Style Guide Guide

A boilerplate for creating superb style guides

The homepage of a style guide should provide high-level information around what the design system is, what benefits it provides, who it's for, and how to get started with it. Like any good index page, it should provide clear navigation to key parts of the website.

Get Started

Design System Benefits

Explain how the design system benefits users and the business. For inspiration, check out over 180 examples of design systems at [200guides.io](#). It lists teams to use the system, and shows components in the wild.

Contributing info

If it's desirable to have people from across the organization contribute to the design system, linking to the [contributing page](#) from the homepage could be a good idea.
