The Monk And The Philosopher East Meets West In A Father Son Dialogue:

The Monk and the Philosopher Jean-François Revel, Matthieu Ricard, 1998 In this father son dialogue Revel and Ricard explore the most fundamental questions of human existence and the ways in which they are embraced by Eastern and Western thought In this meeting of minds they touch upon philosophy and spirituality science and politics psychology and ethics They raise the eternal questions Does life have meaning What is consciousness Is man free Why is there suffering war hatred They present and practical answers that offer revolutionary approaches to how we can enrich the way we live our lives

Sigmund Freud as a Critical Social Theorist, 2024-12-02 Sigmund Freud's work has influenced the modern world in many profound ways The father of psychoanalysis Freud wrote numerous works wherein his psychoanalytic perspectives were applied to history society religion and other cultural phenomenon By expanding his psychoanalytic theories into these realms Freud insured his place within the disciplines of philosophy sociology history theology and religious studies wherein his works are still studied More specifically his psychoanalytic theories were adopted revised and expanded upon by philosophers and sociologists such as Theodor W Adorno Erich Fromm Herbert Marcuse Jürgen Habermas Jacques Derrida Julia Kristeva Gilles Deleuze Judith Butler Slavoj Žižek and many others who in some cases radicalized the latent political content within Freud's thought using it to critique modern industrialized capitalism and theorize about the possibility for alternative forms of societies more conducive towards mental health Although Freud is often marginalized or even denigrated we think there are still elements within the corpus of Freud's work that are valuable for both diagnosing social problems and addressing such problems psychoanalytically The book demonstrates the lasting relevancy of Freud's thought to a variety of disciplines as they diagnose a myriad of social issues

The Wayfinders Wade Davis, 2009-10-01 Every culture is a unique answer to a fundamental question What does it mean to be human and alive In *The Wayfinders* renowned anthropologist winner of the prestigious Samuel Johnson Prize and National Geographic Explorer in Residence Wade Davis leads us on a thrilling journey to celebrate the wisdom of the world's indigenous cultures In Polynesia we set sail with navigators whose ancestors settled the Pacific ten centuries before Christ In the Amazon we meet the descendants of a true lost civilization the Peoples of the Anaconda In the Andes we discover that the earth really is alive while in Australia we experience Dreamtime the all embracing philosophy of the first humans to walk out of Africa We then travel to Nepal where we encounter a wisdom hero a Bodhisattva who emerges from forty five years of Buddhist retreat and solitude And finally we settle in Borneo where the last rainforest nomads struggle to survive Understanding the lessons of this journey will be our mission for the next century For at risk is the human legacy a vast archive of knowledge and expertise a catalogue of the imagination Rediscovering a new appreciation for the diversity of the human spirit as expressed by culture is among the central challenges of our time

The Buddha's Gospel Lindsay Falvey, 2002 Described as unique and a great service to understanding this book is intended for three groups Western Buddhists that bulk of the West that have no religious

affiliation yet know there is something more to life and Buddhists in Asia who follow the encounter of the dharma with the West It highlights the pervasive similarities in the teachings of Jesus and the Buddha as they were probably originally presented In its six chapters and appendix it compares the two great teachers the Buddha and Jesus briefly charts the process by which experts have produced words readily attributed to Jesus and presents a Buddhist imitation of these words based on the hypothetical Sayings of Jesus It then considers congruence between the Buddha s and Jesus teachings before offering both Buddhist and Christian interpretations An appendix re presents the Buddhist imitation of Jesus words as a continuous text Dr Falvey introduces his work Jesus speaking the Buddha s words exudes audacity and ignorance yet this work essentially wrote itself as a product of my socialization a modicum of Christian theological study and its explication through three decades of casual association with Thai Buddhism Differences between the two traditions such as Christianity relying on a God while Buddhism denies the existence of a God proved themselves facile upon consideration of the metaphorical intent of teachings of both traditions

A Special Illumination Rollan McCleary, 2017-07-28 Gay spirituality represents a hidden strand in Western thought that was only publically declared from the Gay Liberation of the 1970s Since coming out expressions of gay spirituality have proliferated in both number and diversity Beginning with gay theology within Christianity the phenomenon has now reached as far as Buddhism and neo paganism But so far critical analysis of the movement has been very limited largely because gay spirituality has been treated as a political and social movement arguing for rights and acceptance within religious circles A Special Illumination offers an indepth analysis and argues that gay spirituality should be placed at the heart of religion

Totality Beliefs and the Religious Imagination Anthony Campbell, 2008-04 There seems to be a widespread notion that belief is in itself a good thing but in this book Anthony Campbell argues that for at least some people freeing oneself from all belief systems brings a huge sense of relief He illustrates this by describing his own experience of Roman Catholicism and Transcendental Meditation He also looks at the evidence for miraculous cures for cancer and at ideas about the soul with particular reference to survival And he has a discussion of how religions are transmitted which he thinks depends on story telling and language as much as on formal belief This is a wide ranging book with a lot of ideas

Global Nature, Global Culture Sarah Franklin, Celia Lury, Jackie Stacey, 2000-09-26 An excellent book The authors have the rare capacity to handle popular culture and case studies in a theoretically informed manner Original and well researched Mike Featherstone Nottingham Trent University Understandings of globalization have been little explored in relation to gender or related concerns such as identity subjectivity and the body This book contrasts the natural and the global as interpretive strategies using approaches from feminist cultural theory The book begins by introducing the central themes ideas of the natural questions of scale and context posed by globalization and their relation to forms of cultural production the transformation of genealogy and the emergence of interest in definitions of life and life forms The authors explores these questions through a number of case studies including Benneton advertising

Jurassic Park The Body Shop British Airways Monsanto and Dolly the Sheep In order to respecify the nature culture and gender concerns of two decades of feminist theory this highly original book reflects hypothesizes and develops new interpretive possibilities within established feminist analytical frames **The Serpent's Garden** Richard C

Loofbourrow,2007-06 The Serpent s Garden is a crime thriller about the macabre and mysterious murders of five female graduate students at UCLA A charismatic but controversial philosophy professor has been falsely charged and convicted of the ritualistic murders All the women were found posed and clutching a Bible the murderer left several clues including coins wedged in the victim s eyes bearing a crucified serpent an open Bible a novelty snake and an eight inch crucifix buried in the victims birth canal Professor Chance Carpenter ends up on death row because of a rush to judgment orchestrated by the diminutive FBI agent Laura Lamb Her ambitions and nefarious secrets cause her to cross the thin blue line and also become a serial killer She is captured but manages a miraculous escape from the confines of Quantico s FBI headquarters and heads west on a revenge crime spree of her own She is now on the lam her crimes are featured in the tabloids and a new dance craze is named after her College kids are doing the Laura Lamb The true killer of the UCLA coeds however has blended in with average Joe College The thriller follows a trail of evil surprise and suspense Religion and Agriculture J. Lindsay

Falvey,2005 Religion is a powerful expression of culture that is most obviously expressed in our relationships with nature As our major meeting point with nature is food this provides a fertile field for cultivating the wisdom that Professor Falvey concludes is the essence of all sustainability By bringing sustainability agriculture global issues Buddhism Christianity and a host of other factors into play we see that our motivations belie our rhetoric in environmental actions through to trade and aid This open spirited book contains a wealth of analysis and alternative logics that make it essential to serious readers about nature the environment spirituality and religion Asia and ourselves Beginning with science and spirituality the discussion moves from immortality to theology to literal misinterpretations and unifies these themes around unacknowledged Western core values Shifting to philosophy ethics and rights an ecological argument about our selective liberation of nature is proffered as an introduction to global issues including traditional values of poor countries and lost traditions in the West An engrossing hybrid Oriental Western dialectic allows chapters to be read alone or as part of an accumulating thesis Thus Buddhist and Christian teachings are applied to agriculture and sustainability and they are found to be at one with each other Whether it is biblical metaphor karmic logic or enlightened self interest the continuous thread of a strong suture stitches a complex set of subjects into a coherent sutra that will vivify the current moribund dialogue between agriculture science and religion back cover **Agriculture & Philosophy: Agricultural Science in Philosophy** Lindsay

Falvey,2020-01-01 Agriculture and philosophy have been parts of a whole across history and remain so Philosophy informs wellbeing and contentment amidst the vagaries of existence the primary concern of which has always been security of food Science once known as natural philosophy is a major means of philosophical advance today Agricultural science is presented

as comprising all of these components The philosophical quest to be at ease in nature extends from pre historical times into our unknown future and employs diverse vehicles to convey insights across generations via myths legends religion academic study and ritual practices Expressing esoteric concepts has employed agricultural metaphor across the historical era as it has been our most common interaction with nature Continuing as our most widespread human interaction within nature agriculture s role in creating civilization and later its writing eventually led to an urban separation from nature including food production Unifying the philosophy agriculture and agricultural science across cultures and traditions from pre agricultural times through the European Enlightenment to today this work builds on neglected ancient insights Perhaps the most profound of these insights is that our thoughts and actions may be seen as an integral part of nature Rather than being independent agents with free will our fears and guilt may be seen as active forces in the dynamics of nature itself which includes our procurement of food This conception offers a wider interaction than can be comprehended from current popular approaches
