Submarines In Color:

Imperial Japanese Navy Submarines 1941-45 Mark Stille, 2012-06-20 During World War II the Imperial Japanese Navy was at the forefront of submarine technology It fielded the largest pre nuclear submarines in the world some capable of carrying floatplane bombers which operated alongside fast combat vessels and midget submarines all equipped with the best torpedoes available The Japanese submarine fleet should have been an awe inspiring force but despite playing a crucial scouting role and enjoying several notable successes it was surprisingly ineffective Using unique color plates Mark Stille describes the astounding technical advances of this range of vessels and the wartime tactics responsible for their failure

The Silent Service in World War II, 2006-02-21 Originally published by the U S Navy in 1946 The Fleet Type Submarine uses the USS Perch SS313 to explain operating principles technologies and systems It contains numerous diagrams and photos and offers definitions of components and terminology It provides descriptions of various systems such as ballast tanks trim ventilation and steering It also contains a brief history of the submarine and a discussion of patrol routines This is the most complete technical guide to the boats that won WWII in the Pacific Nothing close to it was ever assembled before or since Periscopefilm com s affordable reprint comes in a soft bound edition with attractive covers Although some of the book has been reformatted and color images are reproduced in black and white all of the original content is preserved A color supplement is also available This is a must have for anyone interested in submarines and an important reference for any historian docent or modeler **Submarines in Colour** Bill Gunston, 1976 Shift Colors, 1995
