Hop on Film Kimberley Monteyne, 2013-09-13 Early hip hop film musicals have either been expunged from cinema history or excoriated in brief passages by critics and other writers Hip Hop on Film reclaims and reexamines productions such as Breakin' 1984 Beat Street 1984 and Krush Groove 1985 in order to illuminate Hollywood's fascinating efforts to incorporate this nascent urban culture into conventional narrative forms Such films presented musical conventions against the backdrop of graffiti splattered trains and abandoned tenements in urban communities of color setting the stage for radical social and political transformations Hip hop musicals are also part of the broader history of teen cinema and films such as Charlie Ahearn's Wild Style 1983 are here examined alongside other contemporary youth oriented productions As suburban teen films banished parents and children to the margins of narrative action hip hop musicals by contrast presented inclusive and unconventional filial groupings that included all members of the neighborhood These alternative social configurations directly referenced specific urban social problems which affected the stability of inner city families following diminished governmental assistance in communities of color during the 1980s Breakdancing a central element of hip hop musicals is also reconsidered It gained widespread acclaim at the same time that these films entered the theaters but the nation's newly discovered dance form was embattled caught between a multitude of institutional entities such as the ballet academy advertising culture and dance publications that vied to control its meaning particularly in relation to delineations of gender As street trained breakers were enticed to join the world of professional ballet this newly forged relationship was recast by dance promoters as a way to invigorate and remasculinize European dance while young women simultaneously critiqued conventional masculinities through an appropriation of breakdance These multiple and volatile histories influenced the first

wave of hip hop films and even structured the sleeper hit Flashdance 1983 This forgotten ignored and maligned cinema is not only an important aspect of hip hop history but is also central to the histories of teen film the postclassical musical and even institutional dance Kimberley Monteyne places these films within the wider context of their cultural antecedents and reconsiders the genre's influence Applied Language Learning, 1993 Conflict, Peace, Security and Development Helen Hintjens, Dubravka Zarkov, 2014-08-13 Whilst classical approaches linked development with peace security has become central to understandings of both war and peacetime This book uniquely reflects on how to deal with the convergence of war and peace in the context of global economic and geo political development It addresses methodological challenges in contemporary approaches to conflict violence security peace and development Two dominant contemporary approaches are selected for debate on methodologies and ethical choices rational choice and identity based theorizing The chapters are arranged as dialogues around contending approaches to better understand how the interlocking fields of violent conflict peace development and security can be researched and understood The book considers how theoretical and methodological approaches relate to different ethical and political choices including around engagement and intervention in the four interwoven fields Theoretical methodological and ethical issues emerge from the critical reviews of academic discourses and case study based chapters from across the world including Sri Lanka Ghana Colombia and Rwanda This book is an invaluable resource for postgraduate students and researchers in Development Studies Conflict Studies Peace Studies and Security Studies

Governance of Consumption A. Hunt, 1996-10-01 This book explores the sumptuary laws that regulated conspicuous consumption in respect to dress ornaments and food that were widespread in late medieval and early modern Europe It argues that sumptuary laws were attempts to stabilize social recognizability in the urban world of strangers and in the governance of cities The gendered character of sumptuary laws are viewed as components of gender wars These laws are explored as projects directed at the reform of popular culture and in their links to the governance of vagrancy and of popular recreation This study challenges the view that the sumptuary actually died and develops an argument that in the modern world the regulation of consumption persists but becomes dispersed throughout a range of both public and private forms of governance The conclusions stresses the persistence of projects of governance of personal appearance and of private consumption
