The Owl's Flight Stefania

Achella, Francesca Iannelli, Gabriella Baptist, Serena Feloj, Fiorinda Li Vigni, Claudia Melica, 2021-10-25 This book presents a unique rethinking of G W F Hegel's philosophy from unusual and controversial perspectives in order to liberate new energies from his philosophy The role Hegel ascribes to women in the shaping of society and family the reconstruction of his anthropological and psychological perspective his approach to human nature the relationship between mental illness and social disease the role of the unconscious and the relevance of intercultural and interreligious pathways All these themes reveal new and inspiring aspects of Hegel's thought for our time *Palgrave Advances in Continental Political Thought* T. Carver, J. Martin, 2005-10-27 An accessible higher level introduction to a key selection of continental European thinkers from Spinoza to Zizek Covering classical exponents of the tradition such as Hegel and Marx moderns like Gramsci and Habermas and postmoderns like Lacan and Deleuze the volume introduces the main ideas of each thinker and reflects on their enduring theoretical relevance The impressive breadth and contemporary angle make this a unique up to date collection that will be invaluable to students and teaching staff alike Hegel, Marx, Nietzsche Henri Lefebvre, 2020-02-11 The great French Marxist philosopher weighs up the contributions of the three major critics of modernity With the translation of Lefebvre's philosophical writings his stature in the English speaking world continues to grow Though certainly within the Marxist tradition he consistently saw Marx as an unavoidable necessary but insufficient starting point Unsurprisingly Lefebvre always insisted on the importance of Hegel to understanding Marx But the imposing Metaphilosophy also suggested the significance he ascribed to Nietzsche in the realm of shadows through which philosophy seeks to think the world Lefebvre proposes here that the modern world is at the same time Hegelian in terms of the state Marxist in terms of the social and society and Nietzschean in terms of civilization and its values As early as 1939 Lefebvre pioneered a French reading of Nietzsche that rejected the philosopher's appropriation by fascism bringing out the tragic implications of Nietzsche's proclamation that God is dead long before this approach was followed by such later writers as Foucault Derrida and Deleuze Forty years later in the last of his philosophical writings Lefebvre juxtaposes the contributions of the three great thinkers in a text whose themes remain surprisingly relevant today *Interpreting Hegel's Phenomenology of Spirit* Ivan Boldyrev, Sebastian Stein, 2021-11-29 This book focuses on the interpretations of Hegel's Phenomenology of Spirit that have proved influential over the past decades Current readers of Hegel's Phenomenology face an abundance of interpretive literature devoted to this difficult text and confront a plethora of different philosophical presuppositions research strategies and hermeneutic efforts To enable a better orientation within the interpretative landscape the essays in this volume summarize contextualize and critically comment on the issues and currents in contemporary Phenomenology scholarship There is a common set of three questions that each of the contributions seeks to answer 1 What kind of text is The Phenomenology of Spirit 2 What do the different strategies of interpretation conceptually bring to the text 3 How do different interpreters justify their verdict on whether the Phenomenology is still a viable project French XX Bibliography, Issue #65 Sheri K. Judith Butler beyond gender Carla Rodrigues, 2023-09-20 Judith Butler beyond gender is philosophy in motion There is nothing superfluous about this book Nor is there any pretension of displaying erudition What one will read here is political philosophy which is philosophy itself according to the author She takes personal and collective mourning as an object of research and reflection In this project she joins Judith Butler a philosopher who has been approaching mourning as a necessary and crucial issue for political criticism for quite some time now We live in a time when mourning has a great meaning The covid 19 pandemic has already caused the death of millions of people around the world hundreds of thousands in Brazil An immense collective loss We are hopelessly constituted by our losses and absences We are also constituted by our memories Carla Rodrigues also makes us think about all these issues She makes us reflect on inequality in death on the lives that matter as well as those that are lost on which lives are grievable There is no denying this desolate scenario even when some insist on it We share this collective mourning It is about claiming the right to experience it Finding ways to defend a more egalitarian society requires a public policy on mourning and memory says Carla Guacira Lopes Louro

Balthasar at End of Modernity, 1999-01-01 With a Foreword by Fergus Kerr and an Afterword by Rowan Williams In an age when theology appears fragmented as never before this volume intends to show how von Balthasar is one of the very few contemporary theologians to have demonstrated how the patterns and resources of the Christian tradition have extraordinary pertinence today The authors represent a new generation of Anglican theologians sympathetic to von Balthasar's thought exploring it both in order to discover its fundamental dynamics and to see how it may be brought into new dialogues The authors represent the Radical Orthodoxy movement in Anglican theology and are sympathetic to von Balthasar's thought exploring it both in order to discover its fundamental dynamics and to see how it may be brought into new dialogues

The Virtuoso as Subject Zarko Cvejić, 2016-06-22 This book offers a novel interpretation of the sudden and steep decline of instrumental virtuosity in its critical reception between c 1815 and c 1850 documenting it with a large number of examples from Europe's leading music periodicals at the time The increasingly hostile critical reception of instrumental virtuosity during this period is interpreted from the perspective of contemporary aesthetics and philosophical conceptions of human subjectivity the book's main thesis is that virtuosity qua irreducibly bodily performance generated so much hostility because it was deemed incompatible with and even threatening to the new Romantic philosophical conception of music as a radically disembodied abstract autonomous art and moreover a symbol or model if only a utopian one of a similarly autonomous and free human subject whose freedom and autonomy seemed increasingly untenable in the economic and political context of post Napoleonic Europe That is why music newly reconceived as radically abstract and autonomous plays such an important part in the philosophy of early German Romantics such as E T A Hoffmann Schelling and Schopenhauer with their growing misgivings about the very possibility of human freedom and not so much in the preceding generation of thinkers such as Kant and Hegel who still believed in the transcendently free subject of the Enlightenment For the early German Romantics music

becomes a model of human freedom if freedom could exist By contrast virtuosity irredeemably moored in the perishable human body ephemeral and beholden to such base motives as making money and gaining fame is not only incompatible with music thus conceived but also threatens to expose it as an illusion in other words as irreducibly corporeal and by extension the human subject it was meant to symbolise as likewise an illusion Only with that in mind may we begin to understand the hostility of some early to mid 19th century critics to instrumental virtuosity which sometimes reached truly bizarre proportions In order to accomplish this the book looks at contemporary aesthetics and philosophy the contemporary reception of virtuosity in performance and composition and the impact of 19th century gender ideology on the reception of some leading virtuosi male and female alike

Post-Holocaust France and the Jews, 1945-1955 Seán Hand, Steven T Katz, 2020-07-28 Despite an outpouring of scholarship on the Holocaust little work has focused on what happened to European Jewish communities after the war ended And unlike many other European nations in which the majority of the Jewish population perished France had a significant post war Jewish community that numbered in the hundreds of thousands Post Holocaust France and the Jews 1945 1955 offers new insight on key aspects of French Jewish life in the decades following the end of World War II How Jews had been treated during the war continued to influence both Jewish and non Jewish society in the post war years The volume examines the ways in which moral and political issues of responsibility combined with the urgent problems and practicalities of restoration and it illustrates how national imperatives international dynamics and a changed self perception all profoundly helped to shape the fortunes of postwar French Judaism Comprehensive and informed this volume offers a rich variety of perspectives on Jewish studies modern and contemporary history literary and cultural analysis philosophy sociology and theology With contributions from leading scholars including Edward Kaplan Susan Rubin Suleiman and Jay Winter the book establishes multiple connections between such different areas of concern as the running of orphanages the establishment of new social and political organisations the restoration of teaching and religious facilities and the development of intellectual responses to the Holocaust Comprehensive and informed this volume will be invaluable to readers working in Jewish studies modern and contemporary history literary and cultural analysis philosophy sociology and theology

Hegel and Psychoanalysis Molly Macdonald, 2014-06-03 Both Hegel's philosophy and psychoanalytic theory have profoundly influenced contemporary thought but they are traditionally seen to work in separate rather than intersecting universes This book offers a new interpretation of Hegel's Phenomenology of Spirit and brings it into conversation the work of two of the best known contemporary psychoanalysts Christopher Bollas and André Green Hegel and Psychoanalysis centers a consideration of the Phenomenology on the figure of the Unhappy Consciousness and the concept of Force two areas that are often overlooked by studies which focus on the master slave dialectic This book offers reasons for why now more than ever we need to recognize how concepts of intersubjectivity Force the Third and binding are essential to an understanding of our modern world Such concepts can allow for an interrogation of what can be seen as the profoundly false and constructed

senses of community and friendship created by social networking sites and further an idea of a global community which thrives at the expense of authentic intersubjective relations *Concise Routledge Encyclopedia of Philosophy* Routledge (Firm),2000 The scholarship of this monumental and award winning ten volume work is available in one affordable book that brings together more than 2 000 entries from the original in a shortened more accessible format Extensively cross referenced and indexed *Concise Routledge Encyclopedia of Philosophy* Professor Edward Craig,Edward Craig,2013-01-11 The most complete and up to date philosophy reference for a new generation with entries ranging from Abstract Objects to Wisdom Socrates to Jean Paul Sartre Ancient Egyptian Philosophy to Yoruba Epistemology The *Concise Routledge Encyclopedia of Philosophy* includes More than 2000 alphabetically arranged accessible entries Contributors from more than 1200 of the world s leading thinkers Comprehensive coverage of the classic philosophical themes such as Plato Arguments for the Existence of God and Metaphysics Up to date coverage of contemporary philosophers ideas schools and recent developments including Jacques Derrida Poststructuralism and Ecological Philosophy Unrivalled international and multicultural scope with entries such as Modern Islamic Philosophy Marxist Thought in Latin America and Chinese Buddhist Thought An exhaustive index for ease of use Extensive cross referencing Suggestions for further reading at the end of each entry *In Between Subjects* Amelia Jones,2020-11-09 This volume is a study of the connected ideas of queer and gender performance or performativity over the past several decades providing an ambitious history and crucial examination of these concepts while questioning their very bases Addressing cultural forms from 1960s 70s sociology performance art and drag queen balls to more recent queer voguing performances by Pasifika and M ori people from New Zealand and pop culture television shows such as RuPaul s Drag Race the book traces how and why queer and performativity seem to belong together in so many discussions around identity popular modes of gender display and performance art Drawing on art history and performance studies but also on feminist queer and sexuality studies and postcolonial indigenous and critical race theoretical frameworks it seeks to denaturalize these assumptions by questioning the US centrism and white dominance of discourses around queer performance or performativity The book s narrative is deliberately recursive itself articulated in order performatively to demonstrate the specific valence and social context of each concept as it emerged but also the overlap and interrelation among the terms as they have come to co constitute one another in popular culture and in performance and visual arts theory history and practice Written from a hybrid art historical and performance studies point of view this will be essential reading for all those interested in art performance and gender as well as in queer and feminist theory **Understanding Badiou, Understanding Modernism** Arka Chattopadhyay,Arthur Rose,2024-05-16 In his philosophical project aesthetic orientation and political leanings Alain Badiou is a product of and a leading advocate for European modernism From the milieu of May 1968 to the contemporary postmodern ethos Badiou returns time and again to avant garde modernist texts aesthetic political philosophical and scientific as inspiration for his response to present situations Drawing upon disciplines as varied as
