*The Succession to Muhammad* Wilferd Madelung, 1996-08-29 In a comprehensive study of early Islamic history Wilferd Madelung examines the conflict which developed after Muhammad's death for the leadership of the Muslim community. He pursues the history of this conflict through the reign of the four Rightly Guided caliphs to its climax in the first inter-Muslim war. The outcome of the war which marked the demise of the reign of the Early Companions resulted in the lasting schism between Sunnite and Shi'ite Islam. Contrary to recent scholarly trends the author brings out Ali's early claim to legitimate succession which gained support from the Shi'a and offers a convincing reinterpretation of early Islamic history. This book will make a major contribution to the debate over succession. Wilferd Madelung's book *The Succession to Muhammad* has been awarded the Best Book of the Year prize by the Islamic Republic of Iran for the year 1997. *The Succession to Muhammad*

Title After the death of the Prophet Muhammad different religious factions within the Muslim community laid claim to the Prophet's legacy Drawing on research from Sunni and Shi'ite literature Liyakat N Takim explores how these various groups including the caliphs scholars Sufi holy men and the Shi'ite imams and their disciples competed to be the Prophetic heirs The book also illustrates how the tradition of the heirs of the Prophet was often a polemical tool used by its bearers to demand obedience and loyalty from the Muslim community by imposing an authoritative rendition of texts beliefs and religious practices Those who did not obey were marginalized and demonized While examining the competition for Muhammad's charismatic authority Takim investigates the Shi'ite self understanding of authority and argues that this was an important factor in the formation of a distinct Shi'ite leadership The Heirs of the Prophet also provides a new understanding of textual authority in Islam by examining authority construction and the struggle for legitimacy evidenced in Islamic biographical dictionaries

**Muhammad's Military Expeditions** Ayman S.

Ibrahim,2024 The Arabic Muslim literature on Muhammad s maghazi is bountiful Since this book focuses on Muhammad s maghazi a survey of this literature is important not only to establish the centrality of the topic in Islamic thought but also to relay the uniqueness and contribution of this book To that end in this chapter I will first explore that which classical Muslim narrators wrote on Muhammad s maghazi and the ways they used the accounts to reflect Allah s support for Muhammad and the believers In the second section I will examine discussions by modern and contemporary Muslims relaying how they interpret the accounts of the maghazi In particular I will discuss their articulation of the motivations and results of Muhammad s military campaigns The first two sections of this chapter will thus establish the centrality of the maghazi as a literary genre as well as its importance among Muslims past and present In the third section I take the discussion to non Muslim scholarship I explore briefly early views on Muhammad and his career by non Muslims before I focus on works and arguments of key Western scholars from the nineteenth century until our present day **Caliphate** Hugh

Kennedy,2016-10-11 From a preeminent scholar of Islamic history the authoritative history of caliphates from their beginnings in the 7th century to the modern day In Caliphate Islamic historian Hugh Kennedy dissects the idea of the caliphate and its history and explores how it became used and abused today Contrary to popular belief there is no one enduring definition of a caliph rather the idea of the caliph has been the subject of constant debate and transformation over time Kennedy offers a grand history of the caliphate since the beginning of Islam to its modern incarnations Originating in the tumultuous years following the death of the Mohammad in 632 the caliphate a politico religious system flourished in the great days of the Umayyads of Damascus and the Abbasids of Baghdad From the seventh century Orthodox caliphs to the nineteenth century Ottomans Kennedy explores the tolerant rule of Umar recounts the traumatic murder of the caliph Uthman dubbed a tyrant by many and revels in the flourishing arts of the golden eras of Abbasid Baghdad and Moorish Andaluc Kennedy also examines the modern fate of the caliphate unraveling the British political schemes to spur dissent against the Ottomans and the ominous efforts of Islamists including ISIS to reinvent the history of the caliphate for their own malevolent political ends In exploring and explaining the great variety of caliphs who have ruled throughout the ages Kennedy challenges the very narrow views of the caliphate propagated by extremist groups today An authoritative new account of the dynasties of Arab leaders throughout the Islamic Golden Age Caliphate traces the history and misappropriations of one of the world s most potent political ideas **The Prophet's Heir** Hassan Abbas,2021-02-23 The

life and legacy of one of Mohammad s closest confidants and Islam s patron saint Ali ibn Abi Talib Ali ibn Abi Talib is arguably the single most important spiritual and intellectual authority in Islam after prophet Mohammad Through his teachings and leadership as fourth caliph Ali nourished Islam But Muslims are divided on whether he was supposed to be Mohammad s political successor and he continues to be a polarizing figure in Islamic history Hassan Abbas provides a nuanced compelling portrait of this towering yet divisive figure and the origins of sectarian division within Islam Abbas

reveals how after Mohammad Ali assumed the spiritual mantle of Islam to spearhead the movement that the prophet had led. While Ali's teachings about wisdom, justice, and selflessness continue to be cherished by both Shia and Sunni Muslims, his pluralist ideas have been buried under sectarian agendas and power politics. Today Abbas argues Ali's legacy and message stands against that of ISIS, Al Qaeda, and Taliban. Islam Jacques Waardenburg, 2008-08-22. This book presents some twenty essays on different aspects of Islam in history and the present. These essays are grouped into eight larger sections. The first, 'The Beginnings', deals with the transition from pre-Islamic understandings and reason, an essential part of the Quranic message. The next two sections deal with Islam specifically as a religion with its particular signs and symbols. The question of rules of interpretation in Islam and its structural features is discussed here. Sections four and five deal with ethics in Islam, including Muslim identity and human rights, and certain social functions of Islam. Section six introduces some 19th and 20th century reform movements, with special attention given to developments in Saudi Arabia and the puritan characteristics of present-day Islamic revival movements. The final two sections discuss contemporary issues: Islamization processes and policies, Islamic ideologies, the ideologization of Islam, and the political uses of religion. Throughout the book, the author shows the links between the religious and other interpretations and uses made of Islam and the contexts in which they are made. The Introduction signals some important developments in Islamic studies since World War II. Ascetic Culture, 2021-12-06. The collection of papers in *Ascetic Culture: Renunciation and Worldly Engagement* was entirely conceived and developed by K. Ishwaran, who died in June 1998. The original concept was to focus on Tradition and Innovation in Monastic Life in South Asia, a topic which combined two of Ishwaran's major interests: comparative studies of the monastic systems of South Asia and criticism of Western anthropological and sociological assumptions of tradition and modernity being antithetical, especially with regard to traditional religions. Ishwaran saw this collection of papers as reinforcing the demise of universalistic projects, all encompassing grand master narratives, and similar globally integrative theoretical or empirical enterprises in social discourse flowing from the post-structural and post-modernist revolutions in the social sciences. Later he conceived of broadening this topic to be more liberally comparative, to include major religious traditions around the world. The new title was to be *Tradition and Modernity in Monastic Orders in Contemporary Societies*. Finally, he broadened the theme to the present title of his collection. Taken together, the articles appearing in this book strongly support Ishwaran's theses. First is the obvious point that eremitism and asceticism are far more complex than commonly understood in the scholarly world. If ever a general understanding of these interrelated phenomena is developed, careful examination not only how they are found in these cultures and traditions, but also study of their particular manifestations in individual movements, places, cultures, social groups, etc., must take place. The second thesis is clearly established by the range of these papers: ascetic traditions are not only inimical to modernity; they may be found at the heart of certain contemporary social and cultural developments. K. Ishwaran has rendered the study of religion in particular and the social sciences in general an important service with this
