent of later medieval poets led them to dramatize the reader as a character in the text and to develop complex forms of narrative characterized by discontinuity distortion and disorientation Originally published in 1983 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Paxson, Lawrence M. Clopper, Sylvia Tomasch, 1998 First detailed examination of theatricality in Chaucer and in Middle English literature and culture as a whole Theatricality as a cultural process is vitally important in the middle ages it encompasses not only the thematic importation of dramatic images

Ethics and Eventfulness in Middle English Literature J. Mitchell, 2009-04-27 Medieval writers were fascinated by fortune and misfortune yet the critical problems raised by such explorations have not been adequately theorized Allan Mitchell invites us to consider these contingencies in relation to an ethics of the event His book examines how Middle English writers including Chaucer Gower Lydgate and Malory treat unpredictable events such as sexual attraction political disaster social competition traumatic accidents and the textual condition itself locating in fortune the very potentiality of ethical life While earlier scholarship has detailed the iconography of Lady Fortune this book alters and advances the conversation so that we see fortune less as a negative exemplum than as a positive sign of radical phenomena

**Imaginings of Time in Lydgate and Hoccleve's Verse** Karen Elaine Smyth, 2016-05-13 Using empirical research to explore medieval writers imaginings of time this study presents a new morphology by which to study narratives of time in fifteenth century literary culture focusing on poems of John Lydgate and Thomas Hoccleve Karen Smyth begins with an overview of medieval time keeping devices and considers collective and individual attitudes and perceptions of time She then examines a range of Middle English authors appropriations and innovations in relation to such perceptions identifying competitions of tradition and innovation allowing for an interrogation of commonly accepted medieval theories of time An empirically based morphology emerges and is used to examine narratives of time in Lydgate and Hoccleve's work Through a series of close readings of selected short poems and Lydgate's Troy Book Fall of Princes and Siege of Thebes and of Hoccleve's Regiments of Princes and Series Karen Smyth looks at expressions of time and examples of the authors negotiation of time consciousness illustrating how both poets manipulate a range of cultural narratives of time in order to create multiple and sometimes competing temporalities within a single poem Smyth simultaneously draws attention to Lydgate's and Hoccleve's underestimated artistic skills and lays out a means to re evaluate medieval cultural attitudes towards time

**Empire of Magic** Geraldine Heng, 2003 Empire of Magic offers a genesis and genealogy for medieval romance and the King Arthur legend through the history of Europe's encounters with the East in crusades travel missionizing and empire formation It also produces definitions of race and nation for the

medieval period and posits that the Middle Ages and medieval fantasies of race and religion have recently returned Drawing on feminist and gender theory as well as cultural analyses of race class and colonialism this provocative book revises our understanding of the beginnings of the nine hundred year old cultural genre we call romance as well as the King Arthur legend Geraldine Heng argues that romance arose in the twelfth century as a cultural response to the trauma and horror of taboo acts in particular the cannibalism committed by crusaders on the bodies of Muslim enemies in Syria during the First Crusade From such encounters with the East Heng suggests sprang the fantastical episodes featuring King Arthur in Geoffrey of Monmouth's chronicle *The History of the Kings of England* a work where history and fantasy collide and merge each into the other inventing crucial new examples and models for romances to come After locating the rise of romance and Arthurian legend in the contact zones of East and West Heng demonstrates the adaptability of romance and its key role in the genesis of an English national identity Discussing Jews women children and sexuality in works like the romance of Richard Lionheart stories of the saintly Constance Arthurian chivalric literature the legend of Prester John and travel narratives Heng shows how fantasy enabled audiences to work through issues of communal identity race color class and alternative sexualities in socially sanctioned and safe modes of cultural discussion in which pleasure not anxiety was paramount Romance also engaged with the threat of modernity in the late medieval period as economic social and technological transformations occurred and awareness grew of a vastly enlarged world beyond Europe one encompassing India China and Africa Finally Heng posits romance locates England and Europe within an empire of magic and knowledge that surveys the world and makes it intelligible usable for the future Empire of Magic is expansive in scope spanning the eleventh to the fifteenth centuries and detailed in coverage examining various types of romance historical national popular chivalric family and travel romances among others to see how cultural fantasy responds to changing crises pressures and demands in a number of different ways Boldly controversial theoretically sophisticated and historically rooted Empire of Magic is a dramatic restaging of the role romance played in the culture of a period and world in ways that suggest how cultural fantasy still functions for us today      *Uncertain Refuge* Elizabeth Allen, 2021-10-22 An examination of sanctuary seeking in the literature of medieval England between the twelfth and the seventeenth centuries      **Bulletin Bibliographique de la Société Internationale Arthurienne** International Arthurian Society, 1984      **Chaucerian Tragedy** Henry Ansgar Kelly, 1997 A study of Chaucer's definition of tragedy with special reference to *Troilus* and its lasting influence on English dramatists This book is concerned with the medieval idea of what constituted tragedy it suggests that it was not a common term and that those few who used the term did not always intend the same thing by it Kelly believes that it was Chaucer's work which shaped notions of the genre and places his achievement in critical and historical context He begins by contrasting modern with medieval theoretical approaches to genres then discusses Boccaccio's concept of tragedy before turning to Chaucer himself exploring the ideas of tragedy prevalent in medieval England and their influence on Chaucer and

showing how Chaucer interpreted the term Troilus and Criseyde is analysed specifically as a tragedy with an account of its reception in modern times for comparison there is an analysis of how John Lydgate and Robert Henryson two of Chaucer's imitators understood and practiced tragedy Professor HENRY ANSGAR KELLY teaches at UCLA **New Medieval**

Knapp, 2017-11-29 Widely heard and read throughout the middle ages romance literature has persisted for centuries and has lately re emerged in the form of speculative fiction inviting readers to step out of the actual world and experience the intriguing pleasure of possibility Medieval Romance is the first study to focus on the deep philosophical underpinnings of the genre s fictional worlds James F Knapp and Peggy A Knapp uniquely utilize Leibniz s possible worlds theory Kant s aesthetic reflections and Gadamer s writings on the apprehension of language over time to bring the romance genre into critical dialogue with fundamental questions of philosophical aesthetics modal logic and the hermeneutics of literary transmission The authors compelling and illuminating analysis of six instances of medieval secular writing including that of Marie de France the Gawain poet and Chaucer demonstrates how the extravagantly imagined worlds of romance invite reflection about the nature of the real These stories which have delighted readers for hundreds of years do so because the impossible fictions of one era prefigure desired realities for later generations      Sovereign Fantasies Patricia Clare Ingham, 2015-04-07 During and after the Hundred Years War English rulers struggled with a host of dynastic difficulties including problems of royal succession volatile relations with their French cousins and the consolidation of their colonial ambitions toward the areas of Wales and Scotland Patricia Ingham brings these precarious historical positions to bear on readings of Arthurian literature in Sovereign Fantasies a provocative work deeply engaged with postcolonial and gender theory Ingham argues that late medieval English Arthurian romance has broad cultural ambitions offering a fantasy of insular union as an imagined community of British sovereignty The Arthurian legends offer a means to explore England s historical indebtedness to and intimacies with Celtic culture allowing nobles to repudiate their dynastic ties to France and claim themselves heirs to an insular heritage Yet these traditions also provided a means to critique English conquest elaborating the problems of centralized sovereignty and the suffering produced by chivalric culture Texts such as Sir Gawain and the Green Knight the Alliterative Morte Arthure and Caxton s edition of Malory s Morte Darthur provide what she terms a sovereign fantasy for Britain That is Arthurian romance offers a cultural means to explore broad political contestations over British identity and heritage while also detailing the poignant complications and losses that belonging to such a community poses to particular regions and subjects These contestations and complications emerge in exactly those aspects of the tales usually read as fantasy for example in the narratives of Arthur s losses in the prophecies of his return and in tales that dwell on death exotic strangeness uncanny magic gender and sexuality Ingham s study suggests the nuances of the insular identity that is emphasized in this body of literature Sovereign Fantasies shows the significance rather than the irrelevance of medieval dynastic motifs to projects of national unification arguing that medieval studies can contribute to our understanding of national formations in part by marking the losses produced by union
