A Biblical Theology of Gerassapience Joel A. A. Ajayi, 2010 Ancient cultures such as that of the Hebrews commonly associated wisdom with advanced years In *A Biblical Theology of Gerassapience* the author investigates the validity of this correlation through an eclectic approach including linguistic semantic tradition historical and socio anthropological methods to pertinent biblical and extra biblical texts There are significant variations in the estimation of gerassapience or old age wisdom in each period of ancient Israel's life that is in pre monarchical monarchical and post monarchical Israel Throughout this study appropriate cross cultural parallels are drawn from the cultures of ancient Israel's neighbors and of modern societies such as the West African Yoruba tribe The overall results are bi dimensional On the one hand there are semantic elements of gerassapience such as the elusiveness of wisdom and the mild fluidity of old age Both terms have strong contextual affinity with minimal exceptions Thus the attribution of wisdom to old age is evident but not absolute in the Hebrew Bible Old Testament On the other hand gerassapience is depicted as primarily didactic through direct and indirect instructions and counsels of the elderly fostering the saging fear of Yahweh legacies On the whole socio anthropocentric tendencies of gerassapience that is of making old age a repertoire of wisdom are checked by theological warrants of theosapience Yahwistic wisdom Therefore in the Hebrew Bible the fear of Yahweh is also the beginning of growing old and wise

Constructing and Deconstructing Power in Psalms 107-150 W. Dennis Tucker Jr., 2014-07-01 Essential research on the relationship between the Persian empire and the the formation of the book of Psalms In this latest entry in the Ancient Israel and Its Literature series W Dennis Tucker Jr examines the role of Persian imperial ideology in the creation of psalms in Book 5 of the Psalter and in the shaping of the book of Psalms as a whole Although much research has been conducted on the relationship between the Persian empire and the creation of biblical texts the book of Psalms has been largely absent from this discussion Tucker seeks to rectify this omission by illustrating that Book 5 constructed a subtle anti imperial ideology in response to the threats imposed from all empires both past and present Features Close study of the psalms portrayal of human power to that of Yahweh Comparison of Achaemenid propaganda to the ideology found in the psalms Evidence drawn from Persian iconography and inscriptions

Ancient Israel Niels Peter Lemche, 2015-11-19 When this provocative text was first published Lemche presented a new model of how we should understand Israelite society its history and its religion Lemche argues first that Israel was the result of a social development among the Canaanite population of Palestine in the second half of the second millennium BCE This implies that Israelite religion was originally Canaanite and that what we think of as typically Jewish religion did not arise until c 500 BCE Lemche s radical reassessment of Israelite history is based on the conviction that the Old Testament contains hardly any historical sources older than the seventh century BCE The early history of Israel must therefore be reconstructed from archaeological results and non biblical evidence not from the Old Testament In this new edition Lemche provides an extensive new introduction and bibliography considering how the field has developed since the work first appeared

Eve: Accused or Acquitted? Joseph Abraham, 2007-01-01 Feminist interpretation has become one of the important text centered literary methods in biblical interpretation It challenges the authority canonicity veracity and normativity of the biblical text due to its patriarchal androcentric orientation Feminist readers ask how far the patriarchal texts in the Bible can be authoritative and normative in articulating the theology and practices of the church The author responds to these important questions both sympathetically and critically and considers whether they might have universal significance He provides a lucid and thorough examination of the hermeneutical methodologies and presuppositions that lie behind many of the leading proponents of feminist readings of the Old Testament The author asks whether Eve is unnecessarily accused by the traditional readers or is completely liberated by modern feminist readers

Fighting Words Hector Avalos, Is religion inherently violent If not what provokes violence in the name of religion Do we mischaracterize religion by focusing too much on its violent side In this intriguing original study of religious violence Prof Hector Avalos offers a new theory for the role of religion in violent conflicts Starting with the premise that most violence is the result of real or perceived scarce resources Avalos persuasively argues that religion creates new scarcities on the basis of unverifiable or illusory criteria Through a careful analysis of the fundamental texts of Judaism Christianity Islam and Hinduism Dr Avalos explains how four scarce resources have figured repeatedly in creating religious violence sacred space e g the perception by three world religions that Jerusalem is sacred the creation of holy scriptures believed to be privileged revelations of God s will group privilege stemming from such beliefs as a chosen people or predestination which also creates a group of outsiders and salvation by which concept some are accepted and others rejected Thus Avalos shows religious violence is often the most unnecessary violence of all since the scarce resources over which religious conflicts ensue are not actually scarce or need not be scarce Comparing violence in religious and nonreligious contexts Avalos makes the compelling argument that if we condemn violence caused by scarce resources as morally objectionable then we must consider even more

objectionable violence provoked by alleged scarcities that cannot be proven to exist He also examines the Nazi Holocaust and the Stalinist Terror which have been attributed to the pernicious effects of atheism or secular humanism By contrast Avalos pinpoints underlying religious factors as the cause of these horrific instances of genocidal violence This serious philosophical examination of the roots of religious violence adds much to our understanding of a perennial source of widespread human suffering Hector Avalos Ames IA is associate professor of Religious Studies at Iowa State University the author of five books on biblical studies and religion the former editor of the Journal for the Critical Study of Religion and executive director of the Committee for the Scientific Examination of Religion

Peter Bedford, 2021-10-01 In the early Achaemenid Persian period the Jews returned to Jerusalem to rebuild the temple of Yahweh This volume investigates issues surrounding the rebuilding of this temple focusing on the timing and purpose of the project and the social and political circumstances in which it was undertaken The study reflects on certain passages from the Old Testament such as Ezra 1 6 Haggai and Zechariah 1 8 early Achaemenid Persian administrative practices and Judean hopes for restoration in order to question the contention that the Jerusalem temple was established as an economic and administrative centre around which competing groups struggled for socio economic and political power
