Submarines of the Tsarist Navy I. D. Spassky, V. P. Semyonov, Norman Polmar, 1998 Straight from the Russian State Naval Archives the Central Design Bureau for Marine Engineering Rubin and private collections these images take the reader to the shipyards ports and icy Baltic and Black Sea waters of tsarist Russia to reveal the world's largest submarine fleet prior to World War I They show the submarines under construction being launched on trials being armed and provisioned and later being abandoned *Naval History*, 1997

Manual Ron Martini, 2005 Submariners are a tight knit group of men bound together by training and experience and with a language all their own That language is perhaps a little vulgar but never intentionally demeaning and a little irreverent but still worldly This work is an attempt to preserve and explain some of these curious guys who so proudly wear a shiny metal pin that looks like a strange pair of fish on their left breast This process of accumulating this new language begins in Boot Camp and is added to with every change of duty station the sailor undergoes It is heard aboard the boats and unknowingly by family members who can't understand terms like head deck and overhead and who think SOS is a distress signal Subject

Naval History of World War I Paul G Halpern, 2012-04-15 There have been a number of studies published on the activities of British and German navies during World War I but little on naval action in other arenas This book offers for the first time a balanced history of the naval war as a whole viewed from the perspective of all participants in all major theaters The author's earlier examination *The Naval War in the Mediterranean 1914-1918* centered on submarine activities and allied efforts to counteract this new menace With this welcome sequel he again takes the reader beyond those World War I operations staged on the North Sea Halpern's clear and authoritative voice lends a cohesiveness to this encompassing view of the Italians and Austrians in the Adriatic the Russians Germans and Turks in the Baltic and Black Seas and French and British in the Mediterranean Important riverine engagements notably on the Danube also are included along with major colonial campaigns such as Mesopotamia and the Dardanelles The role of neutral sea powers such as the Swedes in the Baltic and the Dutch in the East Indies is examined from the perspective of how their neutrality affected naval activity Also discussed is the

part played by the U S Navy and the often overlooked but far from negligible role of the Japanese navy The latter is viewed in the context of the opening months of the war and in the Mediterranean during the height of the submarine crisis of 1917
