Wahid,2015-04-15 What do Buddhism and Islam have in common And what positive characteristics might Buddhist Japan and Muslim Indonesia be able to offer one another In this thoughtful and wide ranging discussion which draws on creative artists and thinkers as diverse as Beethoven Goethe Tolstoy Thomas Jefferson and Akira Kurosawa distinguished representatives from each country demonstrate that meaningful dialogue between religions and cultures begins with a one to one conversation between individuals Addressing the similarities of their nations as island peoples with a shared history of trade and cultural exchange Abdurrahman Wahid and Daisaku Ikeda agree that the aim of dialogue like that of Buddhism and Islam alike is fundamentally the goal of peace A pivotal moment in the conversation comes when reference is made to the Indonesian story of the Bamboo Princess from the Chronicle of the Kings of Pasai this is seen to bear close resemblance to the Japanese Taketori Monogatari or Tale of the Bamboo Cutter Such narrative interrelationship which can be discerned even in the midst of religious and cultural distinctiveness emerges as a powerful symbol of the common humanity not just of Indonesia and Japan but of all cultures Both thinkers continue to draw on their respective traditions on their personal experiences of war and adversity and especially on the lives of the Buddha and the Prophet Mohammed to show that harmony springs from an attitude of tolerance and nonviolence which is where true courage resides Whether masterfully expounding the teachings of Nichiren or indicating that a proper understanding of jihad is not about religious conflict but about communicating the truth of Allah the discussants mutually transform our understandings of value pluralism and amity

Hospitality and the Other Author, Amos Yong, 2015-03-04 *Religion, Conflict, and Democracy in Modern Africa* Samuel K. Elolia, 2012-03-02 Spanning various regions of Sub Saharan Africa the authors of this volume come together to explore the complex relationship between religion and democracy in contemporary Africa As a result of the end of the Cold War and the fall of the Soviet Union many African countries have come to the realization however partial that political and social change is inevitable in spite of government heavy handedness and threats It has also become evident that no political system that refuses to permit freedom of political expression and alternative systems of governance could continue to be sustained It is in precisely this political climate that religious institutions have collaborated with other elements of civil

society to call for political reforms with the church often becoming the prominent voice against oppressive governments in countries such as Kenya and South Africa It is the purpose of this book to assess how religion shapes political issues and to what extent religious forces influence the civil society By acknowledging the role of the civil society the essays recognize the resilience that comes out of Africa even when the sociopolitical situation seems unbearable *John Howard Yoder* J Denny Weaver, 2015-03-26 John Howard Yoder Radical Theologian shows that for John Howard Yoder both theology in particular Christology and ethics are expressions of the meaning of the narrative of Jesus All such statements are relative to a particular context so that theology and ethics are subject to reaching back to the narrative in order to restate the meaning in new and ever changing contexts This methodology is visible in Yoder's Preface to Theology which has been little used in most treatments of Yoder's thought Yoder has been characterised as standing on Nicene orthodoxy criticised for rejecting Nicene orthodoxy called heterodox and designated a postmodern thinker to be interpreted in terms of other such thinkers None of these characterisations adequately locates the basis of his methodology in the narrative of Jesus Thus John Howard Yoder Radical Theologian aims to go beyond or to supersede existing treatments with its demonstration that Yoder is a radical theologian in the historical meaning of radical that is as one who returns to the root but also relates his theology to the personal accusations that clouded his later years For Christian faith this root is Christ Parts II and III of the book explore the sources of Yoder's approach and its application in several contemporary contexts **Pacifism's Appeal** Jorg Kustermans, Tom Sauer, Dominiek Lootens, Barbara Segaert, 2019-03-13 This volume examines the possibility or need of a revitalization of pacifism as a world political practice It takes as its point of departure the observation that although just war thinking has long been dominant in Western debates about war and peace recent events have served to temper enthusiasm about the doctrine Pacifism has been much less prominent a stance in recent decades but there is the impression that it may be staging a return Just war thinking has to a large extent failed Outright bellicism remains as undesirable as ever Pacifism presents itself again as a possible alternative Once upon a time the peace movement was popular and pacifism with it Pacifism appealed to people It stirred hearts and minds It inspired political action and institutional designs This volume examines whether pacifism can claim its ground again and how it should be redefined in light of today's world political circumstances **Standing on an Isthmus** Ayse S. Kadayifci, 2007-01-01 Standing on an Isthmus examines how religious beliefs commitments and traditions shape social action such as promoting either violent or peaceful behavior by analyzing different Islamic interpretations of war and peace in Palestine and seeks to answer the question What is the best strategy to empower those groups and individuals that support a nonviolent Islamic approach to actively pursue a just peace for all parties involved
