Sunlight And Shadow The Life And Art Of Willard L Metcalf:

Sunlight and Shadow Elizabeth De Veer, Richard J. Boyle, 1987 **American Impressionism & Realism** Helene Barbara Weinberg, Queensland Art Gallery, 2009 An exhibition publication featuring curatorial essays and works from the Metropolitan Museum of Art New York Art and the Higher Life Kathleen Pyne, 2010-07-22 Late in the nineteenth century many Americans were troubled by the theories of Charles Darwin which contradicted both traditional Christian teachings and the idea of human supremacy over nature and by an influx of foreign immigrants who challenged the supremacy of the old Anglo Saxon elite In response many people drew comfort from the theories of philosopher Herbert Spencer who held that human society inevitably develops towards higher and more spiritual forms In this illuminating study Kathleen Pyne explores how Spencer's theories influenced a generation of American artists She shows how the painters of the 1880s and 1890s particularly John La Farge James McNeill Whistler Thomas Dewing and the Boston school and the impressionist painters of the Ten developed an art dedicated to social refinement and spiritual ideals and to defending the Anglo Saxon elite of which they were members This linking of visual culture to the problematic conditions of American life radically reinterprets the most important trends in late nineteenth century American painting *Visions of Belonging* Julia B. Rosenbaum, 2006 In the late nineteenth and early twentieth centuries depictions of New England flooded the American art scene Childe Hassam Willard Metcalf Theodore Robinson and Julian Weir and other well known artists produced images of quaint villages agricultural labor scenic rural churches and the distinctive New England landscape Julia B Rosenbaum asks why and how a range of artists including Impressionist and Modernist painters and sculptors and exhibitors fashioned this particular vision of New England in their work Against the backdrop of industrialization immigration and persistent post Civil War sectionalism many Americans yearned for national unity and identity As Rosenbaum finds New England emerged as symbolic of cultural and spiritual achievement and democratic values that served as an example for the nation By addressing the struggles for national unity the book offers a new interpretation of turn of the century American art Ultimately *Visions of Belonging* demonstrates how the local became so important to the national how art was crucial to the formation of national identity and how internal nation building takes place within the realm of culture as well as politics And even as later artists such as Georgia O Keeffe challenged New England's cultural hegemony the appeal of linking regional identity to national ideals continued in distinctive ways Beautifully illustrated with color plates and almost sixty halftones *Visions of Belonging* explores the interplay between art objects and the shaping of loyalties and identities in a formative phase of American culture It will appeal not only to art historians but also to anyone with an interest in nineteenth century studies the Gilded Age and Progressive Era American studies New England history and culture and American cultural and intellectual history Telfair Museum of Art Telfair Museum of Art, 2005-01-01 The fascinating history of the Telfair featuring 114 representative pieces of fine and decorative art from its vast collection all superbly reproduced and thoroughly annotated

Masters of Light Jennifer A. Bailey, Kevin Sharp, Lucinda H. Gedeon, 2006 Americans were introduced to Impressionism by the French in the 1880s They explored its expressive potential and debated its merits in the 1890s and by the turn of the 20th century American painters had seized the style for their own Included here are thirty superb examples of American Impressionist painting by the seminal artists who redefined the movement for American audiences including Frank W. Benson Mary Cassatt William Merritt Chase Childe Hassam John Singer Sargent John Henry Twachtman and others An essay by Kevin Sharp examines the unintentional circumstances and deliberate efforts that transformed Impressionism from an expression of the French vanguard into an international style and eventually into a peculiarly American enterprise
