Redemption Nicholas Roumas,2025-08-05 A bold trailblazing investigation into soteriology approached by way of Girardian mimetic theory and Eastern Orthodox theological reflection *Redemption A Mimetic Soteriology* brings French literary critic Ren Girard s mimetic theory of human behavior together with a breadth of Christian approaches to redemption through the Cross Girard s mimetic understanding of sacrifice is drawn upon to illuminate biblical narratives about redemption as well as the theologies of Anselm of Canterbury Peter Abelard and Gregory of Nyssa Nicholas Roumas shows by these readings that redemption can be understood as a reconfiguration of symbolic values with profound consequences for human relations and social organization *Redemption* thus serves theologians as a basis for a new practical dogmatics This exploration is a breath of fresh air in Orthodox theology utilizing patristic and scriptural sources outside the framework of the predominant neo Patristic synthesis and introducing an entirely new modern paradigm onto the Orthodox scene For theologians of other traditions *Redemption* contributes to the library of Girardian theologies its first Eastern Orthodox installment For Girardians it provides critique and refinement of many of Girard s most nuanced views and gives due attention to overlooked and controversial aspects of his thought For the lay reader the book provides an accessible entry into the spirituality of the Cross through a lens that is both modern and traditional *Redemption* provides a revitalizing infusion into contemporary Orthodox theological discourse Its ideas will impact theology in the Orthodox Church and beyond for decades to come and are the basis for a paradigm shift in our understanding of redemption and its practical consequences The lay reader and professional theologian alike will find novelty and utility in its ideas

The Urgings of Conscience Jacob Adler, 2010-06-30 While most philosophers who write about punishment ask Why may we punish the guilty Jacob Adler asks To what extent does a guilty person have a duty to submit to punishment He maintains that if we are to justify any system of punishment by the state we must explain why persons guilty of an offense are morally bound to submit to punitive treatment or to undertake it on their own Using Rawls's theory of social contract as a framework the author presents what he calls the rectification theory of punishment After examining punishment from two points of view that of the punisher and that of the offender who is to be punished Adler proposes the Paradigm of the Conscientious Punishee a repentant wrongdoer who views punishment as not necessarily unpleasant but as something it is morally incumbent upon one to undertake The author argues that this paradigm must play a central role in the theory of punishment Citing community service projects and penances for sin as required by some religions Adler argues that punishment need not involve pain or any other disvalue Instead he defines it in terms of its justificatory connection with wrongdoing punishment is that which is justified by the prior commission of an offense and generally not justified without the prior commission of an offense The rectification theory applies particularly to offenses involving basic liberties It is based on the assumption that each person is guaranteed the right to an inviolable sphere of liberty Someone who commits an offense has expanded his or her sphere by arrogating excess liberties In order to maintain the equality on which this theory rests an equivalent body of liberties must be given up In discussing applications of the theory Adler demonstrates that active service as punishment is more effective in safeguarding important rights and interests and maintaining the social contract than is afflictive punishment

Gemini and the Sacred Kimberley C. Patton, 2022-10-06 Why do twins remain uncanny to those born alone In other words most of us Even with the rise of IVF and an increase in multiple births why do we still do a double take when we encounter twins Why has this been a near universal response throughout human history and how has it played out in religion and myth Through the work of leading scholars in religion folklore and mythology history anthropology and archaeology *Gemini and the Sacred* explores how twinship has long been imagined especially in the complex relationship of sacred twin traditions to twins on the ground in biology and lived experience The book considers the multiple ways in which the doubling of a human being may be interpreted as auspicious and powerful or suppressed as unstable and dangerous Why has this been

so and how does it affect living twins today Treating both famous and lesser known twins including supernatural animal twins in the ancient Near Eastern and classical Mediterranean worlds early Christianity and Gnosticism Vedic Hindu West African Black Atlantic and native American traditions ancient Mesoamerica Celtic Roman Britain and Scandinavia and in the special fraught bond shared by all twins the book offers a variety of perspectives on this topic of great cultural significance

Cold Cases James M. Adcock, Sarah L. Stein, 2017-05-22 Nearly 185 000 homicides since 1980 remain unsolved yet with limited staff and resources it is no surprise that law enforcement units place the bulk of their efforts on current cases where victims family members and the media demand answers Cold Cases An Evaluation Model with Follow up Strategies for Investigators provides a comprehensive roadmap for digging those cold cases out of the file room and getting them resolved Practical and concise the book is an invaluable tool for police officers and detectives attempting to solve crimes that would otherwise be forgotten Evaluating the Case Divided into three sections the book begins with a historical perspective on how cases get to the point where it appears all investigative leads have been exhausted It includes a chapter on understanding the process of homicide and those who kill critical information for the homicide investigator Next

the authors explain the evaluation model They demonstrate the key elements of organization thoroughness and the value of the scientific method This section validates theories of the crime raises evidentiary issues and concerns addresses the informational and behavioral aspects relative to the crime and the participants in the crime and documents investigative strategies for future efforts on the case Investigating and Solving the Crime The third section discusses the investigation that follows the evaluation The book considers questions investigators must ask including what should be looked at beyond the case file itself and how the growth in technology since the date of the incident might provide new opportunities to uncover clues This section also explores the choice of interview interrogation techniques based on the behavioral aspects involved Finally the authors suggest how investigators can maximize their efforts and obtain not just an arrest but a conviction Useful appendices include sample standard operating procedures from three different agencies to use as a guide for setting up a cold case unit and a list of additional resources a department may look to for assistance By following the cold cases evaluation model in this volume those charged with resolving long forgotten crimes can increase their chance of an accurate resolution or at least be able to say that everything that can be done has been done *Vengeance in Reverse* Mark R.

Anspach,2017-06-01 How do humans stop fighting Where do the gods of myth come from What does it mean to go mad Mark R Anspach tackles these and other conundrums as he draws on ethnography literature psychotherapy and the theory of Ren Girard to explore some of the fundamental mechanisms of human interaction Likening gift exchange to vengeance in reverse the first part of the book outlines a fresh approach to reciprocity while the second part traces the emergence of transcendence in collective myths and individual delusions From the peacemaking rituals of prestate societies to the paradoxical structure of consciousness Anspach takes the reader on an intellectual journey that begins with the problem of how to deceive violence and ends with the riddle of how one can deceive oneself **Defensive Killing** Helen

Frowe,2014-10-23 Most people believe that it is sometimes morally permissible for a person to use force to defend herself or others against harm In *Defensive Killing* Helen Frowe offers a detailed exploration of when and why the use of such force is permissible She begins by considering the use of force between individuals investigating both the circumstances under which an attacker forfeits her right not to be harmed and the distinct question of when it is all things considered permissible to use force against an attacker Frowe then extends this enquiry to war defending the view that we should judge the ethics of killing in war by the moral rules that govern killing between individuals She argues that this requires us to significantly revise our understanding of the moral status of non combatants in war Non combatants who intentionally contribute to an unjust war forfeit their rights not to be harmed such that they are morally liable to attack by combatants fighting a just war *Studies in the History Of Religions* , *Settling Accounts* John Borneman,1997-11-23 Drawing from ethnographic work in the former East Germany and with select comparisons to other East Central European states author John Borneman looks at how former East bloc states are dealing with their criminal past He maintains that to create a less violent world democratic

regimes should require accountability and hold leaders responsible for acts of criminality and moral injustices **Victims**

Still Robert Elias, 1993-04-19 The 1980s saw official crime policy in the United States shifting its focus from crime and criminals to victimization and victims In this thought provoking book Robert Elias evaluates the effectiveness of this shift in policy and argues that victims have been politically manipulated for official objectives From a thorough examination of victim legislation get tough crime policies media crime coverage the victim movement and the wars on crime and drugs Elias concludes that little victim support has actually occurred and that victimization is in fact escalating He argues for a change in the structural sources of crime and proposes a new culture that could lead to substantially less crime **A New Divinity**

The Moral Governmental Theory of Atonement Obbie Tyler Todd,2021-03-16 The American moral governmental theory of the atonement MGT was arguably the most contextualized doctrine of atonement in the history of the Protestant tradition Hewn from the theology of Jonathan Edwards and engineered to address the theological political philosophical moral and even economic milieu in the early republic MGT became the doctrinal centerpiece of the first indigenous American school of Calvinism As a result it stands as a kind of theological time capsule to the people and principles that shaped the tumultuous period between the first Great Awakening and the Civil War when it flourished in America For over a century in the Anglo American world the doctrine of atonement was under heavy construction in the broader Reformed community By endowing new meaning to old theological terms like imputation substitution justice punishment and even atonement MGT represents a theological watermark of sorts in Reformed dogmatics defining its limits testing its boundaries and demanding a level of precision from today s theologians This book offers a contextualization distillation and conversation with this Edwardsean doctrine of atonement [Dionysus, Christ, and the Death of God, Volume 1](#) Giuseppe Fornari,2020-09-01 This magisterial reflection on the history and destiny of the West compares Greco Roman civilization and the Judeo Christian tradition in order to understand what both unites and divides them Mediation understood as a collective symbolic experience gives society unity and meaning putting human beings in contact with a universal object known as the world or reality But unity has a price the very force that enables peaceful coexistence also makes us prone to conflict As a result in order to find a common point of convergence of at one ment someone must be sacrificed Sacrifice then is the historical pillar of mediation It was endorsed in a cosmic religious sense in antiquity and rejected for ethical reasons in modernity where the Judeo Christian tradition plays an intermediate role in condemning sacrificial violence as such while accepting sacrifice as a voluntary act offered to save other human beings Today as we face the collapse of all shared mediations this intermediating solution offers a way out of our moral and cultural plight
