Billy, Harry Ziegler, 2020-02-24 The ingenious people of the Garden State were instrumental in the early development of the submarine The first American submarine sank off Fort Lee in 1776 and the first successful one adopted by the U S Navy was invented by Paterson s John Holland at the end of the nineteenth century Those early vessels were tested in the Passaic River and on the Jersey City waterfront Today the only surviving Union Civil War submarine built in Newark sits in the National Guard Militia Museum in Sea Girt In 1918 the technology pioneered there was turned against the Jersey Shore when U 151 went on a one day ship sinking rampage A World War II U boat offensive torpedoed numerous ships off the coast leaving oil soaked beaches strewn with wreckage Authors Joseph G Bilby and Harry Ziegler reveal the remarkable history of submarines off the New Jersey coastline      **Secrets of a Civil War Submarine** Sally M. Walker, 2005-01-01 On February 17 1864 the H L Hunley made history as the first submarine to sink a

ship in battle Soldiers on the shore waited patiently after seeing the submarine's return signal But after several days the ship had failed to return What had gone wrong In 1995 after over 130 years of searching the H L Hunley was finally found buried off the coast of South Carolina Follow author Sally M Walker on a fascinating journey through the workings of the famous submarine its voyages and the difficult obstacles that were overcome to recover excavate and conserve the ship *The Men* Stephen Leal Jackson, 2010 Submarine duty during World War II was one of the most statistically deadly physically demanding and emotionally challenging assignments in the U S Navy The boats had few crew comforts and war patrols typically thirty to sixty days in length were so exhausting that the submarine sailors often got a month of rest after each patrol What would motivate men to volunteer for this unmistakably difficult and dangerous job This is the question that *The Men* will answer using the oral histories of enlisted submarine veterans a collection of letters of one sailor who did not return and other primary sources These volunteers from diverse locales and backgrounds ignored the danger accepted the privations and exalted in the camaraderie Their excitement fear and humble heroism is captured in their own words the real story of the undersea war in the Pacific told by the men who fought it A veteran of the United States Navy Stephen Leal Jackson spent eight years in the submarine force serving on the USS Los Angeles SSN 688 and the USS Florida SSBN 728 Jackson's service included several Western Pacific cruises to the oceans lands and ports described in *The Men* A lifelong student of American history Jackson's ongoing research concentrates specifically on World Wars I and II Jackson received his Master of Arts in American History from Providence College and is currently in the Ph D program at Salve Regina University Jackson has served as the primary spokesperson for a major electrical utility on nuclear and environmental issues His unique perspective as a onetime navy enlisted submariner trained historian and skilled communicator allows Jackson to provide clear and easy access to the fascinating experiences of the men who fought the undersea battles during World War II

Submarine Warfare In The Civil War Mark Ragan, 2009-04-30 Many people have heard of the Hunley the experimental Confederate submarine that sank the USS Housatonic in a daring nighttime operation Less well known however is that the Hunley was not alone under the waters of America during the Civil War Both the Union and Confederacy built a wide and incredible array of vessels that could maneuver underwater and many were put to use patrolling enemy waters In *Submarine Warfare in the Civil War* Mark Ragan who spent years mining factory records and log books brings this little known history to the surface The hardcover edition *Union and Confederate Submarine Warfare in the Civil War* was published to wide acclaim in 1999 For this new paperback edition Ragan has revised and updated the text to include the full story of the Hunley's recovery and restoration *Co-operative Bulletin* Brooklyn Public Library, 1916 **Speed Up**, 1919 *The Submariner's Dictionary Or Submariner's Compendium of Terms & Tar's Handbook of Naval Verbiage and Retired Guy's Re-familiarization Manual* Ron Martini, 2005 Submariners are a tight knit group of men bound together by training and experience and with a language all their own That language is perhaps a little vulgar but never intentionally demeaning and a little irreverent but

still worldly This work is an attempt to preserve and explain some of these curious guys who so proudly wear a shiny metal pin that looks like a strange pair of fish on their left breast This process of accumulating this new language begins in Boot Camp and is added to with every change of duty station the sailor undergoes It is heard aboard the boats and unknowingly by family members who can't understand terms like head deck and overhead and who think SOS is a distress signal

**Readers' Guide to Periodical Literature**, 1917      **The Submarine Pioneers** Richard Compton-Hall, 2003 This witty and perceptive account of the early years of submarine development contains much new material and the lives of the forgotten pioneers of submarines It includes many wonderful inventions and even more colourful inventors but focuses primarily on John Philip Holland the Irish American genius who took submarine development out of the hands of lunatics and visionaries and turned it into a deadly weapon of war      **The Wonder Book of Knowledge** Henry Chase Hill, 1917
