often ends at the lectern but it has many beginnings within the traditional archaeological process Exploring how data is generated and interpreted by historical archaeologists it is at the intersection of dirt and discussion The cases presented in this volume revisit old methods and previous scholarly approaches with new perspectives along with incorporating the newest technologies available to understanding the past Rethinking the classics and engaging with new modes of data creation also generate fresh theoretical approaches Using their own work as examples the contributors explore the connections between methodology and interpretation Between Dirt and Discussion advocates recentering the materials that make archaeology archaeology in the hopes of reinvigorating dialogues about the historic past and archaeological contributions to its understanding *Odd Fellows' Magazine* ,1862 *Proceedings of the American Antiquarian Society* ,1905 The Quarterly Magazine of the Independent Order of Odd Fellows ,1862 *The official illustrated guide to the Great western railway* George Measom,1860
