## **Subliminal Politics Myths And Mythmakers In America:**

*Subliminal Politics* Dan D. Nimmo, James E. Combs, 1980-01-01      *Energy and American Society - Thirteen Myths* Benjamin K. Sovacool, Marilyn A. Brown, 2007-05-04 Current events related to energy policy skyrocketing gasoline prices the 2003 Northeast Blackout the Kyoto Protocol's enactment passage of the Energy Policy Act of 2005 and the influence of recent Gulf Coast hurricanes on energy supplies and prices demand innovative approaches towards conceptualizing the relationship between energy and American society This book takes on a central quandary in the study of energy and environmental policy What myths continue to exist in American culture concerning energy the environment and society It enrolls twenty four of the nation's top experts working on energy policy in industry government laboratories utilities nonprofit organizations and universities to debunk and contextualize thirteen energy myths relating to electric power renewable energy energy efficiency transportation and climate change While the book focuses on the American experience it will be of interest to those working in the fields of energy policy energy and the environment and technology assessment worldwide This is a brilliant bold and fascinating book that should be read by anybody even remotely concerned about energy the environment or the future of American society Art Rosenfeld Commissioner California Energy Commission and recipient of the 2006 Enrico Fermi Award This work is a must read for anyone interested in American energypolicy Kateri Callahan President Alliance to Save Energy By collecting the best minds to debunk the greatest of these myths Sovacool and Brown have brought us a step closer to finding a national energy policy based on common sense Chris Cooper Executive Director Network for New Energy Choices Sovacool and Brown provide a bold and imaginative way forward John A Skip Laitner Visiting Fellow and Senior Economist American Council for an Energy Efficient Economy      **Justice, Crime, and Ethics** Michael C. Braswell, Belinda R. McCarthy, Bernard J. McCarthy, 2010-04-07 The contributions in this book examine ethical dilemmas pertaining to the administration of criminal justice and professional activities in the field Comprehensive coverage is achieved through focus on law enforcement legal practice sentencing corrections research crime control policy and philosophical issues Overviews tie the chapters together with a thematic structure Key concepts discussion questions and case studies enhance the text      *Popular Cinema as Political Theory* J. Nelson, 2013-12-05 The book presents cinematic case studies in political realism versus political idealism demonstrating methods of viewing popular cinema as political theory The book appreciates political myth making in popular genres as especially practical and accessible theorizing about politics

*Political Consultants in U.S. Congressional Elections* Stephen K. Medvic, 2001 Campaign consultants are arguably now as famous in the United States as the politicians themselves During the past decade those who know the names Bill Clinton George Bush Newt Gingrich and Christine Todd Whitman also recognize the names James Carville Mary Matalin Frank Luntz and Ed Rollins Professional consultants once part of the privileged inner circle of presidential and gubernatorial candidates are increasingly found at all levels of politics Indeed more than half of congressional candidates hire campaign consultants

These professionals have become as important to a candidate's success as money. In this innovative study, Stephen K. Medvic explores all aspects of political consultancy and develops an empirically based theory that ensures the impact consultants have on elections. *Political Consultants in U.S. Congressional Elections* answers two simple questions: What do professional political consultants do, and how successful are they? Medvic analyzes the way consultants shape political dialogue and uses empirical data to show the benefits and limits of a consultant's involvement in a campaign. He focuses on issues as diverse as vote shares, outcomes, and fundraising. Finally, the author demonstrates how the adversarial nature of campaigns fosters the kind of electioneering advocated by most political consultants and argues that this process may not be as harmful for the country as is often suggested.

Dictionary of Media Literacy Ellen Eliceiri, Art Silverblatt, 1997-06-30 The *Dictionary of Media Literacy* is a reference work that contains key concepts, terms, organizations, issues, and individuals of note related to the field of media literacy. Media literacy is an international movement with many countries developing media literacy programs. This work significantly contributes to the study and understanding of this new and evolving field. In that we all live in a world in which we are inundated by information conveyed through the channels of mass communication, this dictionary will be a resource for scholars, students, and individuals seeking to understand information delivered in this context.

Perspectives on the Entangled History of Communism and Nazism Klas-Göran Karlsson, Johan Stenfeldt, Ulf Zander, 2015-07-15 The collective work deals with the problems of if, how, and why the histories of German Nazism and Soviet Communism should and could be situated within one coherent narrative. As historical phenomena, can Communism and Nazism fruitfully be compared to each other? Do they belong to the same historical contexts? Have they influenced, reacted to, or learned from each other? Are they interpreted, represented, and used together by posterity? The background of the book is twofold. One is external: There is an ongoing debate about the historical entanglements of Communism and Nazism, especially about Auschwitz and Gulag, respectively. Our present fascination with the evil history of genocide has situated the Holocaust as the borderline event in Western historical thinking. The crimes against humanity perpetrated by the Soviet Communist regime do not have the same position but are considered more urgent in the East and Central European states that were subdued by both Nazi and Communist regimes. The other internal background is to develop an analytical perspective in which the comnaz nexus can be understood. Using a complex approach, the authors investigate Communist and Nazi histories as entangled phenomena guided by three basic perspectives. Focusing on roots and developments, a genetic perspective highlights historical process-oriented connections. A structural perspective indicates an attempt to narrow down operational parallels of the two political systems in the way they handled ideology to construct social utopia, used techniques of terror, etc. A third perspective is genealogical, emphasizing the processing and use of Communist and Nazi history by posterity in terms of meaning and memory. What past is worth remembering, celebrating, debating, but also distorting and forgetting? The chapters of the book address phenomena such as ideology, terror, secular religion, museum exhibits, and denial.

*The United*

*States and the World* Andrzej Mania, Łukasz Wordliczek, 2010-01-15 The conference The United States and the World from Imitation to Challenge was meant to gather those interested in various aspects of the mutual connections between the United States and the world It concentrated on the problem of the model of American democracy the presidential system American politics American society American culture and the world's reflections about them from imitation to challenge For this there was an invitation to scholars from many research fields political science philosophy law culture studies economy and sociology It was a result of our vision of American Studies as an interdisciplinary effort And so thanks to the rich and diverse approaches of the participants our vision turned out to be true The effect of the conference is reflected in the contributions that follow in this volume and in the rich interdisciplinary debate over the American impact on the world integration in Pax Americana and patterns of integration in other parts of the world different and or similar approaches to challenges to international order and last but not least the issue of continuity and change in politics Here one also needs to mention the ever present debate on the American export of values separation of church and state human rights the idea of sovereignty the rule of separation of powers modern federalism democratization approaches Americanism American Studies dilemmas American exceptionalism uniqueness in contemporary American society and patterns in foreign policy **American**

**Mystery and Detective Novels** Larry Landrum, 1999-05-30 Mystery and detective novels are popular fictional genres within Western literature As such they provide a wealth of information about popular art and culture When the genre develops within various cultures it adopts and proceeds to dominate native expressions and imagery American mystery and detective novels appeared in the late nineteenth century This reference provides a selective guide to the important criticism of American mystery and detective novels and presents general features of the genre and its historical development over the past two centuries Critical approaches covered in the volume include story as game images myth criticism formalism and structuralism psychoanalysis Marxism and more Comparisons with related genres such as gothic suspense gangster and postmodern novels illustrate similarities and differences important to the understanding of the unique components of mystery and detective fiction The guide is divided into five major sections a brief history related genres criticism authors and reference This organization accounts for the literary history and types of novels stemming from the mystery and detective genre A chronology provides a helpful overview of the development and transformation of the genre **Public**

**Communication and Behavior** George Comstock, 2013-11-15 Public Communication and Behavior Volume I is devoted to the study of communicatory behavior that has a public or social character The book discusses an evaluation of the models used to evaluate television series a synthesis of 1043 effects of television on social behavior and TV news priming and public evaluations of the president The text also describes the myth of massive media impact savagings and salvaging and a technique for assessing the impact of mass media violence on real world aggressive behavior Psychologists sociologists educators journalists and people involved in the study of child development will find the book invaluable **A New**

**Beginning** Joanne Morreale, 1991-07-03 This book is a postmodern analysis of Ronald Reagan's 1984 film *A New Beginning* which marked the coming of age of the televisual political campaign film. The film was a landmark in the art of political filmmaking. Its thesis proclaimed a resurgence of American pride, patriotism, and prosperity under the leadership of Ronald Reagan. *A New Beginning* was unprecedented for a number of reasons: it replaced the traditional nominating speech for the candidate at the Republican National Convention; its form was a hybrid documentary and advertisement; it illustrated the use of televisual rebirth rhetoric to gain public support for a political ideology; and most importantly, the masterful project documented a shift from verbal to visual rhetoric in American presidential campaigning. The author examines the film as a cultural text and as an effective political tool. Framing, ideology, myth, and visual cliché are analytic tools used to deconstruct the film. The method combines rhetorical theory with communication theory and semiotically based theories of film and television. Morreale gives insight into the increasingly prevalent use of television to create a political reality. **Polpop**

James E. Combs, 1984 This book discusses various components of popular culture and the effects they have on politics. Some of the areas of mass culture which are discussed are popular dramas, folk heritage, the Western myth, sports, religion, media, propaganda, and show business. *Misreading the Bill of Rights* Kirby Goidel, Craig Freeman, Brian Smentkowski, 2015-03-30 The Bill of Rights, the first 10 amendments to the U.S. Constitution, are widely misunderstood by many Americans. This book explores the widely held myths about the Bill of Rights: how these myths originated, why they have persisted, and the implications for contemporary politics and policy. Interestingly, most Americans today, even professional political commentators, misinterpret or misunderstand what the Bill of Rights intended meaning and purposes were. Culturally ingrained myths about the Bill of Rights have helped to define what it means to be an American but also limited the range of political debate and justified unfair and unequal treatment of minorities. This book addresses the top ten myths regarding the Bill of Rights from the standpoint of public understanding and misunderstanding from a non-partisan, objective point of view, provoking independent thought and enabling readers to reach their own educated conclusions and opinions. Written by two experts in the fields of political science, public policy, media law, and civil liberties, the work explores the key role of modern news and entertainment media in contributing to public misunderstanding of individual rights and liberties. The authors also apply and interpret data from public opinion surveys to further examine public beliefs about the Bill of Rights and closely connect the analysis of misperceptions to existing political beliefs. *Phony Culture* James E. Combs, 1994 Questioning why Americans remain uneasy at the End of History, contends that we are blighted by the construction of a phony culture dominated by the value of the confidence man and demonstrates America's transformation into this culture of artifice where the practices of confidence tend to make everything and everybody into a phony. The author explores the various dimensions of American cultural phoniness, ranging over phony language, phony people, phony places, and things, phony events, phony deals, and phony politics. Paper edition, unseen. 18 95. Annotation copyright by Book News Inc, Portland, OR. All of the

People, All the Time Jarol B. Manheim, 1991 This book examines the uses and abuses of political communication in contemporary American society It is about the ways that governments politicians journalists and media organization terrorists special interests lobbyists and other manipulate words pictures and events and one another to get what they want about how and why that manipulation works and about its consequences for our democratic society Employing numerous anecdotes and examples and drawings upon the latest research and theories of communication and political science the book is light in tone and a delight to read Jacket     *The Worlds of Farscape* Sherry Ginn, Donald E. Palumbo, C.W. Sullivan III, 2013-08-03 Reversing a common science fiction cliché Farscape follows the adventures of the human astronaut John Crichton after he is shot through a wormhole into another part of the universe Here Crichton is the only human being going from being a member of the most intelligent species on our planet to being frequently considered mentally deficient by the beings he encounters in his new environment John Crichton befriends a group of beings from various species attempting to escape from imprisonment aboard a living spaceship The series which broke many of the so called rules of science fiction follows Crichton's attempts to survive in worlds that are often hostile to him and his friends Their adventures center on each being's attempt to find a way home The essays in this volume explore themes running throughout the series such as good and evil love and sex and what it means to be a hero as well as the various characters populating the series including the villains and even the ship itself     *Inside Political Campaigns* Gary A. Copeland, Karen S. Johnson-Cartee, 1997-04-22 As Dan Nimmo notes in his introduction Inside Political Campaigns endeavors to trace the sources of professional campaign wizardry by encapsulating the theories and concepts that practitioners and scholars alike claim to guide and rationalize consultants magical weaving of strategies tactics and techniques into a winning tapestry of political communication This study presents the theoretical areas political communication consultants draw upon in making strategic and tactical decisions in political campaigns And it provides an understanding of what motivates political consultants to choose a particular campaign strategy by explaining how various strategies work with the voting public While the book is research driven its academic findings are tempered and expanded by the authors personal political consulting experiences The text will be of interest to scholars students and practitioners alike in political communication advertising public opinion political science political rhetoric and campaigns and elections     **Do Elections Matter?** Benjamin Ginsberg, Alan Stone, 2020-12-17 Originally published in 1991 A collection of essays around the Soviet Union's breakdown with East Germany Hungary and other nations breaking away from its domination since World War II     *Hollywood's White House* Peter C. Rollins, John E. O'Connor, 2005-02-01 From action flicks to biopics to SNL skits how presidents are portrayed on screen An interesting study of the real presidency and the reel presidency USA Today Magazine Winner of the Popular Culture Association's Ray and Pat Browne Book Award Whether serious or satirical biographical or fictional the ways that US presidents are depicted in popular culture reveal much about us as a nation The contributors to Hollywood's White House examine the historical accuracy of presidential depictions

illuminate their influence and uncover how they reflect the concerns of their times and the social and political visions of the filmmakers With reflections on portrayals of Washington Adams Lincoln FDR Nixon and more this volume which includes a comprehensive filmography and a bibliography is ideal for both historians and film enthusiasts An engaging collection Robert Brent Toplin author of *Reel History In Defense of Hollywood*     *Political Communication Ethics* Robert E. Denton Jr., 2000-05-30 This essay collection examines ethical concerns related to the traditional areas of political communication including campaigns media discourse and advertising as well as new technologies including the Internet In total the collection provides one of the few volumes to examine political ethics from an academic perspective rather than from a moralistic or rule orientation Bruce Gronbeck provides an assessment of presidential campaigns arguing that ethical judgments of citizens are based on candidates actions and motives character and competence Ronald Lee explores the ethics of campaign discourse and he charts the relationship between presidential candidates projection of civic virtue and the political arrangements that dictate the course of the campaign itself Steven Goldzwig and Patricia Sullivan examine what happens to discourse when the divide between the haves and have nots translates into a local community disconnected from virtual politics The nature types and impact of the growing use of hate speech in contemporary politics is explored by Rita Whillock while Robert Denton investigates television as an instrument of governing and its impact on the nature of democracy Gary Woodward looks at the ethics of political journalism and Lynda Lee Kaid analyzes the ethical issues raised by political advertising in all forms Clifford Jones looks at the impact of campaign finance rules on campaign communication strategy Gary Selnow explores the ethics of politics on the Internet and Robert Denton concludes by examining the relationship between constitutional authority and public morality An important text for students as well as scholars investigating contemporary American politics
